NEWTON.

—Pianos, Farley, 433 Washington St., N.
—Roses \$1 a dozen at Morey's.
—Fine watch and clock repairing at W.
A. Hodgdon's, 326 Centre street.
—Mrs. Rich of Carleton street has re-
turned from a visit to Cape Cod.
—Mr. F. H. Nichols has returned from
the Wayland Inn to the Hunnewell.
—Four members of the Newtonian Cycle
Club captured prizes in the road race,
Saturday.
—Mr. and Mrs. J. A. Conkey have re-
turned from Hull and have taken rooms at
the Hunnewell for the winter.
—Mr. and Mrs. J. Henry Bacon left for
New York Tuesday night, where Mr.
Bacon will select goods for the fall trade.
—Thanksgiving afternoon and evening
the Newton Social Club will hold its
second grand hop and prize dance at
Armory Hall.
—Mr. Howland Twombly, son of the
Rev. Alexander Twombly, is the guest of
friends in Hopkinton. He will return home
early next month.
—Mr. Kempshall and family, who have
been occupying Mr. Kinsley's house on
Waverley avenue the past summer, have
taken rooms at the Hunnewell for the
winter.
—Miss Robbins has returned from New
York and will have her opening of fall and
winter millinery, on Monday, Tuesday and
Wednesday of next week, at her store on
Elmwood street.
—The Newton Veteran Firemen Associ-
ation with the hand tub "Nonantum"
captured fourth prize, a purse of \$75 in
given at the Newton Firemen's muster in
Hudson, Saturday.
—The Garden City Wheelmen are justly
proud of their members, who carried off
five of the best prizes at the road race
Saturday. Two time prizes and three other
prizes were captured by club members.
—The general interest in bicycling was
shown by the great crowd in attendance at
last Saturday's road races. Several
thousand people were present and specta-
tors were scattered all along the route.
—Miss Mary Sloan is able to be out
again, after a severe attack of typhoid
fever. Owing to her health, she has re-
sented her position in the Newtonian,
which she has held for eight years, and
will take a long rest.
—Among the visitors to the new McLean
Asylum buildings at Waverley, which were
thrown open for inspection on Tuesday,
were Dr. L. E. Stone of Newton, Dr. E.
Baker of Newtonville and Dr. N. Emmons
of Newtonville.
—At the Methodist church the pastor
will occupy the pulpit morning and evening.
Rally service with Communion and
reception of members on Monday morn-
ing, Oct. 6, at 11 o'clock in the
evening. Monday evening the third Quar-
terly Conference will be held.
With a view to forming classes in
French, Prof. Bachmann, Ph. D., of the
University of Paris, will give a free lec-
ture on Monday, Oct. 7, at 11 o'clock in
Hall. Gouin method the only complete
and logical one.
—Trial Justice Washburn in his report
on the death of Robert H. McGlashan, at
Wellesley Farms, July 5, last, finds that
the client was due to the coroner's in-
vestigation in the case of the victim in
walking on the gravel beside a
moving train. There is a good deal of
criticism of this decision.
—A special course of sermons will be
delivered in Grace church on the Sunday
nights in October, upon the following sub-
jects: Oct. 6, "What is Socialism?" Oct.
13, "What is Christian Science?" Oct. 20,
"What is Theosophy?" Oct. 27, "What is
Spiritualism?"
—The Gallin gun that will be used at
the 5th regiment field day, Oct. 10, will
hereafter remain in Co. C's armory, in
Elmwood street. It has been decided to
place the gun here as its quarters with Co. L
of Attleboro are too small, and as they are
obliged to take it in pieces in order to re-
move it from the hall, there is an ex-
cellent opportunity to get the gun out
of the armory, and a chance for the boys to
develop additional muscle.
—Mr. Henry E. Cobb, president of the
Clifford Guard Veteran Association, pre-
sented Co. C Monday night with a new
water color painting, the subject of
which is "A Letter from Home." It
pictures the corner of the camping ground
with a row of tents on one side, and a
young man dressed in a private's uniform
seated on a camp stool in the foreground,
affectionately gazing at a photograph which
he has evidently received with his "Letter
from Home."
—The music for Sunday evening at Grace
church, special service of song,
Processional "Christ is our corner stone."
H. W. Parker
Service Anthem,
Anthem, "I was glad when they said unto
me, 'Tenebrae, 'Just for today,'"
Organ postlude.
Organ prelude, "I heard the voice of Jesus
say,"
Soprano solo, "Lord, now lettest Thou Thy
King Hall"
Organ postlude.
—The Garden City Real Estate Agency
has leased the double house, Maple avenue,
east side of Mr. Chas. F. Gilman of Boston;
the Thomas Watson house, corner of
the Lowell avenue and Oakleigh road to
Mr. F. W. Ashcroft of Malden; the Martin
Lafayette house, Carleton street, to Mr. N.
Sites of China; the Fewkes house, Maple
street, to Mr. E. B. Bacon of Boston; the
Rockford house, Hunnewell terrace, to Mr.
James MacCandlish of Newton.
—After the men's club meeting at the
Grace church parish house, Wednesday
evening, there was an adjournment to the
new library at the Public Library, to
attend President Morton had called the
meeting to order, Mr. W. C. Bates gave
an interesting review of the early church
history of Newton, down to the organiza-
tion of Grace church. Prof. S. E. Warren
took the subject up at that point and
brought it down to the present day, with
special reference to church affairs.
Rev. Dr. Shinn followed with a very
interesting account of the life of Rev. John
Singleton Copley Greene, the first rector
of Grace church, who was a very remark-
able man, and whose large wealth and
generous hospitality made him a promi-
nent figure in Newton. He built what is
now the Pomroy Home and gave the
house to the church for a parsonage.
—Centre place, leading from Centre
street, opposite to the Public Library, to
the tunnel, is to be greatly improved by
the depression of the tracks. It is to be
widened to forty feet, and a bridge over
the tracks will connect it with Washington
street. As a new depot will be built, some
100 feet above the present one, Centre
place will be one of the main entrances to
the depot, and it promises to be an im-
portant business street. The land on the west
side is owned by Mr. C. B. Lancaster and
it is understood to be in the market and
can be secured at a reasonable price. The
sale of one lot with the house, the
main house and other property ought to
be sold. The location is such that
stores could be rented before the building
was begun, as the south side of the track
has a great attraction for business. A
block with stores on the first floor and
apartments above would prove a paying
investment, and that much-talked-of
syndicate that has been buying the
main house and other property ought to
organize at once, and prepare the new
stores that are urgently needed. Newton-
ville with its usual enterprise has started a

ing of mud,

half dozen blocks, but Newton does not
move so quickly.
—David Griffin, employed by John Lyons,
met with a serious accident yesterday
at work on the residence of Mr. J. Q. A.
Whittemore on Hunnewell Hill. A part of
a derrick suddenly gave way and fell on
him, breaking his knee-cap and causing
severe internal injuries.
—Mrs. Elizabeth Higgins, for many years
a resident of Newton, and mother of
Michael C. Higgins, the well known
plumber, died at the home of her son on
Thorton street, this morning, at the ad-
vanced age of 81 years. The funeral will
be held from the Church of Our Lady,
Monday morning.
—Mr. George A. Morse, agent for the
Metropolitan Life Insurance Co., was badly
hurt by falling from his bicycle, Wed-
nesday afternoon. He was coasting down
Park street and had turned into Elmwood
when his handle bars broke, and he fell to
the ground, badly cutting his head and
sustaining severe bruises. He was taken
to his home on Washington street in a
hack and attended by Dr. Stearns.
—Mr. H. W. Crowell met with a mishap
while driving at Chestnut Hill, Friday
afternoon. He had just alighted from the
carriage when the horse started and ran
away. By one or more collisions with tele-
graph poles the animal managed to free
himself from the carriage and was found
some time later by Henry W. Crowell, Jr.,
in the barn of Mr. Hammond on Chestnut
Hill.
—Rev. W. A. Lamb, who is pastor of the
Centre Congregational church at Braintree,
was surprised last Saturday evening by his
parishioners, who had met to present Mrs.
Lamb with a mahogany Morris chair, with
velvet cushions, and a dainty box con-
taining fifty-five dollars in gold. Mrs. Lamb
was not able to be present but Mr. Lamb
responded, although greatly surprised by the
presentation of the chair, and the apprecia-
tion shown of the labors for the church of
himself and his wife.
—Arthur Wright of the N. A. A. will
enter in the half mile running race for
amateurs at Natick, Saturday. He will
also compete for the amateur champion-
ship of New England, at Worcester, Oct.
12th, in the 1 mile and 3 mile open. Wright
is practically a new man, but has made
rapid strides towards the leadership of
amateur runners of New England. At the
Riverside meet at Spy Pond some time last
month he made an excellent showing, and
won the half mile in 2:14 on the N. A. A.
grounds at Newton Centre, July 4th. The
time if not the same day he came in
second in the 600 yards run at Worcester.
He is under the training of John Bowler,
superintendent of the Charlesbank Gym-
nasium in Boston, assisted by John Leavitt
of this city. Trainer Murphy of the New
York Athletic Association claims to be the
first one to bring him on the track, while
trainer Bowler has had him in charge for
some time previous.

NILES FOR SENATOR.

RESULT OF REPUBLICAN CONVENTION IN
SECOND MIDDLESEX.

The Second Middlesex Republican
Senatorial Convention was held at Wal-
tham Wednesday evening. The conven-
tion was called to order by Col. E. C.
Benton of Belmont at 7.30 o'clock. J. F.
Hutchinson of Lexington was chosen
Temporary Chairman, and Charles E.
Tracey of Waltham Temporary Sec-
retary. This organization was later in the
evening made permanent.

On motion of L. E. Bennick of Lexing-
ton, a Committee on Credentials was
appointed, each town in the district to
have one representative. Out of 65 dele-
gates to which the convention was en-
titled, 64 were present, the Lincoln dele-
gate being the only one absent.

Mr. Dunn of Watertown then pre-
sented the name of J. P. Niles of Watertown
as a candidate for re-election as Senator.
Mr. Dunn further said: "Dr. Niles is
not the best man who ever occupied a
Senatorial chair, but he will compare
favorably with any. He is a man who
has backbone, courage, and will stand up
against the lobby every time. He is not
a man who will be found missing when
an important matter is before the Senate,
but will be found doing his duty every
time." He entered the Senate at a great
disadvantage. Has he made any great
take?" Mr. Shepard of Newton seconded
the nomination of Dr. Niles.

Charles M. Sudden of Waltham then
presented the name of Fred H. Bradford,
the regular Republican nominee. He
said: "I nominate Mr. Bradford because
I believe the delegates will nominate a
man who has made a record at the State
House. Representative Bradford has
made a record equalled by no other. He
has accomplished good work. The com-
ing winter will have important matters
before it, as the improvement of the
Charles river embankment, metropolitan
water supply and metropolitan parks
and boulevard. He is a Republican of
the Republicans. In the past he has
received the support of Waltham, and will
this time if nominated." Mr. L. E. Ben-
nick of Lexington seconded the nomi-
nation of Representative Bradford.

It was then moved that an informal
ballot be taken. This was objected to.
Mr. L. E. Bennick of Lexington then
said: "If an informal ballot is not
allowed, this is the most peculiar pro-
ceeding that ever disgraced any Republi-
can convention that I have ever attended,
and I have attended Republican conven-
tions for years." Mr. Richardson of
Concord hoped that the request would
not be refused.

The Lincoln delegate arriving at this
time, he was allowed to have his vote
counted. The informal ballot was then
taken, resulting as follows: J. P. Niles,
44; F. H. Bradford, 20; Col. Barrett, 1.
The formal ballot was then taken and
resulted as follows: J. P. Niles, 45; F. H.
Bradford, 18; Col. Barrett, 1.
The nomination of J. P. Niles, on
motion of Charles M. Sudden, was then
made unanimous.

The business of the evening was then
brought up, that of electing a member of
the Republican State Central Committee.
The names of Col. E. C. Benton of Bel-
mont and William H. Coolidge of New-
tonville were then presented. After con-
siderable talk and discussion, a ballot
was taken, resulting as follows: Col. E.
C. Benton, 63; William H. Coolidge, 2.
The election of Col. Benton was made
unanimous.
Mr. Henry A. Richardson of Concord
moved that the Chairman of the various
Town and City Committees and the
and the member-elect of the State Com-
mittee serve as District Committee, and
it was so voted.

Lessons in French.

M. S. C. de Soissons has been per-
suaded by members of the Newton Club
to begin some classes in French in this
city, and possibly he may be induced to
give some lectures. He is well known as
a writer and art critic, his book on "Boston
Artists: A L'arisan Critic's Notes,"
having received high commendation from
many sources, and he is also the author
of many charming short stories. His
lecture on "Tribby" and the "Latin
quarter of Paris" has been delivered in a
number of cities before large audiences,
with many expressions of approval. An
unusual opportunity to learn French
from a scholarly Parisian is offered to
Newton people. His address is Maple
Circle, Newton, where those who may
wish lessons can communicate with him.

**The Temperance Argument for Wo-
man's Suffrage.**
Rev. O. R. Miller spoke at the Newton
Lower Falls M. E. church last Sunday
evening on the above subject. He
brought forth strong arguments to show
the necessity of woman's ballot in order
to get rid of the liquor traffic. He gave
many facts and testimonials to show
woman's vote would help the temperance
cause.

1. Because the whole liquor power
everywhere is always opposed to Wo-
man's Suffrage. They laugh at woman's
prayers but they fear her ballot. The
National Association of Brewers as-
sembled at Chicago in October 1881,
unanimously passed this resolution:
"Resolved, that we are opposed to
Woman's Suffrage everywhere and al-
ways, for when woman has the ballot,
she will vote solid for Prohibition,
and woman's vote is the last hope of the
Prohibitionists."

2. Wherever women have had the
ballot they have voted solid against the
saloon. At Rockford, Ill., at a special
election, women were allowed to vote on
the license question; 2800 women voted,
but only two voted in favor of license.
Many similar instances can be given.
3. With the help of woman's vote
better men would be elected to office.
Gov. Warren of Wyoming said: "Our
women consider much more carefully
than our men the character of candi-
dates, and both political parties have
found themselves obliged to nominate
their best men in order to obtain the
support of the women."

Rubber Tires.

The most reliable rubber tire, and also
the cheapest, is represented and the tires
furnished by P. A. Murray. They are
made by the Rubber Tire Wheel Co.,
who have a branch house in Boston.
There is no comfort in carriage riding
without rubber tires.

Mr. E. C. Lewis formed a training class
for boys Thursday evening.

WAS IT SUICIDE?

FRIENDS OF GEORGE S. DALBY INCLINED TO DOUBT IT.

The residents of West Newton were startled to read in the daily papers of the reported suicide of George S. Dalby, a well known painter of West Newton.

The story was that he went aboard the steamer Lewiston, for Rockland, Saturday afternoon, gave his ticket to the purser and asked not to be disturbed, as he had been up all night the night before. When the steamer reached Bangor he was not in his stateroom, the door was locked and the window open. In the state room were his coat, hat, trousers and shoes, and also a bottle containing a little carbolic acid. Only 75 cents was found in his clothes.

Saturday evening Mrs. Dalby received a letter from her husband, saying that before it fell into her hands he would be dead. This letter, which was postmarked Boston, was affectionate in tone, and stated that he was financially embarrassed in such a way that his friends were involved, and his only resource was in suicide. A similar letter was received by E. E. Burdon, who lives opposite. He was asked to take charge of Dalby's life insurance and pay his debts. Another letter was sent to Walter Grant of Newtonville of substantially the same tenor.

The letters were mailed from Clark's hotel in Boston at 4 o'clock Saturday afternoon, and this shows that he returned to the hotel after visiting the boat.

His friends, however, believe that he returned to the boat from the hotel, and either left the boat just before its departure from Boston or on its arrival in Rockland, Me., at 1 o'clock Sunday morning.

It is certain, however, that he was at Clark's after the time he left his ticket with the purser, with the request that he should not be disturbed, because he had been up all night.

Shortly before 4 o'clock he was at the Town club on Byington street, of which he was a member, and frequently remarked that he must hurry in order to get the boat for Bangor.

He was last seen, as far as is known, by Walter Grant of Newtonville, who left him about 4 o'clock, or some time after Mr. Dalby first went aboard the Bangor boat. When last seen, however, he said he was going to Bangor.

The letters written by the missing man were in a decidedly dramatic vein, and described his promised suicide as a "rash act."

When last seen Mr. Dalby had a hand bag of russet leather. This bag was found in the stateroom with the clothes and hat.

At Clark's hotel he cashed a check for \$100, and had that amount of money in his possession at 4 o'clock, or one hour before the boat sailed.

Mr. Dalby's friends are inclined to the opinion that he left the steamer at either Boston or Rockland and that he is now in Canada.

It was ascertained today that Mr. Dalby's preparations for departure were more complete than was anticipated.

It was found that within two days of his departure he had borrowed \$2000 from friends, and that he must have been in possession of at least \$3500 at the time of his departure.

His wife's little fortune has been spent by him, it is alleged, and his debts in West Newton are said to be even larger than was at first supposed.

It is said that he had been playing poker of late, and had been a heavy loser.

He spent much of his time in Boston and was well known about the hotels.

His store is now in charge of A. J. Jordan who was put in as keeper by the West Newton National Bank.

He was heavily insured, having \$10,000 in the Equitable and \$5000 in other organizations, and it is quite generally believed that the suicide ruse was adopted in the hope of securing this money for his wife.

Mr. Dalby had always kept up appearances and was a man of very pleasing address, and always dressed well. Those who know him well say he was the last man to commit suicide under any circumstances, but there is no saying what a man will do when driven into a tight corner by pressing financial claims, which he cannot meet. The whole circumstances surrounding his disappearance are so melodramatic, however, that it will be hard to convince people that it was really a case of suicide, unless his dead body should be found.

DID NOT LEAVE BY THE BOAT.

Later revelations show that Dalby did not leave by the boat, as that left at 5 o'clock, Saturday, and was on Court street, at 5:30 by Martin C. Laffie, a constable in the Newton Court. Laffie knew Dalby well. He was returning to Newton from Lowell. He left Lowell at 4:15 p. m., arriving in Boston at 5:15. He walked up Sudbury street to Court. At the corner of Battle he saw Dalby coming along hurriedly and going toward Sudbury street.

CUT AN ACQUAINTANCE.

Laffie was about to speak to Dalby, when Dalby turned his head away, as if to avoid the meeting. He passed on, quickening his step. Dalby was dressed in a suit of black and wore a black derby hat. This was his best suit of clothes. The suit found in the stateroom on the Lewiston was a blue one. It was his business suit. There was also a brown derby hat.

There can be no doubt of the identity of the man that Laffie saw. He is positive of the man. He and Dalby were on speaking terms, and had known each other a long time. The Newton police also assert that they have found another man who saw Dalby at 6 p. m. His name is not revealed.

These statements establish the fact that Dalby, after having gone aboard the Lewiston, changed his clothing and crawled out of the window, after having locked the stateroom door on the inside. He had plenty of time to do it before there was any number of people on the steamer.

HIS BUSINESS PECULIARITIES.

Mr. Dalby owes nearly all of his help, and his "mysterious disappearance" affects them more than many others of his creditors, and Dalby has lots of creditors. Two days before Dalby disappeared he entered Mr. Tarleton's dry goods store at West Newton with his blandest smile, and, after exchanging courtesies in the usual manner, told Mr. Tarleton a little tale of business woe. He said that Mr. Hunt, the carpenter and contractor, owed him \$200, that Hunt could not pay it, and that as he had to meet a note of \$600 on which amount he was shy \$200, if Mr. Tarleton would give him

a check for \$200 he would exchange therefor his own check for a like amount, his check not to be deposited until Saturday. Mr. Tarleton was a little suspicious, and said he was a little "shy" himself and could not possibly do it. Mr. Dalby retired gracefully, and now Mr. Tarleton is glad.

Dalby did not have smooth sailing all the time and with all of the people. He ran up against Mrs. Dr. Bishop of Crafts street, West Newton, in a little business deal some time ago which caused some little comment as well as amusement at the time.

He signed a contract to paint the interior of Mrs. Bishop's house for \$488. He presented a bill for \$600 when the job was completed, \$600 of which, however, was for another person's services, and was allowed.

Mrs. Bishop stared hard at the bill for some time, and then stared at Dalby, but he brought his self assurance along with him, and told her that the job was cheap at that. She produced the contract. He assured her that he had done \$600 worth of work, contract or no contract, and threatened her with the law if she did not pay him.

She next consulted her lawyer, and the matter was submitted to experts for arbitration. The result was that she paid him \$700. He came around after the \$200, and kept coming around, and pleaded that he was in need of money. She was adamant, however. Then he offered to paint the outside of the house for the \$200. She agreed. He wanted a note in advance, and she gave it to him. But there was a proviso in the note, which stated that it was good only when the work of painting the outside of her house was completed. This did not trouble Dalby. He took it to the bank. The bank was troubled, however. It did not want that kind of paper, neither did anybody else.

Back comes Dalby. He wanted a differently worded note, a 30-day note, and as the work would be completed in a week, and he had already put men on the job, she thought that that was not a bad business proposition, but she decided to consult her lawyer. After two or three days of consultation, during which time the work was progressing, Mr. Dalby got his note, but without some misgivings on the part of Mrs. Bishop. She was afraid that when the note was cashed that would be the end of the painting on her house. But her lawyer made him agree to finish the job, and he did, although it is said that some of the workmen have been waiting for their pay since.

The Boston friends of Mr. Dalby have been hit the hardest, it is now thought. There is no way of getting at the exact amount, but it is known that some of the members of one club to which Dalby belonged are out \$500 to \$600, and perhaps a good deal more. The whole amount of his "financial transactions" in four days before he disappeared will reach \$4000—that is at the rate of \$1000 per day.

Everybody sympathizes with his wife and all speak of her in the highest terms.

C. M. T. S., 12; Newton Second, 6.

Bob Harlow, manager of the Cambridge manual training team, has not such a poor team after all. Wednesday afternoon the school journeyed to Newton Centre and tackled the second eleven of the Newton Athletic club. The interscholastic lads won out by a score of 12 to 6. Newton had a much heavier team, but manual training evened up matters by resorting to a kicking game.

All of the scoring was done in the first half. It was Training School's kick off. Newton returned the punt, and then Yaeger sent a twister sailing through the air. Grant, a new man, who is playing left end for C. M. T. S., followed and secured the leather on a fumble, and was over the line for a touchdown in a jiffy. Thompson made the second score on a beautiful 75-yard run around the left end, assisted by a superb interference of Grant, White and Sawin. The latter kicked both goals.

Knight, full-back for Newton, went 30 yards around Grant's end for a touchdown, and then kicked the goal.

In the second half it was a pretty even thing. White and Thompson of C. M. T. S. retired from the game with injuries that will give them a lay off for a week or so. White damaged his knee and Thompson hurt his sore ankle.

A Mean Advantage.

(From Puck.)

Able Editor Hawville Clarion (to his pastor)—Look here, Bro. Harps, it strikes us that you have taken a rather mean advantage of our son.

Rev. Mr. Harps—How so? Able Editor—Why, even though our son, who is learning the printer's trade under us, is in love with your daughter, while she does seem to reciprocate his passion, we hardly think you were warranted in taking for your text yesterday the words: "My daughter is grievously tormented with a devil."

Rival Scrappers.

(From the Pittsburg Chronicle.)

"What do you think," said the Horse Editor to the Snake Editor, "of the action of the governor of Texas in calling the legislature together in special session at this time?" "Well," was the reply, "there has been some lively slugging in the Texas legislature before now, but I doubt if it will prove a successful counter attraction to Corbett and Fitzsimmons."

ANNUAL FIELD DAY.

THE FIFTH REGIMENT WILL VISIT NEWTON THIS YEAR.

The annual field day of the Fifth Regiment is one of the great events in military circles, and that it is to be held in Newton this year is an honor which many cities would be glad to obtain, and would celebrate it as a general holiday. It is thought that something of the kind will be done here, and the whole city will certainly turn out to see the dress parade, and review by the Governor and his staff, and Mayor Bothfeld and the city council, besides Gen. Peach of the brigade and a large number of distinguished civil and military visitors. The Regiment goes out to Woodland in the morning, where it will have a hard day's work across country, as if in an actual campaign. After the day's work is over, the line of march is formed, and the men march from Woodland down Washington street to the City Hall, and it is suggested that residents along the line make a liberal display of the national colors at least.

West Newton gets the finest part of the show, as there will be the dress parade before Governor Greenhalge and staff, Mayor Bothfeld and the city council, and other dignitaries. After the parade, the out of town companies take the cars at West Newton for home, while the Clavin Guard with the Veteran Association and invited guests will march to the Newton Club, where a banquet will be held. Among the guests will be Governor Clavin, after whom the company is named, Governor Greenhalge and staff, the field staff and line officers of the Regiment and other prominent guests from out of town. As the Veteran Association includes a great number of prominent residents of Newton, the day will be of a special interest to many throughout the city, and preparations have been made to have it one of the great events of the year.

The city is to furnish light refreshments for the regiment before the dress parade, and an appropriation has been voted for that purpose.

Bowling at the Newton Club.

The Bowling committee announces that the bowling season will commence Oct. 14. Several attractive tournaments have been arranged as follows:

1st. Grand Handicap Tournament—50 strings—Commences November 15th, and ends about March 1st. The Club will follow the policy inaugurated last year and present a handsome trophy for competition in the above tournament. Added to this will be a number of valuable prizes for members finishing winners in each class in the finals.

2d. Matched Pair Tournament—Commences October 14th, and ends about November 4th. The success and pleasure attending this tournament last year have led the committee to adopt it this season, and as it will be started October 14th, the committee urge all members who intend to participate to present their entry at once. Don't wait to match your pair (if undecided) this can be done later.

3d. Class Team Tournament—Commences about November 10th, and ends about March 1st. The continuance of this will be one of the prominent features of the bowling season, and several valuable prizes will be offered in each class. As it is a difficult matter to prepare the schedule and avoid conflicting with other entertainments at the club, the committee earnestly request the members to report their entry without delay.

4th. Class Individual Tournament—Commences about March 1st, and ends about April 1st. The committee will offer prizes for this tournament, provided the club members will enter in numbers sufficient to warrant such action. The feature is a new one and should certainly commend itself to every bowling member, as it eliminates the heavy handicap and makes the tournament full of interest to each participant.

5th. Monthly Handicap Tournament—A new feature will be the above named tournament which is to be rolled on every third Saturday of each month, beginning and ending on that day. This tournament originated in the desire for short mat-ees and offers a satisfactory solution of the idea. Suitable prizes will be presented with each tournament.

The Club will offer a prize each week for some special feature in bowling (to be announced each week on bulletin board in the bowling alley), which is open to all bowling members. The prize is offered only on condition that members competing for same shall bowl not less than ten strings during the week. Scoring for above will commence every Saturday a. m. and end the following Friday 12 p. m.

Entries must be addressed to W. F. Dearborn, Jr., Newton Club, Newtonville, or Bowling Department, Newton Club. It is the desire of the Committee to arrange for a team to represent the Club to meet other clubs, and members desiring to be candidates, and who will take time for practice, will please notify by letter, Mr. W. F. Dearborn, Jr., who will have sole charge of the team as last year. It is hoped that members comprising this team will enter into the spirit of the game with a determination to make the team strong and successful, and keep up the prestige of the "Old Newton" team.

Brookline beats Newton.

Brookline High defeated Newton last Friday 22 to 0, and thus became the sixth member of the interscholastic league. The game was at the Cypress street grounds in Brookline, and Capt. Lee played a strong game at center as did Bryant at full-back, Cotting at half, and Duane at end.

When the time was called, Brookline had the ball on Newton's three-yard line. BROOKLINE HIGH. NEWTON HIGH. Morse (North), 1;..... f. e. Duane, 1;..... f. e. Harrington, 1;..... f. e. F. THE Democratic State Convention, as
expected, gave Geo. Fred. Williams the
honor of a nomination for governor,
which will prove an empty one this year,
unless all signs fail, and there is little
hope for the rest of the state ticket. The
platform adopted is one of the best that
has been constructed in this state in
recent years, and the framers of it were
evidently the ablest men in the conven-
tion, who were given full sway to build
whatever kind of a structure they
pleased. The comments on some of the
tendencies of government in Massachu-
setts are wise and timely, and could be
approved by the great mass of Republi-
cans, who do not approve of the effort to
deprive cities of home rule, by centraliz-
ing the police power of cities in the
governor, nor the way in which corpora-
tions have been allowed to carry every-
thing before them in the legislature, and
usurp the rights of the people. Mr. Wil-
liams on such a platform will make a
very warm campaign, but there are al-
ready signs that the reforms demanded
will be urged by Republicans also. The
plank in favor of good roads will be found
in all platforms this year, and shows that
the politicians are aware of the great
number of wheelmen who have votes.
The platform is an interesting one, and
it promises to make state issues the
prominent topic all through the cam-
paign. In regard to recent legisla-
tures it might be said that the Democratic
members have been just as careless of
public rights, when threatened by the
corporations, as the Republicans, and
the only remedy seems to be to put up
better men all round, and then arouse
public attention to such an extent that
they will not dare deviate from the pro-
per path.

THE town of Hartford in Vermont has
been made famous this week by a quarrel
in its Congregational church. The man
who plays most of its expenses has dis-
cussed that the minister, while a Re-
publican in politics, voted for Cleveland,
and therefore he has withdrawn his sup-
port, and refused to pay any more money
for church expenses. He is quoted as
saying, "I wouldn't hear the gospel
preached by a Democrat any more than
I would cut off my right hand." Such a
man's Christianity evidently goes to the
wall when politics are in question.

HON. THOMAS B. REED was in Boston,
this week, the observed of all observers.
He has evidently been in training all sum-
mer, for the reporters say he has not an
ounce of unnecessary tissue, and he is as
brown as a birch canoe. His bicycle has
evidently done him good, and his train-
ing ought to give him a great advantage
in the race for the presidency. There
would be more enthusiasm for him in
Massachusetts than for any other of the
candidates who are aspiring to the high
office.

THE Republican Representative con-
vention was a very quiet and unanimous
affair, and Messrs. Hollis and Harwood
were renominated by acclamation, with-
out a vote in opposition. Both have
made a good record in their previous
terms and ought to have a good deal
more influence after their previous ser-
vice. It is the only way for Newton to
have much influence in the house, to
find good men and then keep them in
office.

THE Democratic Representative con-
vention only nominated one candidate,
but they chose about as good a man as
could be found, in Mr. Prescott C. Bridg-
ham of Newtonville. This will make
the contest a three cornered one, which
in Newton lends a little uncertainty to
the result and so makes it interesting.

SENATOR NILES was an easy winner at
the Senatorial Convention, having 44
votes to 20 for F. H. Bradford of Wal-
tham. There was quite a lively time at
the convention and evidently there is a
good deal of hostility to the A. P. A.
Senator.

Newton's Blue Book.

Mr. E. A. Jones, publisher of the New-
ton blue book, has begun his canvas for
the next edition, and will make it even
more valuable than formerly, giving the
street list, the house address of the
principal residents, and much other valu-
able matter. The book will be valuable as
the last Newton directory is already out of
date, owing to the many changes the past
year.

OVER A MILLION.

CONTEST OVER THE WILL OF MRS. ELIZ-
ABETH ELDRIDGE OF NEWTON.

The will of Mrs. Elizabeth T. Eldridge
of West Newton was allowed in the prob-
ate court at East Cambridge this yester-
day without opposition, although it had
been announced that there would be a
contest.

The will disposes of property estimated
to be worth over \$1,000,000, and a codicil
makes further disposition of the addi-
tional sum of about \$400,000.

It is over the codicil that the contest
comes, although the allowance of the
will and codicil does not settle the con-
troversy, which is over a clause in the
will, which is capable of being inter-
preted in two ways. If one decision is
made the codicil bequeaths nothing and
not only will the three nieces of Mrs.
Eldridge, who are given large bequests
under it, get nothing, under a division
of the trust estate, but some \$70,000 in
charitable bequests will fail.

If Mrs. Eldridge had no power to dis-
pose of the trust estate, the half will go
to be divided among a great many of the
descendants of Mr. Trull's brothers and
sisters, who live principally in Essex
county.

Attorney engaged in the case are
preparing the matter for the court, and
it will be submitted at an early date.

Mrs. Eldridge had for a great many
years the entire income of the trust es-
tate, and it is estimated that irrespective
of that she had accumulated and left
about \$1,000,000.

Quarterly Meeting of the Board of
Directors of the Newton Hospital.

The regular quarterly meeting of the
board of trustees of the Newton Hospital
was held at the Hospital on Monday after-
noon, Sept. 30th, with President J. R. Lee-
son in the chair and the following members
present: Messrs. Bacon, Billings, Gould,
Haskell, Hovey, Leonard, Lowell and
Morse, Doctors Crockett, Frisbie, Seales
and Thayer, and Messrs. Burr, Haskell,
Petee, Tyler and Travell.

The records of the last meeting were
read and approved, and the report of the
treasurer, Mr. Bullens, was presented, and
on motion, accepted and filed.

Mr. Lucius G. Pratt, chairman of the
finance committee, reported verbally that
the finances of the institution are in a
favorable condition.

Dr. Thayer of the executive committee,
reported the usual amount of routine work
performed, and in response to an inquiry
as to the results obtained at the Hospital
from the use of anti-toxine, stated that their
experience has been favorable.

When they first began using it, last win-
ter for a time, the number of deaths fell
from about 50 per cent. to 6 or 5 per cent.,
but since then the decrease has not been
quite as marked. Experience seems to
show that if the anti-toxin is used during
the first 24 hours of the attack it is most
certain cure. After 48 hours it is
much more doubtful; and later than that it
is questionable if it does any good. Since
the use of the new remedy began there
have been some sixty cases of diphtheria
treated, the disease having been so un-
usually prevalent during the past summer,
that it has been almost impossible to make
necessity repairs to the contagious wards
on account of their being so constantly oc-
cupied by patients. The serum supplied
to the hospital by the State Board of
Health being absolutely pure, no bad ef-
fects have followed its use.

The report of the board of managers of
the Home and Training School for Nurses,
prepared by Dr. S. L. Eaton, was read by
the clerk, after which the meeting ad-
journed at 4:05 o'clock.

\$75 in Gold.

The Newton Veteran Firemen's Associa-
tion last Saturday, attended a hand engine
muster at Riverside Park, Hudson, con-
ducted by Hose Co. 2 of Marlboro, and not-
withstanding they had a very small num-
ber of men, not near enough to properly
work the machine they succeeded in
capturing fourth prize of \$75 in gold.

They went via the Mass. Central R. R.
from Waltham, leaving West Newton
shortly after 9 o'clock a. m., arriving at
Hudson at 11:20 o'clock, where they were
received at the depot by President R. H.
Brigham of the Hudson Veteran Associa-
tion and of the N. E. Firemen's Union,
who escorted them to the beautiful home,
neatly and comfortably in a most hospi-
table manner, until the time arrived
for them to depart for the muster field. A
bountiful collation with coffee was fur-
nished the veterans at a time when it was
most acceptable, for which the organiza-
tion, as it was about to depart led by acting
Capt. John Hargrove, gave three rousing
old time firemen's cheers and a tizer for
Capt. and Mrs. Brigham and the members
of their family.

The muster itself was a very badly man-
aged affair, and it was not until 3:30 o'clock
that the playing commenced, which was
horizontal through 200 feet of rubber hose.
A strong wind blew diagonally across
the stream from the rear, which was detri-
mental for long distance playing, which
with a severe handicap of men, engine and
hose made Newton's record much smaller than
it otherwise would have been. The result
of the playing was as follows, the Newtons
were the fifth to play:

Quinsigamond L. Hopkinton, 209ft. 10.3-4
in.; Eureka, Hudson, 191ft. 7.5-8 in.; Okoma-
makamest, Marblehead, 187ft. 5.3-4 in.;
Nonantum, Newton, 181ft. 6.1-4 in.; Charles-
ton Veterans, 175ft. 10.4 in.; Union 2, East
Pepperell, 177ft. 5.2 in.; Atlantic Swamp
scott, 173ft. 2.12 in.; Phoenix, Marlboro,
170ft. 1.3-4 in.

As there were seven prizes all but the
last received that year and that was a scrap
company picked up for the occasion.

The association returned home early in
the evening and as usual did so in a quiet
manner.

At a meeting of the association held
Wednesday evening it was unanimously
voted to enter the Union muster at Boston,
Oct. 16, and a drum corps has been engaged
for that occasion. This will be the largest
hand engine muster this season, with
probably 25 or more of the best engines
extant in the contest.

A meeting for drill and business will be
held at their headquarters, Watertown
street, West Newton, next Monday evening.

Capt. Exley, who is now stopping at
Marlboro, was with the vets and cheered
them on to victory.

nership dates from Oct. 1, 1895, and the
offices will be at 113 Devonshire street,
rooms 1, 2 and 3. Boston and suburban
realty will be the special business of the
firm. Mr. Bowker will give his attention
to the sale and leasing of business and
other Boston real estate, and Mr. Wills
to suburban properties.

George B. H. Griffin has purchased of
E. B. Haskell a frame house, stable and
about 18,000 square feet of land on the
southeasterly side of Vista avenue, Aubur-
ndale, adjoining the residence of
Miss Guiney. Mr. Griffin, who is now a
resident of Boston, will make Aubur-
ndale his home.

Harry Burrage, assistant cashier of
the Third National Bank, Boston has
purchased a lot 70x100 feet, on the eas-
terly side of Sterling street, West Newton
hill, belonging to and in the rear of the
residence of Hon. Horatio King. Mr.
Burrage will at once build a house for
his own occupancy.

A large tract in Waban, situated
between Beacon street and the
Charles river, has been conveyed to A.
T. Foster by the trustees, Colonel Arnold
A. Rand and others. Streets were laid
out through the property by Samuel
Harro, but it will be further developed.
The price paid is said to have been
about \$50,000.

Eight building lots in Jerome Park,
West Newton, have been bought by N.
C. Hayes of Boston, for improvement.
The price paid was \$300 a lot.

Wiley S. and Frank Edmonds have ef-
fected the following leases—House on
corner of Warren street, Newton Centre to
Mr. Edward McEllan; Mr. Jas. S.
Newell's house on Station street, to Mr.
H. A. Bailey; House of J. Carwell
on Marlborough street, to Prof. H. W. Tyler;
The Mrs. E. G. Williams' house, No.
137 Waverly avenue, Newton, to Mrs.
Faight.

No Hurry.

Mrs. Bingo—I've invited some people
here tonight to play whist.

Bingo (vexed)—What on earth did you
do that for? You know I never play.

Mrs. Bingo—I know it, my dear, but
some of your friends will drop in, and so
I ordered some beer for you in the back
room, and you can sit in there while we
are playing.

Bingo—All right. But I have one
favor to ask you.

Mrs. Bingo—What is that?

Bingo—Make it a long game.

—Dr. D. E. Baker attended the meetings of the councilors and supervisors of the Massachusetts Society at the Boylston Medical Library, Wednesday afternoon.

—The new surface drain on Washington street between Eddy and Cross streets will be completed this week. It will connect with the big drain on Eddy street which empties into the brook.

—There are letters in the postoffice for Mrs. A. P. Deane, John Flaherty, Mrs. Emily Halliwell, Richard A. Harrup, Miss Caroline Johnson, Mrs. A. M. McDonald, Mrs. F. A. Waterhouse, Mrs. Eliza Whitney.

—Mrs. Clara Snow, widow of Geo. W. Snow, died at her home on Bowers street on Saturday, October 3, at 81 years of age. She was formerly a resident of Palmer. The funeral was held at her late residence on Tuesday, at 8.30 a. m.

—Mr. A. Eugene Bartlett rendered pastoral services during the summer months at the Universalist church, Lynn, Mass. A surprise party and farewell reception were tendered him before his return to Tufts College.

—The Ladies of the Newton Universalist church on Washington Park hold their first regular sewing circle and social on Thursday, Oct. 10. A harvest supper and good entertainment in the evening is proposed. The ladies are working busily for a fair which will be a very attractive affair early in the season.

—Rev. R. A. White, formerly of this place, is giving the parishioners of his large church in Chicago the pleasure of an art exhibition, which is as he writes "one of the ways in which I am preaching the new religion of all that interests humanity on its nobler side." Some of our Newton artists are well represented in this unique exhibit.

—Mrs. W. L. Chaloner was tendered a reception on Saturday evening at the home of the president of the North Conway Women's Club. It was a charming affair socially, a choice coterie of artists and literary friends being present. Among the former was the revered Benjamin Champney, whose studio at North Conway is a magnet to all art lovers.

—The body of Mr. Henry N. Booth, son of Mr. and Mrs. Henry Booth of Linwood avenue, who died in Chicago, Sept. 3, arrived here Wednesday morning. The deceased was 32 years of age and was a general favorite among the young people here before his removal to the western metropolis a few years since. The interment was in the family lot at the Newton cemetery, Rev. J. M. Dutton conducting the services at the grave.

—There is no clew yet to the whereabouts of George W. Trotter, the young man who has been missing from his home in this place since Aug. 31. His parents, who returned from Bath, Me., where they went to look up what promised to be a good clew to the whereabouts of their son. It was reported that a man answering the description of young Mr. Trotter had stayed over night at the farm of L. A. Bailey, near Bath, but when Mrs. Bailey saw a photograph she was firmly convinced that her visitor was not Trotter. He was a much older man, who claimed to have lost all of his money, and was trying to get back to his home in New York state.

—Rev. Franklin Hamilton will begin on Sunday evening, Oct. 13, "A Gospel Kodak," or Sunday evening talks on travel to Young People, follows: Oct. 13—"Saint Pierre and the Grave Yard of the Atlantic," Oct. 20—"Evangeline's Acadia, Home of the Happy," Oct. 27—"Louisbourg and Halifax, the Old and the New American Gibraltar," Nov. 3—"The Battle of the Little White Kirk with the Roman Catholic," Nov. 17—"Cape Breton's Great Lake and New Brunswick's River," Nov. 24—"The Last of the Micmac Indians, Canada's Dying Race." Services begin at 7.30 p. m. A solo and special music each evening. All seats free.

—There will be a meeting of the Newtonville Woman's Guild on Tuesday, Oct. 8, at the Universalist church parlors at 2.30 p. m. There will be an informal discussion of the "Referendum." It is hoped the attendance will be large. Come, those who are not interested in the matter; those who do not approve of it and those who believe in it. Many women have expressed a wish to hear the reasons why it will benefit them, for women to vote on municipal affairs. It is desirable that all should come ready to speak a word for or against the measure; the negatives will be as gladly listened to as the affirmatives; the object being to obtain all the information possible. Free to all.

—John Riley, a teamster, was instantly killed in a runaway accident Monday afternoon. He was driving through Walnut St. about 3 o'clock when his horse became frightened at an electric car. The wagon was dashed against the curbstone and Mr. Riley was thrown violently to the ground, striking on his head. He was taken up in an unconscious condition, and was attended by Dr. W. O. Hunt. However, was immediate. Medical examiner Meade decided that death was caused by concussion of the brain. Mr. Riley was 40 years of age, and lived on North School street. He leaves a widow and three children. Employees of department raised a little sum of money for his wife and three small children, the youngest being only 4 days old. The subscription list is still open and contributions will be gratefully received by C. B. Coffin, City

Treasurer's office, or Geo. E. Stuart, assistant superintendent of streets, Newton.

—Miss Susan Higgins of Brewster is the guest of Mrs. Lydia Higgins of Walker street.

—Mr. and Mrs. Granville B. Putnam will occupy the Horatio King estate on Temple street.

—The Unitarian society will tender a reception to Rev. and Mrs. Jaynes Monday evening, in the parlors of the church.

—The Veteran Firemen's Association voted Wednesday evening to attend the muster at Boston, Oct. 16.

—A fair under the auspices of the women's guild will be held in the Congregational church parlors early in December for the benefit of the church fund.

—Mr. John T. Price took as his subject "The principles of teachers; errors to be avoided," at the Teachers' Institute at Fitchburg, Tuesday.

—The young people of the Congregational church held a social Wednesday evening, to which the members of the Baptist society were invited. Games and a collection were features of the occasion.

—Tosell Russell, 11 years of age, residing on Middle street, Nonantum, was knocked down Friday afternoon by a pair of horses owned by Mrs. Dunbar of Mt. Vernon street. He was badly cut about the head and face, and it was feared that he sustained internal injuries.

—Mr. M. B. Hussey and family have returned from Woods Hole, where they have been passing the vacation period. They have reported their house here, corner of Elm and Webster streets, where they will be enabled to accommodate a few private boarders this winter.

—Considerable interest is taken in the referendum in regard to the municipal suffrage for women. The committee of the federated clubs for the registration of women met at the residence of Mrs. E. N. L. Walton, Tuesday afternoon, and are taking active measures to inform women upon the subject and induce them to vote yes or no. An independent committee in favor of the measure has also been formed and is actively at work.

—Mrs. Plympton, mother of Mrs. L. G. Pratt, died at the latter's residence on Highland street, Monday morning, after a lingering illness. Deceased was at one time a resident of this place and had a large circle of friends who esteemed her for many excellent traits of character. She was a woman of refinement and culture, who filled an important place in the social life in which she was for many years an active figure.

—Newton Lodge attended the Old Fellows celebration at Waltham last Friday night with 70 men in line. Wm. Grand W. Mills was in command. Gov. Gore Lodge gave the visitors a very handsome entertainment, which consisted of a short parade through brilliantly lighted streets, a banquet, speechmaking and other exercises. About all the Old Fellows' lodges in the eastern part of the state were represented.

—A pretty home wedding was that of Miss Flora L. Pettigrew and Mr. Albert H. Moore at the residence of the bride's parents on Auburn street last Saturday afternoon. Rev. H. A. Patrick, D. D. officiated at the ceremony. The maid of honor was Miss Eva Moore, sister of the groom, and Mr. William E. Moore acted as best man. The ceremony was followed by a reception to the relatives and intimate friends of the bride and groom. The happy couple will reside at Fitchburg after a short tour.

—With only thirty-seven men to man the breaks, the Nonantum men fourth prize, \$75, at the Hudson hand tub tourney last Saturday. The full complement is fifty-five men, hence the rowing was a remarkably good one. The Nonantum Company needs a bit of fresh blood. With a good crowd to operate her, the Nonantum would be dangerously near the top of the list in most of the tournaments. The engine is O. K. but the company is rarely in trim; that is its members are for the most part busy men who have little time for practice. Let's have a few young veterans then who can give the time and necessary energy to "work her" for all there is in it.

—The Woman's Guild connected with the Congregational church held a meeting Wednesday afternoon in the west parlor of the church. There was rather less than the usual attendance, forty ladies being present. Owing to the good management work began immediately. The treasurer's report of the preceding year showed the receipts to be \$1,088.08; expenditures, \$1,576.37; balance on hand, \$121.71. Twenty barrels and packages valued at \$996.03 had been sent to needy families in different parts of the country. The H. M. S. of Boston received \$45; \$500 had been given by the Guild towards paying off the church debt, and new contribution plates had been furnished for the church.

—Miss Charlotte Harper and Mr. Adelbert A. Foster were married Wednesday evening at the residence of Mr. William G. Bell, Shaw street, Rev. Mr. Burtt, pastor of the Baptist church, officiating. The ceremony was witnessed by a company comprising the relatives and friends of the contracting parties. The parlors, where the marriage was solemnized, were tastefully decorated with plants and flowers. The bride was gowned in white satin, and the bridegroom in a dark suit. A bouquet of bride roses. The maid of honor, Miss Hannah Harper, wore a becoming gown of white muslin. Mr. John Youngs was best man. A reception was held, and at its close Mr. and Mrs. Foster departed amid a shower of rice, on their wedding tour. They were the recipients of a large number of valuable and useful presents.

—Evening meetings at the Congregational church, which were discontinued during the warm weather, will recommence with a vesper service next Sunday evening.

—Mrs. E. B. Haskell, Miss Ethel Jaynes and Mr. J. B. Chase and family, were in New York to greet Rev. and Mrs. Julian C. Jaynes on their arrival from their European trip.

—Mr. E. P. Hatch, cashier of the First National Bank, in an interview about the Day directors stated that he did not pay \$300 out of his own pocket for an overdraft of Dalby's, which he accepted from the clearing house, as stated in the Boston papers. The gentleman who received the check from Dalby came forward and redeemed it, as soon as he learned of the matter. Mr. Hatch declined to give the name.

—List of letters remaining in the post office for Miss Emma R. Alley, care John Stewart, R. B. Burditt, Michael Bryson, Chas. S. Curtis, Mrs. Annie Courtney, Etta Campbell, Mrs. Emily Corey, Harry J. Conant, Mike Connors, Mrs. Thomas Conner, Mrs. S. Dalton, Edw. Forsyth, Mrs. James Gibson, Pat Gell, Mrs. W. H. Jaynes, Carl Keller, Miss L. B. McLean, Josephine Mansfield, W. W. Moore, W. J. Roberts, Mrs. A. G. Wilson, Miss Alice E. Wheelock, A. Woodbury, Mike Welch, Mrs. W. C. Wilcox.

—John Furry, a life long resident of this place died at the Newton Hospital, Thursday night. The funeral was held from St. Bernard's church, Saturday morning and the interment was at Waltham. The deceased was a landscape gardener and was never married, always living with his sister at their home on Pine street.

—The marriage of Miss Julia N. Cole to Mr. Edwin A. Yarnall of Philadelphia will take place at the Congregational church, Wednesday evening, Oct. 9, at 8 o'clock. All former pupils of Miss Cole are cordially invited to attend, and a portion of the church will be reserved especially for them.

—There are letters in the postoffice for L. Moody, C. H. Betts, J. Raymond, A. L. Wright, Desiderius Hermannson, Giuseppe Nicotio, Francesco Lengio, Filippo Stella Pasquale, Mr. Wm. Ackers, Mrs. H. P. Butler, Miss Mary Barry, Miss Cowley, Miss Lida Mae, Mrs. M. A. Morra, Mrs. Mamie McDermott, Caroline E. Priest and Mrs. A. F. Weeks.

—Mr. Walter P. Thorn was, until a week ago, the possessor of a bicycle pump, which proved a great convenience to local wheelmen, which was often called into use. Tuesday of last week it was borrowed by a young man, who must have forgotten to return it. At present Mr. Thorn is very anxious to renew the gentleman's acquaintance and at the same time recover his pump.

Lasell Notes.

A number went with Miss Carpenter and Miss Nute to hear Rev. Brooke Herford at the Unitarian church, West Newton, on Sunday morning.

On Sunday evening a party of the students attended with Miss Allen, the services at Grace church, Newton; others, with Mr. Bragdon, went to the Eliot church at Newton.

Those who visited Norumbega on Monday afternoon were repaid by the pleasant walk, and the fine view from the tower.

Prof. Howard's rendering of Hamlet, Oct. 3, was enthusiastically received by the pupils and friends of the school fortunate enough to hear him.

Swimming lessons have begun at the seminary.

Cooking classes begin on Monday next, with Miss Barrows as instructor.

Three families have come to live in Auburndale for the purpose of sending their daughters to Lasell: Mr. and Mrs. Wm. R. Abratt, of Anaheim, California, renting Mr. Winslow's house; Mrs. E. A. Feagles of Toledo, Ohio, and Mr. and Mrs. Curtis Crane of Scanton, Pa., boarding with Mrs. Fisher.

Mrs. Chant in Newton.

Mrs. L. Ormiston Chant, of London, who has delighted Massachusetts audiences on her former visits to this country, has consented to speak to the people of Newton next Wednesday evening upon Woman As a Factor in Municipal Reform. The meeting will probably be held in Congregational Church, Newtonville, at 7.30 o'clock. Notice will be given next Sunday, and women are cordially invited to attend. Admission free.

Next Suffrage Meeting.

The next meeting of the Newton Suffrage Referendum Organization will be held on Tuesday, Oct. 8, at 3 p. m., at the residence of Mrs. F. H. Tucker, 208 Church street.

N. B. As it was thought this meeting was to be held at Mrs. G. D. Gilman's, all interested will please note the change.

Work on the Referendum Law.

To the Editor of the Graphic:—

It will, no doubt, be interesting to your readers to learn of efforts which different associations of women, and of men and women, are making to convey information about the recent law passed by the legislature, which, for want of a better name, has been called the Referendum Municipal Suffrage Law.

At a meeting held in the spring of the Federation of Newton Clubs, a committee was appointed to make some organized effort to induce women to register and to vote for members of the school committee, and to see if in any way the number of women on the school board could be increased.

Before that committee had its first meeting, the so-called Suffrage Referendum Law had been passed by the legislature. The passage of this law had been wholly unforeseen and unprovided for.

The law imposed a similar obligation upon the women of the state as did the other law, under which women vote for members of the school committee.

Under these circumstances, the committee presented the matter to the executive board of the Federation, and received from the board, by unanimous vote, their sanction to disseminate a knowledge of the text of the law and information concerning it, and to induce women to register and to cast their Yea or Nay vote upon the question submitted to them.

This action of the Federation does, in no way, commit that body in favor of Woman Suffrage. That question did not come up for consideration. The whole attitude taken by the Federation was, that in the interest of good government, the laws passed by the state should receive the courteous attention of the people.

The passage of this law, under which people shall vote Yes or No as to the desirability of conferring Municipal Suffrage upon women, was the work of the anti-suffragist members of the legislature, who have taken the result of the vote will be such as to strengthen them in their position.

Without considering the result, the committee of the Federation are doing their utmost to bring out a large Yea or Nay vote upon the question.

They hope that all the women and all the men of Newton will help them in their work.

Let women remember that they have no money to pay in order to register or to vote, but that they must be registered on or before the 10th of October.

There is another organization composed of men and women, a popular body, who are trying to educate our citizens in favor of Municipal Suffrage for women.

This body will probably hold public meetings for the discussion of the subject. They ask all good citizens to give the subject careful attention.

A third organization which is in the field is the Suffrage League, a body which has been long at work in favor of complete suffrage for women.

LUCY W. SAWYER.

Democratic Representative.

The Democratic Convention held in the police court, West Newton, last evening, was slimly attended and little interest was manifested. So few were present that the meeting was not called to order until 8.40. Dr. McOwen and Mr. James Farrell were appointed temporary chairman and secretary respectively, and afterwards confirmed to serve regularly. The chair then appointed a committee of three, comprising John Bellamy, William Woodman and James Gore. It was the object of the committee to report thirteen credentials received. The next work was the nomination of representative and Prescott C. Bridgman of Newtonville was unanimously chosen by acclamation.

The latest addition to the High School Battalion is a genuine brass band, consisting of cornets, alto-horns, bass-horn, bass drum, trombone and snare. It accompanied the foot-ball eleven to Brookline last Friday, but was unable to put any life into the Newton boys.

Manager Proctor of the foot ball team attended the meeting of the Junior Inter-scholastic Foot-ball League at the B. A. A. Wednesday evening, when a schedule was decided upon. Among the teams which Newton High will meet are Roxbury Latin, Roxbury High, Nobles, Somerville High and Hyde Park. Roxbury Latin is an old rival and was defeated by Newton three years ago, when the High school won the Junior pennant.

LOVE IS FOREVER.

Love is forever—think no more
You give and take your heart at will.
The mine—or was not mine before.
You never loved or love me still!

You seemed to hate—appeared to love.
But one was false; choose which you will.
You hate? Your love a lie has proved!
You loved? Why, then you love me still!

Then say no more your love is dead,
Nor death nor hell true love can kill.
Were it a dream, it might have fled,
But love, you loved, and love me still!

—Atalanta.

HE HAD PITY.

Jabez Wilson, whose 52 years of life had been passed in single blessedness, had little in common with the rest of the world.

His faults were many and his virtues few. His two redeeming points—call them virtues if you will—were generosity verging on weakness in individual cases and a love for music.

Late one night he came out of St. James hall, buttoned his coat up round his neck, dived his hands into his pockets and made for home. On the way he entered a cafe and took a cup of coffee.

As he sipped the beverage his ear, ever on the alert for music, caught the sounds of a voice that was at once rich and melodious.

Jabez listened attentively for five minutes, during which time the song continued, with short intervals of silence. At length it stopped altogether. Jabez asked the waiter attending him to fetch in the person singing.

The waiter returned in less than a minute ushering in a young man of distinctly Italian cast of countenance, whom he introduced as Luigi, the bottle washer.

"Well, my man, you have an extremely fine voice. Did you know that? With due care and rigid training there ought to be both fame and fortune in it. You would like to be something better than a bottle washer all your life, eh, my man?"

Luigi, in a wondering sort of way, nodded.

"That's right—that's right, my man. Here is my card. Come and see me at my house tomorrow at half past 6, I want to have a serious talk with you. Can you come?"

"Yes, sir—that is, no, sir. Not tomorrow. I work till 11 every night during the week."

"Oh, oh! Such is the irony of fate," muttered Jabez. "Can you come on Sunday?"

"Yes, sir, I will come."

True to his word, Luigi, clothed in his Sunday garments, found himself in Mr. Wilson's drawing room the following Sunday evening.

"Luigi, you have a most charming voice. It is at present in what I may term an embryo form. The foundation is there in all its strength, and a couple of years' careful training will place you without a doubt in one of the top-most branches of the vocal tree."

"You must make a point of cultivating your voice on every possible occasion, Luigi. Avoid those articles of food which I shall give you a list of, that your vocal chords may retain the sweetness, strength and fullness that now mark them."

"Your clothes, too, are unsuited to the pupil of a vocal professor. You must fit yourself out like a gentleman, Luigi. You must exercise care and take a pride in your personal appearance. In short, be in every respect worthy of your profession."

As Luigi's profession was that of bottle washer at an Italian restaurant, he naturally failed to see how he could well give further evidence of his occupation by the suit in which he appeared before this strange gentleman. And he said so.

"Dear me. Of course. I must explain to you, Luigi, what I propose to do. I am too hasty. First and foremost, do you like music?"

"I am an Italian," was the modest reply.

"Grand. A most fitting answer. Now we will come to business. Would you like to give up your present menial occupation and become, first, the pupil of a musician, and then a master of the art you will excel in?"

"That is beyond my hopes, sir. I have no money."

Jabez Wilson threw up his hands. "That's all right. I will see to that little matter. Give me the assurance that you will put your whole heart into the work I have set out for you and will do your best. I ask for nothing more."

A few days later Luigi left his situation and became the protégé of Mr. Wilson. To say that Luigi was grateful would be to put the feeling he evinced toward his benefactor in very mild terms. He could find no way of expressing his gratitude beyond making himself as perfect in his art as it became possible for him to do.

"Luigi," said Mr. Wilson one day, "I am delighted to tell you that it is now beyond the capabilities of English masters to teach you further. It remains for the masters of your native land to instill into you that little required to render you their equal, if not their superior. I have decided therefore to take you to Naples, where we will spend the next year or two."

For the first time since their old acquaintance Luigi failed to hail an announcement for his benefit with any sign of pleasure or satisfaction. He looked gloomy and hesitated to speak.

"You have always been extremely kind and good to me, Mr. Wilson. I cannot by any possible means express my gratitude. But the suggestion you have made, although entirely for my good, fills me with pain. I cannot leave England, because—because I am going to get married."

"The dickens you are!" roared the infuriated bachelor, mad with rage. "This, sir, is the way in which you show your gratitude. You Italian dog, you scoundrel, you!"

He stopped short. What an idiot he

was. Luigi was only flesh and blood, and young blood at that.

"Luigi," he began after the silence of the moment, "is this girl of yours a suitable partner to accompany you on your upward career through life? You will stand at the head of your art, and you will move in the highest circles of European society."

"She, whatever her post in life now, may be ill fitted to grace the drawing rooms of the aristocracy or to sit by your side in the carriage that draws you to your mansion."

"You love her now; she is everything to you. Time may be, however, when you may be led to make odious comparisons between her simplicity and the winning faces of beautiful women."

"My kind benefactor, that is impossible. I shall always love Maggie as much as I do now."

Jabez Wilson sighed. It was a sad blow to his vanity and to his peace of mind.

"Think it over, lad," he began. "When the first pang of grief at parting are passed, you will forget about your lowly girl in the whirlwind of your fame, and she will soon part you from her mind. Come to me tomorrow and let me know what you intend doing."

The next day Mr. Wilson received a visit from Maggie. She came in tears to beg his consent, his heart was touched at the sight of a woman in sorrow, and reviling himself for a cold blooded monster he told her in an outburst of generosity to go and marry Luigi as many times as she liked.

After a twelvemonth spent in Italy Luigi became perfect. His first appearance in public was made as Gerardo, and as he retreated behind the curtains that night old Jabez Wilson waited to press his hands and to tell him that his dream was at last realized.

Jabez Wilson walked out of his solicitor's office penniless. The bank of which he was principal shareholder had failed, and this, in conjunction with a few minor disasters, had robbed him of every penny he had possessed.

He had never in his life done a stroke of work and was not even capable of a clerical position.

The apartments he had occupied were given up. The club was never again to see him or hear what had become of him. The fine old wines in his cellar fetched sufficient to pay his long standing rent, with a surplus to keep him in food and lodgings for a few weeks—that was all.

From his scanty store he drew a penny every day to search the papers for news of Luigi's success. He could not bring himself to write to him and to tell him everything. It was pleasant enough to know that the man whom he had dragged from obscurity should at that moment be making Europe vibrate with the splendor of his voice. One night as he crouched over the fire in the dosshouse he frequented reading the paper a short paragraph at the foot of a column caught his eye.

"Early yesterday morning the body of a woman was found in the Grand canal at Venice. She is said to be the wife of Signor Luigi, the well known singer, with whom she is supposed to have led a wretched life. There are no marks of violence on the body, and the authorities have passed a verdict of suicide while temporarily insane."

Jabez Wilson's forecast had been realized only too fully, and the broken down man cried like a child.

A week later he stood outside the dosshouse with exactly a penny in his pocket. He stood wondering what he should do, when his musical instincts, which had been crushed and had lain dormant for so long, arose within him. He hurried along the street, entered a shop and purchased a tin whistle with his one remaining copper.

An hour later and he walked slowly along the middle of the road, his threadbare coat buttoned up around his neck, an old battered hat pressed tightly down over the straggling gray hair that blew in the cold wind, and his dry lips pressed against the whistle.

He was playing "Home, Sweet Home"—that was all he knew.

In front of a resplendent hotel he stood and played, with one foot on the pavement. A tall, black bearded gentleman, evidently a foreigner, wrapped in a priceless fur coat, came down the steps of the hotel, in company with a beautiful woman, under the full glare of the lamp.

Instinctively the instrument fell from the lips of the player as he muttered half aloud:

"Luigi!"

The Italian peered into the pale, pinched, upturned face.

"So you have come to this, eh?" he asked in a whisper, lest his companion should hear, at the same time drawing half a crown from his pocket, "my unfortunate friend."

He turned abruptly, half ashamed, when the woman by his side told him to come away from the beggar.

"I come, Mirand. Then, as she took his arm and he handed her into a brougham, "I have pity for these poor musicians."—Pearson's Weekly.

Lime-water.
It is well known that lime-water has a beneficial effect on the growth of children, and in countries where the drinking water is impregnated with salts of lime the men are apt to be tall. An English medical authority states that for a perfect sanitary diet alkaline water is needed for every person who eats heavily of meat, and this means nearly every one excepting the vegetarian.

Are an Index to Age.
An acute observer has noticed that all the young women riders on the wheel wear skirts, while the elderly females go in for bloomers. There is one thing certain—let this observation be spread broadcast, and there won't be a bloomer visible anywhere. No woman would ever wear a garb that proclaimed her age. It is again nature.—Philadelphia Press.

DEATH OF TECUMSEH.

POINTS ON A QUESTION THAT HAS LONG BEEN IN DISPUTE.

The Claim That an Old Indian Warrior, a Bitter Indian Hater, Killed the Celebrated Chief—A Document Found Among the Late Richard Conner's Papers.

The following account of the death of the great Indian chieftain Tecumseh, or Tecumte, was found among the papers of Richard J. Conner, editor of the Peru Sentinel, who died in this city July 25, 1893. It contains information touching the question that has heretofore been widely disputed. The death of Mr. Conner prevented the fulfillment of the task, says the Indianapolis News:

"My father's family was captured by the Indians about the year 1785. It may have been earlier or a year or two later. They were carried to Michigan, and were afterward ransomed by some Moravians, and the family settled about four or five miles below the present site of Mount Clemens, on the Clinton river, 23 miles north of the city of Detroit."

"When captured, the family lived at a place called Conner's Town, or Conner's Station, near what is now the east line of Coshocton county, O., adjoining Pennsylvania. The long journey through the wilderness then covering the distance from eastern Ohio to the Clinton river in Michigan was most painful and fatiguing."

"My father settled on White river in central Indiana in 1802, but he had made a trip to the Wabash in 1800. He remained at his trading post until the breaking out of the war with Great Britain in 1812, when he joined the forces under General Harrison at Fort Meigs, on the Maumee river, and with his brother John acted as guide and interpreter for General Harrison. He was sent by the general down the Wabash to the Miami, Rattawatomies and Shawnees, to learn if possible their intentions and attitude in the approaching trouble with British forces. He knew Tecumte and his brother, the Prophet, intimately. The Prophet often befriended him, and was a trustworthy friend. My father always spoke well of these Indians. He had many conversations with Tecumte in regard to the attitude of the Indian tribes under his direction and his reasons for his adherence to the British cause, and his cooperation with that country in the war that followed. Tecumte complained bitterly of the lack of faith on the part of the United States in regard to performance of treaty stipulations and contrasted it with the policy as carried out by Great Britain in its management of Indian affairs in Canada. He felt that there was no security for the Indian and clearly foresaw that the time was not distant when the Indian would possess little or no part of the domain he had inherited from his fathers."

"Tecumte seemed to be fully aware that step by step the tribes would be pushed farther west & exterminated by the bitterness and hate of the white man. With a power warlike and aggressive as Great Britain to back and ally the Indian, he hoped to put off the final day and possibly save a remnant of his people."

"These, in part at least, were the reasons that actuated him in that wonderful crusade he was making, visiting the tribes covering the country from the lakes to Arkansas. My father said he had a persuasive tongue and a power to move his fellow savages rare indeed, and he never failed to rally the red man on to the war path. His nature was not naturally a savage one, and he often expressed abhorrence of unnecessary bloodshed."

"He declared that he would not tolerate cruelties or predatory warfare on peaceful, noncombatant settlements of white people, but he felt it his duty to rally the tribes and inflame them to a point of resistance and fair warfare against the government of the United States, which had for a hundred years persistently pushed the Indians from their homes and the places which that government had assigned to them with solemn pledges that they should always retain such as their future homes, and that it would protect them from the restless greed of white pioneers."

"My father was in command of 300 friendly Indians at the battle of the Thames, in Canada. His command was attached to Colonel Paul's regiment in that battle. His Indians did some good service and contributed to the defeat of the British and Indians."

"After the battle, late in the afternoon, he was summoned to the headquarters of Colonel R. M. Johnston, who stated to him that it was the rumor that the great chief Tecumte was among the slain in battle and requested my father to take some of his friendly Indians and search the field and ascertain if it were indeed true. My father immediately took with him four or five Delaware and began the search, which was successful. When they found the body, some of the Indians were not sure that it was that of Tecumte. There was a striking resemblance between the two brothers, Tecumte and the Prophet, but one of them had a spot or defect on one of his eyes. One of the Delaware stooped down and pushed open the eyelid, and it was at once known that the dead man was indeed Tecumte."

"During the political campaign of 1840 it was universally asserted by the Democrats that 'Colonel Johnson killed Tecumte.' My father often declared that it could not be; that an old Indian warrior and a camp follower of the expedition in Canada, named Wheatley, was probably Tecumte's slayer. He was a bitter Indian hater and a crank on that subject. He was not enrolled as a soldier, but went to the battle on his own account. He, too, was killed in the fight. Tecumte was shot through the breast, and the wound plainly showed that he came to his death from the effects of a shot from a small bore rifle, such as the frontiersman usually carried."

JOHN A. DELBERT.

A Gloomy Forecast.

(Springfield Republican.)

In fact the opponents of Gov. Greenbald occupy the unique position of being an opposition without a candidate. They cannot have Mr. Haile. They cannot have Lieut. Gov. Wolcott. It is also reported that they cannot have Albert E. Pillsbury. They can have Elijah A. Morse, no doubt, and the Boston Standard is evidently quite ready to take the Canton congressman now that Mr. Haile has placed new emphasis on his position. We have little doubt that Mr. Morse will welcome such a situation. He would be flattered by it, and it would place him in line for next year. But if ever the Massachusetts Republicans should choose Mr. Morse as their candidate for governor above Roger Wolcott the time would have arrived for saying, in all seriousness, "God save the Commonwealth of Massachusetts!" And the people would save her from such a consummation at the ensuing election, be sure of it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

THE ATLANTIC.

The October Atlantic is rich in good fiction. Mrs. Ward's powerful serial, *A Strange Life*, is concluded. There is a further installment of Gilbert Parker's *Seats of the Mighty*, which increases in interest with each succeeding issue. Further chapters of Charles Egbert Cradock's *Mystery of Witch-Face Mountain* also appear. Lefoadio Hearn writes of *The Genius of Japanese Civilization*. The third Mr. Peabody's papers, *An Architect's Vacation*, tells of *The Venetian Day*. Among other features is a paper by Susan Coolidge, on *The Countess Potoska*, one by Alvan F. Sanborn, *The Wordworth Country* on *Two Shipwrecks*. A Day. Bradford Torrey's paper on *Lockport Mountain* is of peculiar interest in view of the memorable gatherings there this summer. The book reviews, which constitute so important a part of every issue of the Atlantic, treat of a group of six stories much read and discussed at present. The poems of this issue are by John B. Tabb and Michael Field. The latter contributes *Second Thoughts*, which, with *Tiger-Lilies*, in the September issue, are the first poems of this popular English writer to be printed in an American publication. Houghton, Mifflin & Co., Boston.

SCRIBNERS.

SATURDAY'S ROAD RACE.

A GREAT CROWD OF SPECTATORS AND GOOD TIME MADE.

The largest and the most successful 10 mile handicap road race that was ever held in Newton occurred Saturday afternoon. It was under the auspices of the Consolidated Cycle Clubs of Newton and Watertown and was to decide the championship of amateur riders of those places.

The start was made from the corner of Walnut and Watertown streets, and the course was from Walnut to Waltham street to Watertown street, four times around this triangle to complete the ten miles.

There were fifty-five entries, but all of these did not finish.

It was just 3.35 when Starter Burnham gave the six minute limit men the signal to start and 3.41 when the three scratch men went sailing down the hill.

The first time around past the finish tape there were 49 men, the second 43 and the last 34. Considering the condition of the roads and the heavy wind the riders made excellent time. There was but one mishap, thanks to the efficiency of the police, when rider Fogwell ran into the crowd, knocking down a time-keeper, who fortunately escaped with a sprained wrist and a few light bruises.

Of course there was the usual number of "spills" along the course, but these unfortunate riders reluctantly pulled their wheels to the side of the road and watched their more lucky brothers speed by.

The finish was the most exciting part of the race and the two thousand people gathered around the tape cheered lustily when the winners crossed the line.

The characteristic Nounatum crowd was plainly in evidence and the spectators persisted in getting on the course.

But Sergt. Clay and his squad of patrolmen kept them in subjection and freed the riders from any interference all along the course. While the police are worthy of great praise for their work, the success of the race is due to the untiring efforts of the executive committee which comprises Walter Hodgdon, Walter Mars, George Hodgdon, Luke Nichols, Dr. Stearns, who were assisted by Dr. T. F. Carroll, F. O. Stanley, E. P. Burnham, E. N. Soule, Charles Lord, Edward Hollis, Henry Crowell and others.

The decisions of the judges were considered very fair ones and the work of the time-keepers most satisfactory.

Clerk of course Charles Lord attended to a pretty busy time of it, while he had his duties faithfully.

George Hodgdon, who had charge of the police arrangements, under Sergt. Clay, kept the officers busy at the finish in clearing away the crowd.

The following is the official list of those who finished:

First, Oscar Erickson, 32 m. 55 sec.; second, A. D. Field, 31 m. 56 sec.; third, G. H. Runkell, 32 m. 30 sec.; fourth, G. W. Hill, 34 m. 3 sec.; fifth, F. B. Barlow, 33 m. 6 sec.; sixth, J. W. FOR REPRESENTATIVES.

REPUBLICANS RENOMINATED MESSRS. HOLLISS AND HARWOOD BY ACCLAMATION.

The Republican Representative Convention was held Tuesday evening in City Hall. The attendance was not large as no contest was anticipated.

Mr. J. T. Langford was chosen chairman and C. S. Ober secretary. Mr. Langford in taking the chair said that it was the custom in Newton to give faithful servants a second term and Messrs. Hollis and Harwood had won such honor. His remarks were received by applause.

Messrs. N. H. Chadwick and Reuben Fornkall were appointed a committee on credentials and reported that 67 out of the 95 delegates were present.

On motion of Mr. Flanders Mr. Hollis was named as candidate and on motion of Mr. Sands Mr. Harwood was named as the other and both were renominated by acclamation, after which the convention adjourned.

THE DUDE HAD GRIT.

BUT IT WAS A CLOSE CALL FOR THE SCIENTIFIC GENTLEMAN.

He Picked Up a Frozen Rattlesnake, Which Thawed Out as He Carried It In the Hot August Sun—Florida Snake Sharps Astonished at the Deed.

"I was once on a gunning trip during the month of August in the hammocks along the lower St. Johns river. I came to a hotel on the river bank that was kept open for the little business brought to it by the river traffic. Back of the hotel was a fringe of pines, and beyond the pines was a reach of barren country covered with a growth of blue palmetto and gallery.

"Among the persons staying at the hotel were two young men whose interest in the region centered in those things which pertained to natural history. Both were well dressed. Their hands were white and smooth. In town they might have been taken for bank tees. One morning, before the sun had taken the chill out of the air, one of these guests, in a pair of rather gentle top boots, wandered for a considerable distance through the low palmetto scrub. In his path he found a rattlesnake twice as long as the orange wood stick with which he walked.

"The chill of the night air was still in the marrow of the reptile, and it was easy matter for the young naturalist to clutch the snake just back of his jaws at hold him in a firm grasp with the thumb and circling forefinger of the right hand. Carefully lifting the body of the snake with the left hand the naturalist started for the hotel with his gently valued prize, carrying his orange cane under his left arm.

There is nothing else so warm the cheeks of a rattlesnake's heart as the theoretical rays of the sun, and before the young naturalist had made half the journey to the hotel, the captive snake hammanaged, unobserved, to twist his tail about his captor's thigh. Thus anchored, he gave an abieodded pull, which was the naturalist's first intimation that the snake was putting off his sluggishness. With his left hand he managed about to unwind the coil from his thigh, but he found that if he let go the snake would be too much for the right hand grasp at its throat, which was only safeguard against a stroke from its deadly fangs. So he tightened his grip upon the neck and quickened his pace toward the hotel.

"He sun mounted toward the zenith and his rays became warmer. They gave strength and quickness to the captive. Instead of a steady drag from the tightening coil around the man thigh came a series of angry writhings which severely tested the strength in the hands and arms unused to embrace. With each convulsion a chain in the tint reflected from the man's scales ran like a thrill from his hand to his tail, and then came the warring rattle that nobody has heard a seed time in order that he may know its meaning. The flag on the cup of the hotel hung limp in the laziness. The orange wood stick had been from beneath the arm of the young naturalist. A numbness was taking possession of the muscles in his arm and wrists. He knew what that meant. Meanwhile the diamond marked reptile was warming up for the struggle. His eyes from pits of molten lead had come deep set diamonds. His angry writhings were fearful to see. He was now incarnate.

"It was looking exceedingly serious, not that desperate, for the young naturalist cheerfully would have put up his side as enthusiasm in the cause of science and cast the reptile from him, but he could not do so. The rattlesnake's tail coiled tightly about his leg, and the man had loosed his hold upon the neck and middle of the reptile its fangs would have made their deadly mark on him while yet the coil was unbroken. His life depended upon his reach; the hotel before the strength in his arms gave out, and how much strength he had left he knew not, for the numbness in them had driven out the sense of feeling. Again he quickened his pace.

"It had seemed an endless journey to the young naturalist as he hurried along, eyes fixed upon the writhing monster except when they were raised for an instant to glance at the flag hanging above the hotel; but at last he was within its grounds. His friend rushed forward from the little group on the veranda, but turned and ran back when he saw he look on the young naturalist's face. In a moment he appeared with a strong cord and a cane, which he had caught up in the hallway. While he was tying a slip noose in the cord neither of the men spoke, but it was easy to see that both knew there was no time to waste.

"As the noose was slipped over the reptile's head and tightened by means of the cane a convulsion stronger than any that had preceded it drew together the beumbed hands which held the writhing creature, and they yielded to the force that drew them toward the coil, which now twice encircled the man's thigh.

"I've got him," said the man who held the noose.

"Well, kindly untwist his tail. My hands are a trifle tired," said the other.

"This service was done quickly, and the two young naturalists went to their rooms with their captive.

"Among those who had stood speechless while these things were going on was Rattlesnake Bob, a local snake expert from the creek. As the young men disappeared he said, without shutting his mouth:

"Wad, I'll be — if them dudes hain't got grit!"

"Yes," said one of the guests. "They're catching snakes for the Smithsonian institution to experiment with."

—Mr. J. R. Leeson with the other dock commissioners, returned from Europe last Saturday, after a trip which included visits to 17 prominent ports of Europe, and a thorough study of the improvements. Mr. Leeson said of the trip: "The commission was fortunate in securing the effective co-operation of all the American consuls. Consul Gen. P. A. Collins not only gave his own time to the commission, but in a most generous spirit, gave us personal letters of introduction to the consuls at every port we visited." Speaking of general impressions in connection with their trip, he said: "The utter disregard of difficulties and expense shown at every port visited, fairly amazed the commission. Great rise and fall of tides and tortuous streams and channels leading to docks were some of the difficulties they have had to contend with. The cost of surmounting these difficulties in those parts compared with the cost of doing the same thing in Boston is so great as to make the task of

building a first-class port here comparatively trifling.

The funeral was held Tuesday afternoon at 2 o'clock at the residence of Mr. Williams of Newton Highlands. The deceased was 48 years old and leaves a wife and seven children.
—Benjamin Hopkins, for many years a resident of this place, died Monday at his home on Linder street. He was a machinist by trade and had been in the employ of the Gamewell Fire Alarm Company for a number of years. He enlisted in 1862 with the Co. B 44th Massachusetts Volunteer Infantry, and proved himself a true soldier throughout his service. He was a member of Co. B Veteran Association, Gethsemane Commandery of Masons, Newton Veterans' Firemen's Association and Charles Ward Post 62, G. A. R., of which latter organization he was post surgeon. The services at the house were conducted by Chaplain McDaniel of Post 62. A quartet rendered "Abide with me" and "Gathering Home," very effectively. The services at the grave were conducted by Charles Ward Post, Rev. Mr. McDaniel officiating. Following the singing of "Nearer my God to thee" remarks were made by Comrade Wilfred A. Wetherbee and Charles Sweetland. The services were closed by the sounding of taps and the rendering of "My Country 'Tis Thee." The pall bearers were John A. Kendrick, George Keyes, Frank Hunting and Otis Gray, members of Co. B, James Pickens and Alexander Chisholm of the Masons. There were many floral offerings from the different organizations attending and a handsome silk flag as a tribute from Post 62.

Moro, the rector, delivered a semi-sacred address, recalling the laying of the corner stone, and a special choral service was presented by the vested choir. In the evening the second anniversary of the organization of the choir guild was celebrated.

Resolutions

on the death of Hiram A. Knapp, P. G., of Newton Upper Falls, adopted by the Lodge, No. 162, I. O. O. F., of Newton Highlands, Sept. 28th, 1895.
Whereas, it has pleased the Supreme Ruler of the universe to remove from the midst of Hiram A. Knapp, P. G., who became connected with Home Life, No. 162, I. O. O. F., on May 28th, 1893. Therefore be it
Resolved, that in his death our order has lost a true and faithful member.
Resolved, that we deeply sympathize with the sorrowing wife and family and extend to them the warmest sympathies of our hearts in this their hour of trial and grief.
Resolved, that a copy of these resolutions be sent the family of the deceased, also entered upon the records of the Lodge, and published in each of the newspapers of Newton.
When the day of toil is done,
When the race of life is run,
Fath'r grant Thy weary one,
Rest for evermore.

HE LOST THE GIRL

But Got a Satisfactory Dig at His Trial Before He Died.
He and her father were great friends. As only four persons figure in this story it is unnecessary to mention names. He had a rival for her affections, a her father could never understand why she preferred the rival to him. G day when he sat on the porch chatting with her father she called him into a parlour and told him frankly that she had promised to marry his rival. I did not plead or beg. He kissed her hand with a sort of reverence, and then returned to his seat on the porch and renewed the conversation with her father. In those few moments everything seemed to have changed for him. The rival did not shine as brightly; the birds did not sing as they did before. Even tigers and trees seemed sad and dead. He had expected what he had just heard, but that did not seem to hurt him. He was distraught and moody. His father saw this and asked him the cause. He blurted out the whole miserable truth. His father continued to polish his glasses carefully and then said: "Wimmen folks is mighty martir critters." Her father said nothing more, but nothing would change his mind. Gradually it came to be generally known that he had been rejected, and that his rival was the fortunate wooer. They, he and his rival, were alumni of the same college. He was down for a speech at the alumni dinner, a month before he had attended her wedding. No one ever heard him complain, though all knew how he suffered. It was looked upon as the orator of his class, and a great speech was expected. When he arose, a sinister glitter could be seen in his eye. He began to speak slowly. He took as his text "Acquainted with the Devil." He spoke as length. Finally he said: "I called upon a dear friend some time ago who had just had a daughter married. He felt his loss very keenly. I tried to console him, telling him that while he had lost a daughter he had gained a son. He said slowly to me: 'Maybe I will come to like him after awhile—like I do my cigar, but the first few puffs are making me mighty sick.'"
It was in Kentucky. Not a word was said then, but just as he was peeped over the hills the next day two dark forms were seen silhouetted against the sky. There were two flashes, a combined, subdued report—and one fell, never to rise again. It was he.—New York Tribune.

Earning an Honest Penny.

Miss Lily nestles familiarly on the lap of a young gentleman who has been paying his addresses to her big sister all through the springtime of this year.
"Tell me, sir, are you well off?"
"Yes, my little pet."
"You are very well off?"
"Why, what difference can it make to you whether I am rich or not?"
"You see, my big sister said yesterday that she would give 20 francs to know if you were well off, and I should like to earn the money."—Gambriole.

quite badly hurt in the recent bicycle race
at Nantuxum, is able to be out again.

—Mr. Simmons' new house on Hunne-
well Hill is nearly completed. His family
is at present at the Hunnewell.

—A cablegram from Yokohama an-
nounces the safe arrival of Hon. W. P.
Ellison.

—Rev. J. G. Merrill, D. D., of Portland,
Me., will preach at Eliot church, Sunday
morning and evening.

—The engagement is announced of Miss
Daisy Bailey of this place and Mr. Walter
Cooper of Melrose.

—Mr. and Mrs. Joshua Baker and Mr.
and Mrs. Joshua Baker, Jr., and family
returned last week from their summer
home at Hyannis.

—Mrs. Mary Stebbins returned last week
from an extended European tour, and will
spend the winter with her son, Mr. Her-
bert Stebbins of Centre street.

—Mr. S. K. McLeod has the contract for
building the addition to the house at 14
Centre place and remodeling the house
for the new GRAPHIC office.

—Mr. Leon H. Vincent lectures at the
M. E. church, Watertown, Oct. 21, 28, Nov.
4, 11, 18. Subjects, Thackeray, Dickens,
Robert and Elizabeth Browning, Thorwald,
Lowell. Course tickets \$1.00. Single
tickets, 20cts.

—If the petition of the Wellesley & Boston
Railway Co. is granted, we shall have not
only a direct line from Newton to Lower Falls,
but a direct line from Newton to Waltham, giving
people a double service between Newton
and West Newton.

—Dr. Perkins of Hunnewell avenue had
the misfortune to fall from his bicycle on a
muddy stretch of road on Hammond street,
Sunday, and dislocated his shoulder. He
was brought home by Mr. West, near whose
residence the accident occurred, and at-
tended by Dr. Utley.

Wednesday, while workmen were en-
gaged in loading tree stumps on wagons at
the Page estate, Glen street, one of their
number was badly hurt. He was struck by
the team when by over-loading it be-
came over-balanced and fell to one side,
throwing him in the ground and injuring
him quite severely.

—Wednesday morning, a rather sleepy
individual had a rough experience which
he will probably remember for some time.

By some accident he fell asleep in a
carpenter's shop on Washington street,
near Hovey, when the ashes in his pipe
enlightened the shavings and started a fire.
A fireman saw the blaze and rushing
in extinguished the flames which
caused but little damage. As for the
sleepy individual he finished his nap in
Station One.

—Mr. W. D. Lovejoy of Newtonville is
soon to occupy one of the Earle houses on
Carleton street.

—Mr. H. C. Tupper and family have re-
moved from Washington street to the
Hill's house on Church street.

—For the benefit of the Newton Hospi-
tal, the opera of "Patience," so popular
when presented last winter, will be re-
peated at City Hall, Oct. 29 and 30.

—Mr. Everett McFarland returned Sun-
day from last week's hunting trip in the
woods of Maine. He reports excellent
luck and brought home two deer as a
proof of it.

—The widening of Washington street is
expected to cause a scarcity of stores, but
only one owner of business property has
taken advantage of it to raise rent in New-
ton corner, as far as heard from.

—Among the engagements announced
recently are Mr. Samuel Peck of this city
to Miss Jackson of Boston; Mr. Clarence
Holmes of Newton Centre and Miss
Laurier of Chicago.

—Daniel Saleme has purchased the
store and fixtures of the fruit store form-
erly occupied by Charles Bissotti. Bissotti
has also disposed of his Nonantum store
and will soon leave for a trip in the country
for the benefit of his health.

—Last Sunday twenty-one persons were
received into the Methodist church, 12 on
profession of faith. The church is un-
usually prosperous under Rev. Dillon
Bronson and the board has increased his
salary by adding \$300.

—Music in Grace church Sunday night:
Processional, "Hark! hark my soul." Stanford
Guitard,
Antiphon, "Grant we beseech Thee," Roberts
Antiphon, "Ho every one that thirsteth," Martin
Recession, "There is a blessed hope."

All seats free.

—Rev. George E. Merrill, D. D., will
preach in Immanuel Baptist church next
Sunday at 10.30 a. m. Bible school at 12
m. Y. P. S. C. E. at 6.45 p. m. An illustrated
free lecture on "Bible Lands, Past and
Present," by Miss Elizabeth Merriam, will
be given at 7.30 p. m., affording a rare
opportunity to visit the Holy Land.

—M. de Soissons is now located on Maple
Circle, and can be found there by those
wishing to take lessons in French. In col-
laboration with Atherton Brownell he has
recently completed a play for Manager Rich
of the Hollis Street Theatre, entitled "The
Duel in the Dark."

—Wednesday morning one of the men
employed in removing the house on Wash-
ington street was badly hurt by the break-
ing of the capstan pole. The horse was
driven rapidly when the pole sud-
denly broke, striking the driver on the
head and inflicting severe bruises.

—The funeral of Mrs. Elizabeth Higgins
was held from the Church of Our Lady,
Monday morning. Solemn high mass was
celebrated by Rev. Fr. Gillet, assisted by
Fr. Dolan, deacon, and Fr. Danahy of Newton
Upper Falls, sub-deacon. The interment
was in Calvary cemetery, Waltham.

—H. W. Crowell & Son, the well known
hardware and general store, have this
week completed a play for Manager Rich
of the Hollis Street Theatre, entitled "The
Duel in the Dark."

—Washington street from Hovey street
down has been given up to the moving of
houses, this week, and the electric cars
had to stop at Hovey street. Great pro-
cessions are being made on the Sunday, and
the stretch from Harvard street to Church
will soon be ready for the railroad to begin
operations.

—A meeting of the Newton Suffrage Refer-
endum organization was held at the resi-
dence of Mrs. F. H. Tucker on Church
street, Tuesday evening. The reports of
the various committees in charge of the
campaign were received, showing a large
increase in the registration of names. It
was decided to hold a series of rallies be-
fore the state election.

—Mrs. Charles Heron of Chicago,
President of the National Federation of
Women's Clubs, has been for several years
a friend and a pupil of Prof. Bachimont,
who is forming French classes in Newton,
and she is very enthusiastic in praise of his
method, and his thorough acquaintance
with modern literature. Prof. Bachimont
can be consulted at Room 13, Bacon's
block, on Mondays between 10 and 12
o'clock.

—Mr. William Lloyd Garrison will read
a paper on "The Problem of the Unem-
ployed and Enforced Poverty," Monday
evening, Oct. 14, at 8 o'clock at Mr. C. B.
Fillebrown's, 260 Bellevue street, corner
Newtonville avenue. Mr. Fillebrown is
happy to open his house to any person in-
terested in this problem and its proposed
solution through the Single Tax. Subse-
quent discussion invited. Washington
street electric cars pass Bellevue street a few
steps from the house.

—The scarcity of places for business is
shown by the high rent paid for building
which would not be taken at any price
where there anything else to be had. The
rumor that the GRAPHIC was to have a
block with two stores on Centre place, has
brought in applications from a provision
dealer, a grocer, a plumber, and about all
the kinds of business represented in New-
ton, while for the tenement in the upper
part of the building there have been nearly
forty applications. Yet men hesitate to
put up stores in Newton, while in Newton-
ville they are going ahead and providing
more stores than can be needed for years
to come.

—Music at Eliot church Sunday:
MORNING SERVICE.
Organ prelude, Flagler
Jubilate in E flat, Chadwick
Quartet, "From every stormy wind that
blows," Stowell
Organ postlude, Lemmens

EVENING SERVICE.
Organ prelude, Wely
Antiphon, "O pray for the peace of Jeru-
salem," Knox
Duet, "It is of the Lord's great mercies," Molique
Antiphon, "Father, keep us in Thy care," Sullivan
Organ postlude, Lemmens

—In reading the General Rules of the
Methodist Episcopal church before his
congregation last Sunday, Rev. Dillon
Bronson commented somewhat at length
upon the clause which advises that Chris-
tians buy of one another and help each
other in business, and suggested that New-
ton residents might trade more largely
with Newton merchants, that thousands
of dollars are daily spent elsewhere by our
citizens and some who trade mostly in Bos-
ton and pay cash, thereby often hardly
saving their car fare, are very indifferently
served by their Newton bills and allow them
to stand unsettled. Mr. Bronson maintained
that our local tradesmen are honorable
Christian men, who give special favors to
the poor, and that if they could have all
the local trade and prompt payment they
could easily meet Boston prices, and New-
ton would no longer be called an expensive
place for residence, and that if some who
grumble now at paying a trifle more for an
article in Newton than in Boston, would
themselves engage in business here awhile,
with the present unprecedented competi-
tion and peculiar hardships they would
get a different point of view and ever after

NEWTON CAPTURED

BY THE FIFTH REGIMENT, M. V. M.—A
MOCK BATTLE—DRESS PARADE AT
CITY HALL—GOVERNOR GREENHALGE
ATTENDS THE BANQUET AT THE NEW-
TON CLUB.

The Fifth Regt., M. V. M., took pos-
session of Newton yesterday, or rather
that part of it comprised in Pine Grove,
where a sham battle was fought. It was
the field day of the regiment and the
mock fight was one of the most interest-
ing events in its history. It was Col.
Bancroft's method of ascertaining how
his officers could handle a force in the
field. It had a special significance to
the twenty-fifth anniversary of the Clafin
Guard, Co. C, 5th Regt., M. V. M.

The command left Boston at 8.25 a. m.,
and made its way to Pine Grove in a
special train over the Boston & Albany
railroad. The route was by Riverside
and the Newton Lower Falls branch to
Pine Grove station, where the debarka-
tion occurred. The place selected for
the battle was an ideal one in a pictur-
esque wooded section, with the ground
rising gradually to a high knoll, overlook-
ing the beautiful surrounding suburban
country for miles around. Some portions
of the wood about the hill suggest the
pictures of the primeval forests. It was
an admirable spot for displaying skirmish-
ers and secreted the line of defence
from observation.

Shortly after 10 o'clock, the 1st bat-
talion, Maj. Benyon, Cos. I. of Attleboro,
Capt. Goff; B of Cambridge, Capt. Mason;
C of Newton, Capt. Scott, and F of Wal-
tham, Capt. Clement, moved forward to
the defence. Lieut. Col. Whitney,
with the second battalion, Maj. Oakes,
Cos. K. of Braintree, Capt. Morrison; H.
of Boston, Capt. Merrieth; D. of Ply-
mouth, Capt. Butler; A. of Charlestown,
Capt. Stover, and third battalion, Maj.
Mossman, Cos. L. of Malden, Capt.
Locke; O. of Woburn, Capt. Wyr; M. of
Hudson, Capt. Reed, and E. of M-dford,
Capt. Westcott, moved to the position of
attack.

The defending force was stationed
toward the top of the hill, the troops be-
ing reinforced by an artillery squad
emerged on the right flank and slowly the
gallant detachment under Maj. Benyon
was forced to retreat from its original
position taken with a view to protect
the country lying south-east of Washing-
ton street. After being driven back, the
battalion took a second position on the
ridge of the hill and made its final stand
near the junction of Beacon and Wash-
ington streets. The maneuvers were
cleverly executed and won the applause
of a delighted crowd of onlookers, num-
bering about 2000 persons. Col. Bancroft
acted as umpire and was much pleased
with the showing made by his officers
and men. The battle was a great success
and neither victors or vanquished suf-
fered to any great extent. The corps of
surgeons had an easy time of it. As far
as could be learned not a drop of blood
was spilled in the encounter. One order-
ly was thrown from his horse, and
landed head foremost in the dusty road.
He was fortunately not much injured,
but his uniform presented all the realis-
tic characteristics of the soiled garments
of a veteran returning from the scenes of
actual warfare.

Following the fight, a lunch was served
and the men, after partaking of refresh-
ments, commenced to prepare for the
parade which occurred at 2 p. m.
At the close of the parade, a sub-
stantial collation, provided by the city,
was disposed of. Shortly after 3 o'clock,
the regiment marched to West Newton
and was there reviewed by Mayor Bot-
field and members of the Newton city
council, and the members of the Clafin
Guard Veteran Association. The review-
ing party occupied a large stand in front
of the City Hall. It was attractive in its
dress of national colors, and Nickerson's
block was also tastefully decorated.
After the parade, the regiment was dis-
missed.

Col. Bancroft expressed himself as
highly pleased with the day's work.
Lieut. Fred McDonald of company H
was officer of the day. Col. Parker of
the Governor's staff was present as in-
specter.

The regiment lined up at the West
Newton depot and a special train was

taken for Boston. Col. Bancroft and
staff, the band and company C, with
whom the regimental colors were left in
keeping, remained behind and went with
the Clafin Guard Veteran Association to
Newtonville.

The Governor was met at West New-
ton station at 5.30 p. m. by the mayor
and members of the 5th regiment. A
line was formed, headed by the band, fol-
lowed by Col. Bancroft and staff, com-
pany C with galling guns, Capt. Scott
commanding; Mayor Botfield, the Gov-
ernor and staff, and military committee
in carriages; the Veteran Association
and three companies on foot, command-
ed by Col. Kingsbury, who escorted the
Governor to the club house at Newton-
ville, arriving there at about 6 o'clock,
and were greeted by the booming of
cannons. The City Hall and public
buildings were decorated with bunting
and several hundred people lined the
streets.

One hundred and seventy-five covers
were spread at the banquet table, which
was strewn with autumn leaves. Capt.
Scott of company C sat on the right of
his excellency, and President Cobb at
the left. Other guests were ex-Governor
Clafin, Colonels Farquhar, Hall, and
Parker, Generals Peach, Davidson, Dal-
ton, Lt. Col. Bigelow and Whitney, Cap-
tain Weeks, Majors Oakes and Mossman,
Surgeon Foster, Adj. Ballard, Asst. Sur-
geon Chase, Chaplain Barrows, Samuel
Farquhar, Samuel L. Powers, E. O.
Childs, Councilmen Mudge, Cranitch,
Hatfield, Briston and Parker, Aldermen
White, Degen and Plummer. Opposite
from these were the Field, staff and line
officers of the regiment, and arranged in
right angles were six tables for the
Veteran Association and the Clafin
Guards, whose 25th anniversary was
being celebrated.

The band dispersed sweet music at in-
tervals during the evening.
Chief Marshal Henry E. Cobb presid-
ed. Edwin O. Childs was toastmaster.
The toasts of the evening were respon-
ded to as follows: "The Commonwealth,"
the Governor; "The City of Newton,"
Mayor Botfield; "The Regular Army,"
Capt. Bigelow, U. S. A.; "The Fifth
Regiment," Col. Wm. A. Bancroft; "Our
Godfather," ex Gov. Clafin, (by letter);
"Church Militant," Chaolain Barrows;
"Our First Commander," Col. Isaac F.
Kingsbury; "The Clafin Guards," Capt.
Albert Scott; "The Newton Club," Mr.
Samuel L. Powers.

At 8.40 p. m. in response to the toast
"The Commonwealth," all present, giv-
ing three cheers, Gov. Greenhalge
spoke as follows:

President, Mr. Mayor, Veterans of
the Clafin Guards and Soldiers of Com-
pany C: I rejoice to have the privilege
of coming here for a few brief moments
in order to participate with you in the
exercises, very pleasant, I am sure,
at the close of this field day. I have come
here under some disadvantages, some-
what fatigued, and with a slight cold,
yet I assure you that it gives me pro-
found pleasure to be here and recognize
the achievement and abiding name of this
quality of an illustrious predecessor of
mine, well beloved and revered, Gov.
William Clafin. (Applause.)

Of course, today in the militia as it is
now organized, we recognize the ancient
organization in its more youthful form,
in the military title of company C, and I
am delighted to meet here this splendid
soldier and exemplar of our high military
spirit, my friend, Col. William A. Ban-
croft. (Applause and cheers.)

He then paid a high tribute to the
militia of the state, and the great ad-
vance that had been made in the stand-
ard, during recent years, and closed by
saying:

Gentlemen, I thank you for the privi-
lege of being here. I wish that I might
stay the whole evening. I wish you
many happy returns of this 25th anni-
versary, and I trust I may have in the
future an opportunity which will permit
me to be with you during a whole even-
ing and say "good night" to you with
the last that sit at this hospitable board.
(Applause and cheers.)

Y. M. C. A. Lecture at the Gymna-
sium Hall next Wednesday Evening.

The Rev. Alfred A. Wright, D. D., is
favorably known throughout the coun-
try not only as Dean of the Boston Cor-
respondence School, which he organized
in 1882 and incorporated in 1889, but as a
lecturer on vital topics in Sociology, and
upon the scientific method in its applica-
tion to all subjects, not excepting
Theology. He is an orthodox liberal in
theological opinion, a liberal tied only
by truth, a constructive higher critic, an
investigator pausing only with the ulti-
mate analysis possible, a lecturer with
opinions for vigorous statement, but
with none for sale or for propagation.

His lecture, "How Wide is an Inch?"
is one of the most popular in his list.
Dean Wright promises that in his
lecture he will answer the question,
"How Wide is an Inch?" at the Y. M. C.
A. Gymnasium Hall, Wednesday even-
ing, Oct. 16, at 8 o'clock. Admission,
30cts; members, 20cts.

Annual Meeting.
The annual meeting of the Associated
Charities will be held in Room 7, Central
block, Newtonville, at 4 p. m., on Thurs-
day, Oct. 17. M. R. MARTIN, Sec'y.

The healing properties of Dr. Witt's
Witch Hazel Salve are well known. It
cures eczema, skin affections and is simply
a perfect remedy for piles. Arthur Hud-

CITY GOVERNMENT.

ANOTHER STREET RAILWAY ON WASHINGTON STREET—MORE SEWERS AND WATER PIPES.

The board of aldermen met Monday evening, with Mayor Bothfeld in the chair and all the members present. Hearings were held on the acceptance of Eddy street, widening of Webster street, and laying a sewer on private way off Henshaw street, at which no one appeared.

At the hearing on laying a sewer on Water street from Homer street to Commonwealth avenue, Mr. W. O. Knapp objected, as besides the city he would be the only one to pay the expense, the other property having been taxed on the other streets. He had 140 feet front on the street, and did not need the sewer. He had owned the land eight or ten years.

No one objected to the sewer on Charlesbank road, from St. James street easterly.

WANTS MORE MONEY.

Mrs. Olivia W. Hyde, by her attorney, Jesse C. Ivy, sent in a notice declining to accept the award made her for land taken for the Washington street widening, and protesting against the sale or removal of any of her buildings. The communication was referred to the committee on awards.

The Newton Street Railway notified the board of their receipt of a recent resolution, and that they would observe the same.

The board were notified of the appointment of a new Metropolitan Sewerage Commissioner.

The quarterly report of the chief of the fire department was received and filed.

TRAVERSE JURORS.

Messrs. Morton E. Cobb of Bellevue street and Chas. W. Higgins of Woodbine street were drawn as traverse jurors for the next term of court at East Cambridge, which meets on the third Tuesday of October.

A petition was received for the widening of Trowbridge avenue to 40 feet, under the betterment act, and its acceptance by the city.

MORE POLES.

The Telephone Company asked for location for poles and wires on Parker street, and on Highland street, and a hearing was set for Oct. 21.

Residents of Bridge street asked to have the street reconstructed and macadamized and sidewalks constructed.

A petition was received for the extension some 50 feet of the drain and sewer on Gardner street.

Property owners on Washington street from Hovey street to Bacon, on the north side, asked for a hearing on the order taking some three feet from their property for the sidewalk, and the petition was referred to the committee on awards.

Alderman Plummer for the highway committee reported in favor of widening Commonwealth avenue near St. Michael's, and hearings were set for Nov. 5th and Nov. 11th.

A. Maguire asked for leave to move a building through Washington and Crafts street, and it was granted, subject to the approval of the committee on such cases.

G. A. Blaney asked for an arc light on Valentine street.

The highway committee reported against granting the petition for widening of Chandler and Whitman streets.

ANOTHER TRACK ON WASHINGTON STREET

Alderman Bullard presented the petition of the directors of the Wellesley & Boston street railway, for an extension of their tracks, through Washington street to Nonantum square, their track to be laid parallel to that of the Newton Street Railway, each company to be allowed to use each other's track, and thus making a double track line from Newton to West Newton. Referred to street railway committee.

A petition was received from H. W. Mason, W. F. Harbach and others for the laying out and acceptance of Ward street, as a public highway, from Centre street to Commonwealth avenue.

Chas. S. Miller sent in a communication calling attention to the sidewalk on Middlesex road. In front of the Nash house on the Brookline side there is a fine board walk, and on the Newton side there is nothing but weeds growing on gravel. Referred to highway committee.

WATER PIPES.

The water board was authorized to lay 170 feet of pipe on E. Elmhurst street, at a cost of \$141; 462 feet on Kenrick street, \$405; 90 feet on Crescent street, \$100; 120 feet on Cherry street, \$130; 194 feet on Salisbury road, \$188; 166 feet on Pine Ridge road, \$400; 200 feet on Commonwealth avenue, \$90; total \$1514.

On motion of Alderman Hamilton, an order passed for a drain and sewer on Washington street from Eddy street westerly, also from German street westerly; also for sewers on Ward and Sterling streets.

Concrete walks were ordered on Hunter street, and edgemoats on Woodland road, and concrete sidewalk on Walnut south side of Centre street.

An order was presented for a concrete walk on the south side of Edinboro street, from Walnut to Watertown street, and notice given to abutors that hearings would be held on Nov. 5th and 11th.

An order was passed that the telephone company be allowed to attach wires to seven poles on Central avenue; also to attach wires to gas company's poles on Washington street from Concord street, to the Hamilton school. Also granting the gas company leave to attach wires to fifteen telephone poles on Waverley avenue, Sargent and Morton streets, and on Kenilworth and Ivanhoe streets. Also granting the Telephone Company leave to erect poles on Elm road.

On motion of Alderman Plummer the petition of H. E. Cobb and others to have the city seize the land between the Newton Boat Club house and the Weston bridge, for a public park, was taken from the table and referred to the committee on parks. Mr. Francis Blake and the Boat Club had come to an understanding about the bridge to the Athletic Club house, and Miss Smith, one of the parties interested, had an advantageous offer for her land.

Alderman White presented a petition for one incandescent light on corner of Montclair and Moffett roads.

Notice was given of hearings on laying a sewer on Birch hill, southerly of Highland avenue, on Nov. 5 and 11.

Alderman Plummer for the highway committee reported that they did not approve of the projected street through the Bemis land.

The board then adjourned.

A PASTOR'S WELCOME.

GREETED REV. J. C. JAYNES, WHO HAS RETURNED FROM ABROAD.

A congregation that completely filled the Unitarian church at West Newton, Sunday, welcomed Rev. Julian C. Jaynes on his return from an absence of six months spent in European travel. After a few words expressive of the pleasure of being home again, and of gratitude for the vacation which his parish had given him, Mr. Jaynes preached a sermon of unusual power, choosing as his text a portion of the 27th verse of the 33d chapter of Deuteronomy: "And underneath are the everlasting arms."

In opening Mr. Jaynes led his hearers to the great central square of Florence, and recalled the tumultuous and bloody scenes enacted within it during the centuries that it had been the centre of the life of the city. The statuary there today, he said, represents deeds of blood and violence.

But within the cool shadows of the arched loggia forming one side of the square, from which, 400 years ago, he continued, people looked upon the armed turmoil of the old republic, the gilded splendors of the Medici and the death of Sivanorola, are five marble statues, almost as white and pure as the day they left the chisel of the unknown sculptor, and representing the divine virtues, Faith, Hope, Temperance, Justice and Love.

So through all strife and sin and sorrow, the preacher went on to say, still abide the eternal qualities of God in man, and underneath all are the eternal arms. Against the evil in the world stand the everlasting principles of God's eternal truth.

That something can be created out of nothing has disappeared from human philosophy. Back of all things there must be some supreme will, either good or bad. My reason will allow no other conclusion.

No personal devil is necessary to explain the presence of evil in the world. Evil and wrong are simply a moral vacuum, as death is the absence of life and cold of heat. Evil is not a direct creation; it is not positive, and it has no part in creation. Good is the positive element, the omnipotent, and, therefore, this is a good world and this life is worth living.

A hand, patient and loving, is in all things working out the good. This is the best possible world; if a better were possible, we would have had it long ago. The universe we have pictured to ourselves either would not run five minutes or it would be too insipid as to be a bore to any sane man.

We, therefore, come back to this world as the best the human mind can now conceive. There are ugly facts in it, and many philosophies have been founded on them. What we would plan as true for an acre in the jungle would be false for a world; what would be true for a year would be false for an age.

Take a long view of life, and how good predominates. A child builds a sand fortress on the beach and calls the rising tide pitiless and cruel that wipes it away. But, I, upon some height, see the same wave rising to cleanse a shore and to bear the commerce of a city upon its bosom.

We, on the speck of a world floating through space, know that from the uppermost star to the nethermost one law governs planet and atom. You say it is blind, pitiless and inflexible, but in reality it is the expression of a wise, far-seeing and loving intelligence. A law that would yield to prayer to change its course would land the world in chaos. Because it is inflexible, because it is the same yesterday, today and tomorrow, that we know that under all are the everlasting arms.

History is full of war and every step of the race is stained with blood and the sacrifices of death. It may seem that in it all there is no God. But look at the other side. Great principles of justice and human kindness are slowly gaining the ascendancy. Europe is filled with the ruins of castles of barons, dunces, where the noble and brave have been starved to death, and torture chambers of horror. But the glory is that the castles are still dismantled, the dungeons unused, the instruments of torture rusting away.

Thirty thousand lives was the price of Waterloo, but the disturber of Europe's peace was buried forever from his throne and a new era ushered in. At Constantine is shown the boulder marking the grave of Huss. The fires of martyrdom that there curled round him, fired the manly heart of Germany and 100 years later gave a Luther and the reformation. One sickens to think of the Christian martyrs mangled within its wall, but the work won many precious things from them.

The name of Jesus is known in every land. To the Christians no death seems so cruel as that on the cross, but the gospel he pierced his hands fastened his gospel to the human heart. One may not justify cruelty, but may show how justice and right was superior to evil. The world is growing better.

"On that broad platform," said the speaker, "I found my belief of God in the world, and a belief in the advance of the world. The same thing is found in the human soul. There is something in it that is always making for good. The human soul has been on trial before theology for centuries and has never had a fair chance. The jury has been packed with Calvinists and the witnesses taken from the slums, the verdict has been 'total depravity.'"

"These men have argued soul into eternal damnation to support their miserable logic. They have thrown man into the shadow to bring God's love into a brighter light, as though it glorified the greater to defame his handiwork. Human character is an edifice yet incomplete and defective, but the foundations are sound. Human nature must be measured not by its proneness to fall, but its ability to rise; not by the vices of a Judas traitor, but by the qualities of the master. The old scheme of salvation from the slums, the depravity; the new on his divinity."

"This is either a world without God or a world with God. If without, then we are drifting, the miserable beings of a chance creation. If with God, then through all runs his golden thread of hope and unbounded opportunities for man. However often we may fail and fall, there is in our inmost hearts the consciousness of a divine hope and power. Trust then in the righteousness of God and the capabilities of your own nature."

SUFFRAGIST ANSWER.

RESPONSE OF THE SUFFRAGE ASSOCIATION TO THE RECENTLY PUBLISHED REMONSTRANT APPEAL.

The Executive Committee of the Massachusetts Woman Suffrage Association held its first meeting of the season Friday afternoon at 3 Park street. There was a large attendance. It was voted to issue the following answer to the recently published appeal of the remonstrants:

To the people of Massachusetts: The manifesto sent out last week by the Massachusetts Association Opposed to the Extension of Suffrage to Women says: "We find tangible proof that the women of this state do not desire the ballot in their general indifference to school suffrage." We ask candid consideration of the following facts:

In Massachusetts, at Presidential elections, a majority of the men vote; at State elections less than half; at municipal elections a still less number; and at school elections, whenever these are held separately, only a small fraction of the male voters turn out. In the 20 States where women have school suffrage their vote is small. In England an examination of the voting lists shows that the women who have municipal suffrage exercise it about as generally as the men. In Wyoming, where women have full suffrage, Judge Kingman has collected statistics showing that nine-tenths of them vote.

In Kansas women obtained school suffrage in 1881. Their vote was small. In 1887 they obtained municipal suffrage. Their vote immediately became very much larger, and has increased at succeeding elections.

In Colorado women obtained school suffrage in 1876. Their vote was small. In 1893 they obtained full suffrage. At the next election, the women of Denver cast 50 per cent. of the entire vote of the city, and the vote throughout the city was large.

The vote, both of men and women, is large or small according as the election is large or small. It is to be regretted that women do not vote more generally at school elections, but it is only a new proof of the truth of Mrs. Foy's saying: "I am not denying that women are foolish. God Almighty made them to match the men."

"The Division of Labor," invoked by the M. A. O. E. S. W., has no application to suffrage. The progress of civilization has been marked by a greater and greater division of labor among individuals, but this has gone hand in hand with a wider extension of suffrage among the people. Since men of the most arduous trades and professions find time to vote without neglecting their business, it is plain that the busiest mothers and housekeepers could do so without neglecting their homes.

The manifesto of the M. A. O. E. S. W. says: "We do urge women opposed to the further extension of suffrage to vote. The remonstrants have been actively circulating for signature by women. This change of front shows their conviction that they cannot get as many votes as they wish, and we are likely to get to vote yes."

"We urge both men and women, who favor equal suffrage to vote 'yes' on the so-called referendum in November; and we remind women that registration closes in the cities on Oct. 16, and in the towns on Oct. 23. The Chairman of the Boston Board of Registrars has decided that under the law women can vote without the payment of a poll tax or any other tax, and without being called upon to make a declaration of their property."

The central registration office for Boston is in the Old Court House, Court Square. Women of the suburbs can register at the ward rooms in their own wards if they prefer.

Worthy your Confidence.

The success of Hood's Sarsaparilla in conquering scrofula in whom the disease manifest itself is vouchsafed by thousands who were severely afflicted by this prevalent disease, but who now rejoice over a permanent cure by Hood's Sarsaparilla. Scrofula may appear as a humor, or it may attack the glands of the neck, or break out in dreadful running sores on the body or limbs. Attacking the mucous membrane, it may develop into a cancer, or it may lodge in the lungs lead to consumption. Come as it may, a faithful course of treatment with Hood's Sarsaparilla will overcome it, for working upon the foundation of all diseases, impure blood, the system is purified and vitalized, and vigor, strength and health restored to the body.

Young Men's Christian Association Convention.

The 29th annual convention of the Young Men's Christian Associations of Massachusetts and Rhode Island will be held at Pawtucket, R. I., Oct. 24 and 27. Among the prominent speakers announced as participants are the Revs. Everett D. Burr, Boston; Floyd W. Tompkins, Jr., Providence, R. I.; H. Francis Perry, Hyde Park; Doremus Scudder, Woburn; I. DeVer Warner, Bridgeport, Ct.; W. C. Douglas, Philadelphia, Pa.; G. A. Beaver, International College Secretary, New York; W. E. Colley, Providence, R. I., and A. H. Whitford, Rochester, N. Y.

There will be addresses on "The Development of Men by Unselfish Service," "The Relation of True Manhood," "Legitimate Association Evangelistic Effort," "The Claim of the Association upon the Time of Busy Men," "How can we attract the Artisans of our Cities, and what Advantage can we offer to help them." "College Men as a Factor in the Salvation of Young Men," "Important Points Which Need Strengthening," and papers on the "Social and Physical Basis of the Work," and on "Soul Winning." Rev. Tillman B. Johnson of Lynn will have charge of the Bible Study.

A travelling exhibit, showing the growth and scope of association educational work will be on exhibition during the convention.

Reduced railroad and hotel rates have been secured for the delegates.

Mayor Bothfeld of Newton.

(Middlesex County Tribune.)

At no time since Newton was chartered a city has there been a more important and tedious administration than that of Mayor Bothfeld's. During the past two years of Mr. Bothfeld's service as Mayor, the city of Newton has put in the Metropolitan sewerage system, and is now in the throes of constructing one of the most extensive and picturesque systems of boulevards in the country work, all of which has taken persistent and arduous labor on the part of the Mayor. In fact, he has been obliged to devote more than half of his time to the conduct of the city's affairs, and this he has done faithfully and well, to the detriment of his own business and health, all for the insignificant remuneration of one thousand dollars per annum, a sum, according to our judgment, far too small for the duties and position of that for the Mayor of a wealthy city like Newton. We consider that for such a position the salary should be at least three thousand five hundred dollars per year.

Mayor Bothfeld has proven himself an honorable and efficient executive. He has, through the business-like and gentlemanly conduct of his administration, gained the universal respect and confidence of his fellow citizens. He has been fearless in carrying out reforms that have commended themselves to him, and it is mainly through this characteristic that the police force of Newton is now better manned, disciplined and more efficient than it ever was before.

With the present important business now on hand in the city of Newton, and with his thorough knowledge and ability to successfully transact it, we believe it is Mayor Bothfeld's duty to give his services for at least one more year, when, at the expiration of his term, he can step down and out of office with the reputation of being numbered among those who have done the most in building up and envying one of the most beautiful and moral cities in the nation.

Honor to Mayor Henry E. Bothfeld of Newton; we extend to him our hearty congratulations and profound respects.

Common Oatmeal

Sold from barrels or oftentimes in fancy packages (but still common oatmeal) is hard to cook, bitter in taste and overheating to the system. It overtaxes the digestive organs and the body derives no benefit from it—it injures rather than helps.

H=O

gets rid of all that is objectionable in oatmeal and preserves all that is valuable. It makes oatmeal a human food, palatable and easy of digestion, without taking away any of the elements needed for the building up of body, bone and brain. All other oatmeal is "steam-dried," "kiln-dried" and "partly cooked"—leave off just where H=O begins.

A MODERN HERO.

His limbs are fixed in rigid pain,
As though in iron bands;
He cannot shift his trident feet;
He cannot use his hands.
He dares not turn his throbbing head
Or stiffen neck. For why?
The handle of a walking stick
Would jab him in the eye.
The lagging minutes lengthen out
In famine's deadly hol!
He sits and longs, like Tantalus,
His dinner growing cold.
No hooded, grim inquisitor
Inflicts his long drawn pain.
He pays a price to suffer it,
Disdaining to complain.
Oh, sing of heroes dead in war,
But here I pledge in wine
The third class passenger who rides
On a suburban line!
—Fred B. Wells in Home and Country.

HYPNOTIZED.

"There isn't anybody living who can hypnotize me."
"Don't be too sure, Leonora," said her husband. "You cannot afford to run a tilt against science."
"But I deny that it is science. What has ever been proved by hypnotism? It is foolish to argue about it, for I will not even admit that there is such a thing. The shrewd people who go about the country giving exhibitions of their power are always in collusion with some one of the audience—you know that yourself, Ned."

"Nothing of the kind," retorted Ned, as Mrs. Darl called her husband. "It is a science that is yet in its infancy, and there are only a few individuals who have the hypnotic power and are able to throw less positive subjects into a trance. But I have seen it done, and it is wonderful—wonderful."

"What did you see?"
"I saw a young man climb walls like a cat, drink milk out of a saucer, catch a mouse, and then wash his face and hands as a cat does. And when he came out of the trance he had no idea that he had done any of these things or that he had even lost consciousness."

"Hum!" said Mrs. Darl incredulously. "I don't believe a word of it. If he did all that you said he did, he was simply a conspirator. And what good can such a faculty bring to science, I should like to know? Where is the scientific value in acting like a cat or a monkey?"
"Why, don't you see, dear, it is the verification of a theory?"

"No, I do not see. And I am not sure that I would believe it if I did see it. The whole stock in trade of these hypnotizers is the power of producing an illusion. I defy any of them to hypnotize me."

"I had intended asking you to go with me to the exhibition tonight."
"And be transmogrified into a cat? No, indeed! If I make a sacrifice of myself in the cause of science, it must be for something worth while. You have yet to convince me, Ned, that what you call the hypnotic sleep is not assumed to help carry out the plan of the hypnotizer or as a means of creating a sensation. There is no one living who could by a few ridiculous passes, a stare or pressure of my thumbs make me do anything I did not choose to do."

"But you acknowledge, do you not, that a strong will can control a weak one?"
"Yes, and always could, but that is as old as the days of Adam, who was evidently in subjection to Eve. I suppose some one will say that deep sleep which overtook our first father when his rib was taken from him was hypnotic. It would be just about as sensible."

"I have an idea," said Mr. Darl suddenly. "Suppose, since Mohammed won't go to the mountain, that the mountain comes to Mohammed. The hypnotist can come here after the entertainment, and we will invite a few neighbors in, and he can give an exhibition of his powers. How does that idea strike you?"

"Favorably, Ned. There are the Rusts, and the Pebbles and Dr. Smithly and his wife, and Cousin Fanny and her husband. You can let them know, and I will order refreshments, and we will have an evening of hypnotism. It will begin late, but we can find other amusement until your hypnotic operator comes."

Mrs. Darl had everything arranged—her house in beautiful order and herself gorgeous in a dress of ruby velvet, which was far too fine for the occasion, but was worn as a piece of resistance, she having read that velvet resisted hypnotic influence.

The neighbors and relatives came, a merry company, and the time passed in an animated discussion upon the power of hypnotism, one friend going so far in research as to visit the library and look up that wonderful story, the "House of Seven Gables," and read aloud to attentive listeners a passage from the weird history of Alice Pyncheon.

"He spoke, and Alice responded with a soft, subdued inward acquiescence and a bending of her form toward him, like the flame of a torch when it indicates a gentle draft of air. He beckoned with his hand, and rising from her chair the proud Alice approached him. He waved her back, and retreating Alice sunk again into her seat."

"She is mine," said Matthew Maule. "Mine by the right of the strongest spirit."
"Oh, that was mesmerism," said Mrs. Darl as the reading ceased.

"And what is mesmerism?" asked one of the company. "I think that it is as unexplainable as hypnotism, if it is not the same thing. Oh, here they are now! Let us hold on to our chairs, or we may be spirited away to China. I, for one, am afraid."

"I am not," said the queenly hostess as she swept forward in velvet and diamonds to meet her husband and his guest.

A pale, composed looking man accompanied Mr. Darl, and he did not seem surprised by the elegance of his hostess or flushed by the critical gaze of the company.

After the introductions were made and

conversation became general, Mrs. Darl slipped into the hall and beckoned to her husband, who immediately joined her. Then she whispered in his ear:

"If—if by any possibility he should be able to hypnotize me, you will not let him make me do anything ridiculous?"
"My dear Leona, how can you imagine such a possibility? But if you have any fear!"

"Fear!" echoed his wife scornfully in a stage whisper. "You will see that he cannot make the slightest impression on me." And she went back to the parlor and found one of her guests climbing the piano to escape an imaginary bear that was pursuing him. A few passes and he was restored to his normal condition, looking very foolish.

There were some amusing and some perplexing exhibitions of the professor's power, then the company followed host and hostess to the dining room, where a generous spread awaited them. Mrs. Darl was rather silent. Her test would be the next one, and she watched the wily hands of the young professor as if his secret lay in them. But they were harmlessly busy with the sandwiches. His face was quite noncommittal too. What was the power he held of reducing the will to a mere blank? She would soon know.

Back in the parlor Mrs. Darl seated herself under the brilliant chandelier. "Not there," said the professor, but she did not intend to yield to any command of his and said quietly:

"I prefer to sit here."
"Then I cannot hypnotize you."
"Oh, you acknowledge that it is only under certain conditions that this great power can be displayed?"

"Certainly, there are conditions that must be complied with. I am positive, and you are negative, but you are a very difficult subject because you are resisting me with all your might."

Mrs. Darl looked reproachfully at her husband and said in the dumb alphabet of the married, "You have told him."

He flashed back in the same language, "I have not," and she moved in accordance with the wish of the professor and sat with her back to the light. Some of the company were removed to remote parts of the room, but a few, including Mr. Darl, stood near.

"Look into my eyes," said the professor. "Permit me." And he took her hands and pressed the thumbs gently.

"It is like being in a dentist's chair," said Mrs. Darl, with a little forced laugh. Then she attempted to rise, struggling slightly, but continued to look into the eyes of the hypnotizer until in the place of two eyes she saw 20. Then she asserted her will and shook herself free.

"I—told—you—I—could—not—be—hypnotized," she said. Her voice sounded strange and far away. "How queer I feel! Staring so long has made me dizzy."

"Drink this," said Mr. Darl, giving his wife a glass of water.

She drank it, then rose to her feet and said she felt as well as ever.

"Where is the professor?" she asked. "I expect he has lost faith in his science."

"He was here a moment ago," said her cousin Fanny anxiously. "He thought he had succeeded in hypnotizing you, Leona. Were you not unconscious?"

"Not for one moment," said Mrs. Darl triumphantly. "He held my thumbs until they were numb—why!—where!—Ned!"

"What is it, Leona?" he asked in surprise at her peculiar tone.

"Where are my diamonds?"
"Where are my diamonds?"
"Where is the professor?"
"Search the house!"
"Send for the police!"

But the professor had left for parts unknown, and with him went Mrs. Darl's diamonds, and neither the police nor the Darls ever saw or heard of them or him again. But one thing was in his favor. Not only had he successfully hypnotized Mrs. Darl, but, as Mr. Darl admitted, he must have hypnotized the whole company in order to bring his hypnotic scheme to such a climax.

And Mrs. Darl is at last a convert to both the theory and practice of the occult science and a firm believer in the power of the hypnotic will.—Mrs. M. L. Rayne in Free Press.

A Daring Forgery.

A neat forgery was recently committed by a Parisian criminal, one Alt-mayer, which in its adroitness and audacity was worthy of "Jim the Penman" himself.

The accused had lately had several hearings at the Palais de Justice before M. Villiers, juge d'instruction. Several times during these hearings M. Villiers was summoned from the room for a few minutes at a time.

During one of these absences the culprit contrived to get possession of a sheet of paper and an envelope with official printed heading, and also to affix the official seal. Then he drew up at his leisure a document ordering his own immediate release, counterfeiting with rare skill the judge's signature.

On quitting the court one day he handed the letter thus prepared to the sentinel stationed in the corridor and remarked in an offhand manner, "The judge wants you to carry this letter immediately to the director of the Mazas prison." The soldier, suspecting nothing, took the letter and accompanied the prisoner to Mazas. A few minutes later Alt-mayer was summoned to the director's office and was informed that he was a free man.

With an outburst of simulated joy and surprise he at once took his departure, and as the fraud was not discovered until the following day he had plenty of time to get beyond the reach of the clutches of French justice.

One on the Prince.

The Prince of Wales once visited a seaside town for the purpose of laying the foundation stone of the new harbor. The prince, in company with Lord Dufferin, drove through the town preceded by the mayor in his official robes. An old fishwife, failing to distinguish H. R. H. among the other gentlemen, exclaimed:

"I wonder which is the prince!" and then cried out, at the top of her voice, "Long live the prince!"

Instantly the prince turned and bowed.

"Is that him?" she inquired, with a disappointed air.

"Of course it is," answered a neighbor.

"Well, well," she replied. "That's a regular knockdown! Well, if our mayor don't beat him all to fits in dress!"—Liverpool Mercury.

A Beaconsfield Anecdote.

One day, when the late Lord Beaconsfield was walking in his grounds at Hughenden Manor, he was accosted by a well known parishioner noted for his ready wit. It being winter time and the weather unusually severe, the villager after paying his respects to his lordship commenced to make an appeal for a little help.

"How often have I told you to be careful and prepare for a rainy day?"

"Ah, that's right enough. So I did, my lord," said the ready witted villager, "but then who ever thought of seeing all this snow and hard frost?"

This ready retort had the desired effect.—Household Words.

P. A. MURRAY.

Washington Street, NEXT TO Murray's Carriage Manufactory

Having purchased the horse shoeing branch of the business formerly conducted by Mr. P. A. Murray, we desire to state that we have worked at his stand several years and established a first-class reputation and we therefore feel assured of a continuation of your patronage. The shop in which we will continue the business is fitted up exclusively for horse shoeing and we can guarantee to give better satisfaction than ever. Special attention will be given to over reaching, interfering and tender footed horses, and also gentlemen owning trotting horses, can have them shod in any of the various styles of weighted shoes desirable for track work.

panied with the name of the writer, and

THE GRAPHIC office is to be moved in
the near future to a building of its own
on Centre place. The job department of
the paper long ago outgrew the
present quarters, and work has had to
be done at a great disadvantage because
of the lack of room, and the unfitness of
the building for the business. The great
majority of our patrons have also com-
plained of the location on the north side
of the track, and its distance from the
railroad station, and the new building
will be but a step from the station, and
very convenient of access from both sides
of the track. The probability that
several of the most important business
concerns will also remove to the South
side within a few years has also been a
reason for making the change. Moving
a printing office is a costly undertaking,
but there are cases where money can be
saved by doing so, and there are many
advantages in a newspaper being its own
landlord. The new quarters will be
much larger than the present location,
and will be carefully arranged for con-
venience in doing work, and will give
room for more men and machinery, so
that work can be done promptly. The
widening of Washington street is to
cause a general shaking up of the places
of business and many changes will be
made in the next two years. From the
remarks of the business men on the north
side there are very few who would not
cross the tracks with their stores, if they
could find any vacant place, and any
capitalist who should build a block on
the Lancaster road, between Centre
place and Richardson street, would be
able to rent all the stores and rooms be-
fore the cellar was excavated.

THE Republican Convention honored
itself by renominating Governor Green-
halze, and the event shows that honor,
courage, capacity and independence are
not a hindrance to the holder of a politi-
cal office, at least in this state. He has
shown an example of faithfulness to
principle, and a courage in standing by
his convictions, such as is seldom found,
and besides the regular party vote he
will receive the votes of many who are
not bound strictly by party ties, but who
do like a man. In the critical times of
the last few weeks, when the ordinary
politician would have been willing to
throw any of his principles overboard,
and endeavored to explain away every-
thing to which any one objected, Mr.
Greenhalze never faltered nor yielded an
inch, and it has made him friends with
all who admire honesty and manliness in
politics. Mr. Williams will make a very
warm campaign, without doubt, and it is
fortunate for the state that it has two
such honorable and able men to lead the
opposing parties, but this is not going to
be Mr. Williams' year, and even those
who admire him most for his courage in
taking hold of unpopular but much-
needed reforms, will feel bound to give
their votes to Mr. Greenhalze, and show
the political leaders that it pays to nomi-
nate a man of his character. The con-
vention represented what was best in the
Republican party, and it is a pity that
the framers of the platform did not have
the courage of their nominee for Gov-
ernor, and impart to the resolutions a little
more outspokenness in several directions.
Still, the man is the main thing, and
Governor Greenhalze is a good platform
in himself.

THE BOSTON GLOBE in its account of
the Newton Boulevard made several mis-
takes. It stated that Mr. Alden Spear
was one of the boulevard commission,
which was not the case, as he opposed
the plan. The commission was com-
posed of Messrs. E. B. Haskell, J. R.
Leeson and the late E. W. Converse.
Perhaps most of the credit is due, how-
ever, to the untiring efforts of Mr. A. D.
S. Bell, who was discouraged by no
obstacles, and by his enthusiasm suc-
ceeded in interesting a large number of
capitalists into a syndicate, which not
only gave land but money to the city,
towards this improvement, and got the
land into such shape that the boulevard
could be carried out on a large scale. If
the city had had to deal with each sepa-
rate owner of the land affected, it is doubt-
ful if the scheme could ever have been
carried through.

THE BOSTON STANDARD claims that
the Republican convention surrendered to
the A. P. A. bag and baggage, and tri-
umphantly asks where was Senator
Hoar, and why was he not allowed to
speak. Governor Greenhalze's renomi-
nation was, however, a very bitter pill
for the A. P. A., and the Standard gives

this advice to its A. P. A. readers.
"Since so many voters are between the
'devil and the deep sea, some of them may
'take to the woods' and vote for the
'gubernatorial candidate of the third
party.'"

The list of heavy tax-payers, which is
always read with much interest, will be
found on page six. As the tax bills have
been sent out, every one knows what
their own taxes are, but on the principle
that misery loves company, they like to
see how much their neighbors have to
pay. Ward Six appears to be the
wealthiest ward in the city, as it has the
greatest number of those paying over
\$300, and the new boulevard has been of
great advantage in this respect.

The Somerville A. P. A. have a lively
internal fight on hand and several promi-
nent members have withdrawn from the
order, giving as their reasons that the
order is a political scheme, for the pur-
pose of aiding the "orange" element of
the city to get a hold on city politics. It
is stated that out of the 700 members of
Union 86, of Somerville, less than 300 are
voters, and less than 150 had parents born
in this country.

The first notice of a refusal to accept
the awards made for widening Washing-
ton street was received by the aldermen,
Monday night, from Mrs. O. W. Hyde,
through her attorney, Jesse C. Ivy.
According to the latter the award was
\$2.79 per foot, and the owner does not
consider this enough.

THE BROOKLINE CHRONICLE denies
that its editorials are plate matter, and
we take it all back, although we did
wonder what agency sent out such stale
matter as it has been using.

An article on another page calls atten-
tion to the great need of a matron at the
police court, and of new quarters for the
court. The present ones are said to be a
disgrace to the city.

THE Republican Club of the state
holds its annual dinner, Wednesday
evening, Oct. 23. Every one is wonder-
ing if Senator Hoar will be one of the
speakers, this year.

An appeal to women opposed to the
extension of the suffrage will be found
on another page. The two parties to
this question are making a very active
campaign.

THE LATEST IN BONNETS.

BEAUTIFUL DISPLAY IN FEMINE HEAD
GEAR AT THE JUVENE.

The fall and winter opening at the
Juvene, on Elmwood street, always at-
tracts the ladies of Newton and on Mon-
day morning the visitors began coming
at an early hour in the morning and con-
tinued coming all day, and the same was
true of Tuesday and Wednesday. It was
a charming display and no one can resist
the beautiful trimmings seen this year,
especially the mirror velvets, with their
dainty flowers showing through the
sheen of the velvet in changeable hues,
according to the light. These are the
newest things and the velvet appears in
the shape of crowns, wide bows, or other
trimmings, and the bright colors make
the hats this year more than usually at-
tractive.

The new color this year is mandarin
orange, which is very taking when com-
bined with black, and Miss Robbins ex-
hibited a dainty evening bonnet, where-
on this color was prominent in mirror
velvet.

A new shade of green has also ap-
peared which was shown in a copy of a
Paris pattern hat, combined with ecru
lace.

Among the most taking creations is a
dainty little bonnet with the broad ef-
fect at the back, a beautiful combina-
tion of brocade velvet, in which a deli-
cate blue prevails. Across the front of
it is a row of fine cut jet cabachons. A
jaunty look is given to the whole by an
aigrette and a feather pompon. In the
back is a very brilliant rhinestone orna-
ment. These showy adornments are
seen on almost all the hats and bonnets
as well as those of out steel, jet, and
combinations of rhinestone and both
white and colored pearls. One notices
that almost all the bonnets have strings.
Velvet is used very largely in the
make-up of both bonnets and hats, some-
times with crowns of tinsel, chrys and
silk. With the brilliant ornaments are
also brilliant trimmings in the way of orna-
ments, spangled wings called "flitter
wings," and aigrettes. Silk roses, large
and flat, and of different colors, are about
the only flowers seen.

Several of the large picture hats were
shown, ornamented with long black
ostrich feathers.
Every bonnet had a style and character
of its own, and that they pleased the
ladies was shown by the large number
of sales, the first day so many being
taken away that Miss Robbins and her
assistant had a very busy time of it in
the evening preparing others to take
their places. The same held true of the
next two days, and the number of sales
surpassed those of any previous open-
ing while a great number of orders were
taken.

LONELY MOUNDS AT POINT BARROW.

They Mark the Antiquity of a Native Race,
but Do Not Tell Its Story.

Point Barrow, Alaska, the northern-
most point of land of the North Ameri-
can continent, has some interesting
graveyards of its own. About 11 years
ago Lieutenant Ray, in his report of
the polar expedition to Point Barrow,
recorded that in digging a shaft 26 feet
below the earth's surface to obtain
earth temperatures he found a pair of
wooden goggles, pointing to the great
lapse of time since these shores were
first peopled. The Alaska Mining Re-
cord says that this country was undoubt-
edly inhabited long before Columbus
discovered America. Of the origin or
descent of the inhabitants no definite
trace has been found, and there are no
records of the past among the people
who now live there. Their language
abounds in legends, but none gives any
data by which to judge how long these
desolate shores have been inhabited.

The ruins of ancient villages and
winter huts along the seashore and in the
interior show that the country has been
inhabited for centuries. There are
mounds at Point Barrow marking the
site of three huts dating back to the
time when the natives had no iron and
the men "talked like dogs." These
mounds stand in the middle of a marsh,
and the sinking of the land caused the
site to be flooded and abandoned. The
inhabitants in times past have followed
the receding line of ice which at one
time capped the northern part of this
continent and have moved along the
easiest line of travel. This is shown in
the general distribution of a similar
people, speaking a similar tongue, from
Greenland to Bering strait. The dis-
tribution of the race today marks the
routes traveled. The seashore led them
along the coasts of Labrador and Green-
land, Hudson bay and its tributary
waters. They came down the Yukon, so
rich in minerals, to people the shores of
that stream and the interior of Alaska,
and traveled along the coast to Cape
Prince of Wales. To this day they use
dogs instead of deer, the natives of
North America having never domesti-
cated the reindeer, and they speak a
different tongue from their neighbors
across the strait in Siberia.

Some writers on the subject have ad-
vanced the theory that the natives of
Alaska are descendants of the race of
people that Cortes drove out of Mexico,
others that they are Japanese or Chinese
in origin, and others still that they
came to this country across the strait
from Siberia. So far as definite infor-
mation is concerned, one guess is as
good as another. The lonely mounds
at Point Barrow mark the antiquity of
the race, but they do not tell its story.

EASY ENGLISH FOR SPANIARDS.

No Man Need Want Bread and Butter if
He Can Say "Sombbrero y Bota."

Some time ago two Chilean gen-
tlemen, friends of each other, agreed to
visit Europe. One of them resolved to
proceed overland to Buenos Ayres, and
from thence to Montevideo, where he
would join the straits steamer, while
the other preferred to make the journey
by sea.

In due time the steamer arrived at
Montevideo, and the two friends met
again. After the customary salutations
were over they commenced to compare
notes of their respective trips. The trav-
eler by sea complained that the Chilean
stewards on board professed a profound
ignorance of their native tongue and
persisted in answering all questions put
in that language with a "What, sir?" or
"Beg pardon, sir." "Only imagine,"
he said, "that during all the voyage
from Valparaiso to Montevideo I have
been unable to obtain pan con mante-
quilla, because the stewards either
would not or could not understand me."
"My dear friend," replied the over-
land route man, "I will tell you how to
overcome that difficulty. There is a
considerable number of Spanish words
which can be made to do duty as Eng-
lish. It is merely a question of pursing
up the month and speaking harshly
through the teeth. For instance, in the
case of pan con mantequilla, the Span-
ish words to be employed are sombrero
y bota. Make the trial and you will be
convinced of the efficacy of my method."

Next morning the two friends sat
down together to breakfast, and the
overland man, nudging his companion,
whispered, "Try my method." Imme-
diately afterward one of the Chilean
mozos who was unable to comprehend
the meaning of pan con mantequilla ap-
proached, and the passenger, screwing
up his mouth and speaking through his
teeth, exclaimed, "Sombbrero y bota."
"Some bread and butter? Yes, sir,"
came the answer, and the passenger
had no difficulty after that in procuring
pan con mantequilla.—Chilean Times.

Friendship.
The plant of friendship grows only
in the warm air of congeniality. Con-
fidence binds its parts together and is
the cohesive power of its nature, while
sympathy is the life giving sap coursing
through every fiber. It is an evergreen
and is indigenous to all lands. Its
most beautiful flowers open during the
night, and while a perennial bloomer,
it is most fragrant in winter. Time
cannot wither or destroy it; age but
strengthens and develops.—C. S. Field.

Advice.

brief season? I'm writing a torture
chapter in my novel and want to get it

Criticism—Um—um—er—oh, yes, I
know just the place. Come up to my
house this evening. The young lady
next door is going to have an amateur
musical.—Detroit Free Press.

IN MEMORIAM.

NEWTON VETERAN FIREMEN'S ASSOCIATION: WHEREAS: It has pleased our Heavenly Father in his wisdom to remove from our Veteran Firemen's Association, a member of the Mechanic No. 4 Engine Company and Hose No. 7, an Assistant Engineer of the Newton Fire Department during the years 1874 and 1875 and of the Holyoke department at an earlier period and a member of this association since its organization.

RESOLVED: That in his death the association has lost one of its most respected and valued members, and the city one who was long a resident and honest, upright citizen, whose the darkest period of the country's history voluntarily shouldered a heavy burden, and in the front, serving with honor and credit in a Massachusetts regiment, as he did in every position public or private that was ever called on him.

RESOLVED: That we extend our heartfelt sympathy to the sorrowing family and relations. It is resolved: That a page in the record book of the association be set aside as a Memorial to the deceased and these records spread thereon.

W. P. Leavitt, Committee on Resolutions.

Oscar S. W. Bailey, Secretary.

Miss Helen Blackwell; third vice presi-
dent, Mr. D. F. Barber; fourth vice presi-
dent, Miss Abbie S. Duff. The meeting was
then adjourned to next Monday evening
when a special meeting will be held.

—The highest number of patients ever
treated on one day in our Hospital was 57.
This was last year. One day last week
there were 52 patients on the list, and as it
is now so early in the season, this is a very
large number and it looks as if every bed
would be occupied as the season advances.
When we remember that it was once the
general opinion that there would be only
about 50 patients in a whole year it shows
wonderful growth and efficiency, and also
how strong the confidence of Newton
people has become. But this large work
means the expenditure of much money.

days, June 3, 10, 17, 24, July 1.

The bowling committee of the club
has arranged the tournaments for the
season of 1895-96. It is the desire of the
committee to increase the interest of the
members in bowling, and with that ob-
ject in view several attractive features
have been provided.

The first handicap tournament, (50
strings) commences Nov. 15 and ends
about March 1. The club will follow the
policy inaugurated last year and present
a handsome trophy for the winner of the
above competition. Valuable prizes will
be distributed, also for the members
finishing first in each class in the finals.
A matched pair tournament will com-
mence about Oct. 18 and end about Nov.
4. The class team tournament begins
Nov. 10 and ends March 1. The latter
will be one of the prominent features
of the bowling season. Several valuable
prizes will be offered in each class. The
mass individual tournament commences
March 1, and ends about April 1. This
is a new feature. Another new feature
will be a monthly handicap tournament,
to be rolled on every third Saturday of
each month.

The club will offer a prize each week
for some special feature in bowling. The
only condition is that members compet-
ing shall bowl not less than ten strings
during the week. The club will be rep-
resented by a strong team, but will not
enter the Massachusetts League Compe-
tition this season.

The first in a series of ladies whist
nights proved a most enjoyable function.
The tables, 42 in number, were arranged
in the attractive assembly hall, decorated
for the occasion with groupings of palms
and exotics. The prizes were hand-
painted china articles of beautiful de-
sign, the work of Mrs. H. D. Kingsbury.
They were distributed as follows: First,
Mrs. Harry L. Langdon; second, Miss
Gertrude Morse; third, Mrs. D. E. Har-
ding; fourth, Mrs. Walter Barker; fifth,
Mrs. S. L. Powers; sixth, Mrs. George
W. Morse; seventh, Mrs. William Paul;
eighth, Mrs. L. E. Coffin.

Dr. Cilley, of Boston, says Ayer's Hy-
gienic Coffee can be used freely by persons
of nervous temperament and by invalids
and children. It not only being agreeable
to the taste, but highly nutritious as well.
Grocers sell it.

HEADQUARTERS FIFTH REGIMENT OF IN-
FANTRY, SECOND BRIGADE MASSA-
CHUSETTS VOLUNTEER MILITIA.
Boston, October 12th, 1895.
To the Honorable Henry E. Bothfield,
Mayor of Newton, Mass.

Dear Mr. Mayor—In behalf of the
officers and men of the Fifth Regiment I
have much pleasure in conveying to you
and the city council of the City of New-
ton our deep sense of obligation for the
very acceptable and substantial hospitali-
ties extended by the city of Newton to
the regiment upon Thursday last, the
day of the annual drill.

I beg you will allow me to record, what
could not have escaped my observation,
how gratifying it was to observe the
orderly arrangements which had been
made. Especially did I note the neat
appearance and intelligent duty per-
formed by the members of your police
force. I have never seen police duty done
more satisfactorily in the course of an
experience which has now become some-
what extended. Especially fit was the
sergeant who had charge of the detail
which accompanied the regiment during
the day. His conduct, and that of the
men with him was entirely suitable.

It was a pleasure to march over your
well built streets, so thoroughly kept,
and to observe the works of municipal
improvement on every hand. I am sure
I took much satisfaction in observ-
ing how you administer the affairs
of your city, and I am now glad to con-
gratulate the city of Newton upon its
good fortune in possessing such a chief
magistrate (and you need not hesitate to
read this letter in public either.) In
short, our reception by the people of
Newton, both in their official and private
characters, left nothing to be desired, and
enables us to convey to them with much
cordiality the gratitude of the officers
and men of the Fifth Regiment. I have
the honor to be very respectfully,
Your obedient servant,
WM. A. BANCROFT,
Colonel.

**Newton Wins the Athletic Champion-
ship for 1895.**

The most important athletic event in this
part of the country is the annual champion-
ship games of the New England Associa-
tion of the Amateur Athletic Union, held
at the close of the outdoor season. The
meeting for this year was held last Sat-
urday at Worcester where, in spite of the
heavy rain which interfered somewhat
with the track events and greatly with the
field events, many close contests were wit-
nessed. The unfavorable weather is to be
regretted as the full list of athletes and the
good condition of the grounds of the Wor-
cester Athletic Club, pointed to the most
successful meeting ever held by the New
England Association.

The Newton Athletic Association had
entered a strong and well selected team
and good judges of such matters conceded
that they stood an excellent chance of
surpassing their older rivals. At the close
of the games Newton A. A. had won prizes
in eleven of the thirteen different events,
including five firsts, five seconds and three
thirds as follows:

CITY GOVERNMENT.

THE COMMON COUNCIL HAS AN IMPORTANT SESSION—BOARD OF HEALTH WANTS A GARBAGE CREMATOR—DISCUSSION OF AN ADDITION TO HIGH SCHOOL.

At the meeting of the Newton city council last evening, the board of health submitted its report upon the sanitary disposition of garbage and other municipal waste and the reorganization of the department. The board recommends the disposal of garbage by cremation and the building of a Thackeray incinerator on a site to be determined later, having a capacity of 65 tons per 24 hours. The plant will cost about \$17,000 and will dispose of all classes of municipal waste. The board, under its proposed reorganization, will have the entire collection of municipal waste under its control. The report in substance follows:

The most important problem which has presented itself to the present board of health for solution, is that of the proper disposition of city waste and house offal.

The board, upon assuming office in the summer of 1893, was charged with the execution of a three year contract for the collection of house offal which had been negotiated by the retiring board. In the fall of the same year, the city council transferred the work of collecting ashes from the highway to the health department, and the board believing that it was not justified in establishing a plan for this work alone, asked for bids and let out the work by contract, so timed that it would expire with the contract for house offal.

These contracts run out early in 1896 and the board believes that when that time arrives, a radical change should be made in the method of doing work.

The problem with which the board has to deal embraces the collection and disposal of the waste known as house offal or garbage, market refuse, ashes, rubbish and night soil.

As before stated, this work is now being done by contract and the board feels that the proper care of the health of the city demands better service than can be obtained in this manner. An authority in these matters says "The experience of a great number of places is not favorable to the contract method, and by comparison in the same place where a part of the work is done by the city, the services of the contractor is inferior to that performed by the city's men and teams."

The board has carefully observed the working of the contract system in this and other cities and has come to the following conclusions: That all work affecting the sanitary condition of a city should be executed by the municipality; that the cost of the work, although of secondary importance, although reasonable economy can be exercised even in this; and that the time has now arrived when the contract system, which puts a premium upon careless and incompetent work, should be abandoned, and the matter placed in the hands of the city.

The board unanimously recommends that the department be reorganized upon the expiration of the present contracts in the spring of 1896, and it submits the following report for your consideration at the present time, in order that, if its recommendations are adopted, the necessary appropriations may be authorized this fall.

The contemplated reorganization of the department involves the consideration of many questions each dependent upon and closely interwoven with the other.

By far the most important of these is the disposition to be made of the refuse after its collection.

Under the present method, the contractor disposes of the garbage and market refuse to farmers, who haul it out of the city and feed it to swine.

This involves the establishment of a "swill yard" where the city teams can unload and the farmers' carts be filled. The present swill yard on Lexington street has always been a prolific source of complaint, although it is due to the contractor to state that its condition is as satisfactory as possible under the present system.

Our present method of disposing of rubbish and ashes is by dumping at various convenient points; the material, so dumped serving as filling. This method is open to several objections. In the first place it has been found impossible to prevent a certain amount of putrescent matter from being mixed with the ashes, which when thrown upon the dumps, soon decays, emitting noxious odors, and land filled with such filth must prove to be unhealthy for building sites.

Further than this, it has been found impossible to keep the dumping grounds in good condition, even though special efforts have been made by the employment of a laborer for this purpose alone, and it is found that they are the cause of numerous complaints on account of their unsightly appearance, and the offensive odors which arise from them.

Night soil is disposed of in the primitive and old-fashioned manner of dumping upon the nearest farm lands, and when not plowed in or buried, invariably proves to be a nuisance; to say nothing of the danger of this spreading possibly disease infected human excreta broadcast upon the land.

The contents of cesspools, called tankage, is now required to be carted into the sewer at certain designated points, but as the board has only a nominal control over the matter, it is impossible to determine whether this requirement is fulfilled or not.

Such are, in brief, the present methods of disposing of the city waste, and it is only necessary to state them to show their imperfections, when compared with more modern methods.

MODERN METHODS.

The modern methods for the sanitary disposition of municipal waste are many. One is the manufacture of garbage (meaning only house and market offal) into a commercial product; and the other, the destruction of all kinds of waste by fire, and the utilization of the resulting ash for revenue.

The first method is now in use in several large cities, and the recent agitation in Boston over the working of the Dorchester plant, is easily recalled.

The second method is the complete destruction of all kinds of waste by fire. This plan has been followed with great success wherever it has been adopted, the only important question connected with it, being that of expense.

The result of the investigation by the board has led it to believe that the method of garbage disposal by cremation is superior to any other, and this belief is endorsed by the men who have given the subject the most thought. Fire is the most efficient means of destroying refuse which we possess, and as was said at the Montreal meeting of the American

Public Health Association, "After all has been said and done in favor of all other means of ridding ourselves of the waste products of city life, history repeats itself in the suggestion of fire as the only competent means at our command."

It is applicable to a wider range than any of the utilization processes, as it can be used for the destruction of all kinds of waste.

The fact that it will effectively dispose of night soil, is regarded by the board as a strong argument in its favor, especially in a city like Newton, where privies must exist for a number of years to come. The destruction of night soil by fire, may prevent a severe outbreak of disease, caused by carelessness in disinfecting excreta during an illness, and the subsequent disposal of the contents of a vault by burial as at present practiced.

Dead animals and infected articles can be also disposed of by a furnace.

The board therefore recommends that a Thackeray incinerator of a capacity of 65 tons per 24 hours be built in this city upon a site to be hereafter reported upon.

REORGANIZATION.

The contemplated reorganization of the department, is based upon the assumption that proper means for the disposal of the waste material is to be provided, as the board does not believe that the city should undertake the collection in the manner of its disposal.

The suggested reorganization, therefore, assumes the establishment of a plant, and proposes the collection of garbage and house dirt, ashes and rubbish by the city, under the direction of the board of health.

The Thackeray plant will dispose of all classes of municipal waste, so that all collections can be carried to the incinerator, and there consumed.

The cleaning of vaults and cesspools also should be done by the city under the direction of the board. The tankage being dumped into the sewer at convenient points, to be approved by the sewer department, and the more solid matter incinerated. It is thought that for several years this work will yield considerable revenue, estimated to be in the neighborhood of \$4,000 per annum, and should therefore be self-supporting.

The sale of the ashes from the incinerator, either for filling or as a basis for fertilizer, should give a little income, but it is difficult to make an estimate of the amount.

The board has carefully considered the expense involved in the reorganization as recommended, and submits the following estimates of the cost of equipping and maintaining a plant of sufficient capacity for the execution of all the above work. Said estimates being based upon the assumption that the plant shall be located upon land owned by the city, of which there are several available sites.

OTHER MATTERS.

The council transacted a large amount of routine business. Several hearings were given and ordered closed, including the following: On petitions for laying out of Eddy street, widening of Webster street, taking land for a sewer in Charlesbank road, taking Shaw street and taking land for the same purpose in Water street. Mr. Knapp of Newton Centre appeared as a remonstrant to the taking of land for sewer purposes in Water street. He said that a sewer there would provide for only one house and that it would entail upon him a large expense for unoccupied land which he had been holding for the past ten years.

The sewer, he stated, would chime in with the sewer of Mr. Hammett and he argued that his house could be provided for practically as advantageously by connecting with the Homer street sewer.

At this point, the following communication from Mayor Bothfield was read by Clerk Brimblecom:

COMMUNICATION FROM THE MAYOR.

Oct. 14, 1895.

TO THE CITY COUNCIL:—

Gentlemen,—I desire to call your attention to the special report of the board of health upon the sanitary disposition of garbage and other waste which is communicated to your honorable bodies herewith.

While I have been prevented from making a personal investigation into the matters treated in the report, and am therefore unfitted at this time to make any specific recommendations, I am nevertheless, strongly of the opinion that the sewer, as it comes, should be collected its ashes and garbage, and control the disposition of the same.

It has required nothing more than ordinary observation to note the unsatisfactory results arising from the present method of doing this work. Especially does this apply to the collection of ashes and house rubbish. Our streets have been littered with paper and other refuse, and efforts of the superintendent of streets to remedy this trouble, have almost been fruitless. With a service directly under the control of the city, responsibility can be directly placed, and such nuisances prevented.

The yard at Athurndale, used for the unloading and distribution of house offal, has, as you all know, been the cause of serious complaint. This has been owing to no fault of the contractor, but is a necessity from the present conditions. There is no section within our limits where such a yard can be established without raising a protest and resulting

in the creation of a nuisance.

The board of health has given this whole subject careful and earnest investigation, and I commend to your thoughtful consideration the recommendations which the board makes, and trust that your honorable bodies will select a special committee to further investigate this matter, in order that every detail may be known and understood by the city council, and that early action may be taken.

Another service which is very unsatisfactory, but which is not under the control of the health department, is the watering of the streets, and it seems fitting that in this communication, I should call your attention to the unsatisfactory results achieved by the contract system. I have been of the opinion for some time that the only effective way to secure properly sprinkled streets so that the roadways are actually preserved and not damaged, and the travelling public accommodated rather than annoyed, is for the city to own the necessary plant. I recommend that provision be made in the appropriations for 1896 for the purchase of, at least, a few watering carts and horses, in order that a beginning may be made in the line of an improved service.

Respectfully submitted,
(Signed) H. E. BOTHFIELD,
Mayor.

Under the head of new business these petitions were disposed of: Thomas M. Waters, et al., for laying out of Lincoln street and lighting same, referred to highway committee; A. W. Vose for gravel walk, without edgestones, on Beacon street, referred to highway committee; C. H. Stacey, et al., for concrete sidewalks on Lincoln street, referred to highway committee; citizens of West Newton for a cross walk on River street, between Waltham and Henshaw streets, referred to highway committee; George Cornish, relative to alleged injuries received in a trench near Hull street, referred to committee on claims; for laying out of W. Water street, referred to highway committee; N. F. Nye, et al., for improvement of walks on Grove street, referred to highway committee; for sewers in Cypress and Edinboro streets, referred to committee on sewers; for street light, corner of Valentine street and Valentine park and maintenance of an arc lamp at that point, referred to committee on fuel and street lights.

A communication was received from Mrs. Carrie L. Bradshaw through her attorney, notifying the city council of her dissatisfaction with the award made for damages on account of the Washington street widening, affecting property owned by her on that thoroughfare.

Councilman Hatfield presented the report of the public property committee, recommending an appropriation of \$500 for plans for an addition to the modern section of the High school building. The report was received.

On motion of Councilman Wing, an order was adopted authorizing the appointment of a joint special committee, three on the part of the common council, with such as the board of aldermen may elect to join, to consider and report on the recommendations of the board of health, concerning the establishing of a garbage plant and the reorganization of the health department. It was voted to refer the report of the board of health to that committee.

An order was adopted authorizing the mayor to purchase lands on recommendation of the committee on Washington street awards, whereby by so doing a more favorable settlement can be made with parties whose land has been seized in part.

An order offered by Councilman Briston was adopted, providing for an appropriation of \$1,500 for concrete walks and grading about the Adams schoolhouse.

An order offered by Councilman Wing was adopted, authorizing the committee on Washington street awards to effect a settlement with J. Barker for land taken for the widening of Washington street.

An order offered by Councilman Hatfield was adopted, appropriating \$1,585 for laying a 206 feet of 6-inch water pipe in Athurndale, 1,080 feet, 6-inch, in Clark street and 178 feet, 4-inch, in Orchard street.

HIGH SCHOOL ADDITION.

An order was offered by Councilman Hatfield, providing for an appropriation of \$500 for procuring plans for a brick addition to the modern section of the High school building.

It was the occasion of considerable discussion. Councilman Hutchinson said that there was a variance of views regarding the best thing to be done to provide the required additional High school accommodations. Many citizens, he went on to say, are of the opinion that the city has done its duty this year in the way of providing new school buildings. While I do not wish to stand in the way of a necessary improvement, added the councilman, it seems to me that there is no necessity for haste. There are many who would like to see a good idea put into another High school building in some other part of the city. Believing that it would be the part of wisdom to consider carefully the various phases of the question, and feeling that it would be better to delay until another year further expenditures for school buildings, I am not prepared to vote for the order at this time.

Councilman Roberts—I can see no good reason for delay in procuring the plans. There is no doubt as to the necessity of the addition and if the order, authorizing the securing of plans is passed, it does not necessarily mean a further appropriation this year for the addition to the building.

Councilman Sprague—I am inclined to vote for the order, but as one of the members of this board asks for delay in order to give to the subject further consideration, I believe that it would be courteous to put the matter over. I therefore desire to give notice that I shall move to have the subject especially assigned for the next meeting of the council.

President Parker released the chair temporarily to speak in reply to Councilman Hutchinson. He said that the public property committee had given the subject very careful consideration. The old portion of the High school building, he went on to say, was in very bad shape. It was understood when the modern section was erected 10 years ago that the second portion for which these plans are to provide would be added within two or three years. The necessity has been urgent for some time and the matter would have been pressed last year by the school board had it not been feared that it might interfere with the securing of the new schoolhouse at West Newton.

The old part of the High school is very much out of repair and cannot be renovated. It is unfit for the habitation of pupils and regarded as extremely dangerous in case of fire. The committee is satisfied that it cannot be repaired and provision made for the sanitary and ventilating appliances required under the present state law. The rooms in the old part are very much over crowded. So

far as the interior is concerned, some of the highway stables in the city are far superior. Owing to the great expense of a teaching force for a separate High school, that plan is regarded as not being feasible.

In reference to the appropriation for plans, said the councilman in conclusion, it should be borne in mind that a delay must be inevitable before any steps can be taken toward making an appropriation for the building for which they provide. It will be several months, probably, before the committee will be in a position to proceed in the way of providing funds for the contemplated structure, hence the appropriation will not be included in those for the present year.

Councilman Briston said that there was no desire on the part of the public property committee to railroad the order through. Attention, he went on to say, had been repeatedly called to the condition of the old portion of the High school building. It was certainly time to take some steps towards remedying that condition, one admitted to be not in accord with the requirement for buildings provided with suitable sanitary and ventilating fixtures and safe for the occupancy of pupils.

Councilman Wing—I am in favor of the addition to the High school building, but I also feel that it would be well to take plenty of time to consider the subject.

Councilman Ober spoke in a similar vein.

The motion, seconded by Councilman Sprague, to lay the order on the table was defeated by a vote of 8 to 4.

The vote on the passage of the order stood 8 to 4. It, therefore, failed to pass, the necessary two-thirds of the total vote not being in evidence.

In concurrence, a large number of petitions were disposed of and these orders were passed: Granting free use of the City Hall, Oct. 28-31, to Mrs. P. W. Carter; authorizing the construction of various sidewalks and a concrete crossing on Walnut street; appropriating \$104 for water mains.

Impure Blood and Loss of Appetite.

I cheerfully recommend Hood's Sarsaparilla to all who suffer from impure blood and loss of appetite. I have found it a great blood purifier and would not be without it. I also use Hood's pills in my family and find them as recommended. Mr. G. W. Badger, Framingham Centre Mass.

Newton C. E. Union.

The first fall meeting of the Newton Christian Endeavor Union was held Monday evening in the Newton Highlands Congregational church. The church was well filled with members of the various branches throughout the Newtons, and was prettily decorated with '95 Convention flags draped with foliage and flowers. Some of the Endeavorers wore the same caps and badges as those worn at the great convention. After the regular business of the evening was transacted President Daniel D. Jewett of Newtonville introduced Rev. Mr. Havens, the new pastor of the church, who cordially welcomed the union and spoke of the good results he hoped they might achieve. He was followed by Rev. Mr. Berle of Brighton, who then addressed the gathering, taking for his subject "Echoes of the Convention," the topic of the evening. Following this Rev. F. E. Hamilton of Newtonville conducted an open parliament and answered some very pertinent questions regarding the work of the convention and of the union. At the conclusion of the exercises, which included singing by the church choir and the congregation, a collation was served in the church parlors, to which all were invited.

IS IT A SUSTAINER?

How much manual labor do you think you do in a day? A post-man averages about 353 foot-tons. An ordinary laborer 350 tons. A very hard day's work would be 400 tons. A clerk or bookkeeper may fall as low as from 15 to 20 tons. In Weston's recent walk to Albany, 150 miles, in 60 hours, we calculate his work was no less than 1005 foot-tons, and his food consisted entirely of

NEWTONVILLE.

—Pianos rented and tuned, Farley, Newton.

—Mr. Robert Fitzpatrick left here yesterday on a Western trip.

—Mrs. John Vallette Thift of Buffalo is the guest of her sister, Mrs. A. F. Brown.

—Miss Clara Woodward of Newtonville has returned from a short visit to Worcester.

—Mrs. Susan Wadsworth and Mr. and Mrs. W. H. Andrews of Highland avenue have returned from Seaside.

—Mr. James Anderson and Miss Lilla Anderson of Austin street have returned from a two week's trip to the White Mountains.

—Mr. A. H. Sisson has leased the house, corner of Walnut and Washington streets, which he will occupy until the completion of his new house on Edinboro street.

—Dr. O. H. Hunt left on Monday for a visit of two weeks to the Atlanta Exposition. Dr. W. O. Hunt does not contemplate any trip, as stated last week, his initials being given by mistake for his father's.

—Mr. G. H. Loomis of the Newtonville Real Estate Agency, sold at auction last Saturday two dwelling houses on the north side of Brooks avenue, owned by the heirs of Elijah Brigham. The purchasers were Mrs. E. W. Davidson and Mr. W. H. Lord, who bought for investment.

—A concert will be given in the Methodist church, Monday evening. The program will consist of readings by Mr. Will Hallows Graham, violin solos by Mr. J. William Howard, piano solos by Mr. J. Edith Castle and Mr. L. G. Ripley, and pianoforte numbers by Miss Maud E. Parsons.

—Frank Joyall has removed his carpenter shop and storage building which until recently occupied the lot on the south side of Washington street, near the Harvard street railroad crossing, to a new location on Crafts street. During the passage down Washington street, the patrons of the electric cars were obliged to change cars between Crafts street and the square.

—One of the horse horses was thrown down at the corner of Washington and Walnut streets when the apparatus was on its way to the fire at Newton Centre, Wednesday. There are those who think that too much effort was being made to "fly" through the square at a rapid gait. Show speed is to be deplored and it is not the best judgment always to drive fast around corners even when going to a fire.

—Owing to the changes on Washington street, the houses on the side have been either removed to new locations or are now on their way to sites in various sections of the city. Three were propelled by means of rollers and the building movers' art and science was in evidence. The main thoroughfare and some of the side streets have as a consequence been more or less blocked.

—Mrs. Nella I. Daggett of Newton is to attend the Atlanta exposition as a delegate sent by New Hampshire's Daughters. The Newton members of the New England Women's Press Association will leave Boston with the general delegation on November 2nd, via steamer to Norfolk, Va., taking a trip to Lookout Inn and Asheville, N. C., and returning via Washington to New York.

—Methodist Episcopal church—The pastor, Rev. Franklin Hamilton, will preach both morning and evening. Morning topic at 10.45 a. m., "The Gates of Heaven." Evening topic at 7.30 p. m., the second of the Sunday evening talks to young people will be given, "Evangelism's Arcadia, Home of the Happy." The Congregational singing will be by the choir. All seats free. A solo will be given in the evening.

—An entertainment known as "Everybody's Birthday Party" was given in the parlors of the Central Congregational church, Wednesday evening, and attracted a large company of ladies and gentlemen who were evidently much pleased with the novel and interesting features incorporated in the program. The entertainment was planned for a benefit for the Newton fund and was successfully carried out under the direction of a committee comprising Mrs. W. C. Boyden, Mrs. D. E. Baker and Mrs. A. L. Gordon.

—On Monday, Oct. 21st, from 3 to 5 at Bray's Hall a reception will be given by the Newton Federation of Women's Clubs to Mrs. Ellen M. Hennrich of Chicago, president of the National Federation of Women's Clubs. Many distinguished guests have been invited, and it is expected short speeches will be made and a pleasant time passed. Tickets for members of the Newtonville Guild only can be obtained at the store of J. V. Sullivan, Newtonville square. Each member can have two tickets so that she can invite a gentleman or lady friend. Price 25 cts. for ticket.

—The first meeting of the Newtonville Woman's Guild took the form of a reception at the house of Mrs. Wm. Hollings, Washington park, Tuesday. Mrs. Hollings was assisted in receiving by Mrs. J. Hill, president of the guild. It was an unusually pleasant gathering and the general feeling expressed was that everything looked towards many pleasant and constructive meetings the coming year. The next meeting will be held Oct. 29th, at which "Outing" papers will be read by some of the members; at the second meeting Nov. 12th, the members will be addressed by Mrs. Selinger, the artist.

—Mrs. Fayette Shaw, Harvard street, invited a few neighbors and friends to a "Matinee Literaire" Wednesday afternoon. The entertainment consisted of readings and recitations by Mrs. Shaw, from Homer, Milton and Byron, and poems, "An Idyl of London" and "Langley Lane," by Robert Buchanan. Between the readings the "Boston Ideal Mandolin and Banjo Club" rendered some of their inimitable music. A bounteous and recherche collation was served. The expressions of pleasure by the guests must have been gratifying to the hostess, who is continuing the work for the pleasure of others, she so well carried out last winter.

—The Newton Federation of Clubs is to give a large reception in Bray's hall, Newton Centre, on Monday afternoon, Oct. 21st, from 3 to 5 o'clock, to Mrs. Charles Hennrich, president of the General Federation of Clubs. It is expected that the presidents of most of the clubs of the state will be present. Mrs. Julia Ward Howe, Mrs. V. N. L. Walton and Mrs. Alice Ives Breed will receive with Mrs. Hennrich. The presidents of the Newton Federation will form a large and efficient hospitality committee, and Governor Greenhalge, Lieut. Gov. Wolcott and ladies are to grace the occasion by their presence. Mrs. Hennrich is a leader of great personal charm, and the clubs of Boston, Newton and vicinity vie with each other to do her honor.

—A great load of anxiety has been lifted from the minds of the friends and relatives of George W. Troffiter. The mystery of his disappearance from Boston, Aug. 28, has been in part cleared up, and his friends have obtained the assurance that he is alive and well. He is himself the source of this information. Nothing further is known, except the fact that he is in Chicago, and he has failed to explain his reasons for leaving his family so long in ignorance of his whereabouts and for leaving home under such peculiar circumstances. A letter from Mr. Troffiter was received by a friend in Newton Tuesday afternoon. It was dated at the marked Chicago, Oct. 13. This letter conveyed no information in regard to young Troffiter's movements beyond the fact that he had had a hard time since his departure from home. Enclosed, however, was a letter to his father, which reads as follows:

—Dear Father—I am alive and well, so do not worry about me. An immediate effort will be made to bring about his return to Newtonville.

—Charles Ward Post will be inspected on Thursday evening, Nov. 7, by Capt. W. P. Sears.

—Mr. W. T. Shepherd entertained Charles Ward Post last evening, with an account of his recent travels in Europe.

—Garden City Enactment, L. O. O. F., has removed from this place to its former meeting hall at the Highlands.

—Prof. J. B. Taylor has removed from the house which he recently occupied on Central avenue to a new house on Eddy street.

—Mr. Bishop, formerly of Athol, the new railroad commissioner, has leased the house corner of Highland avenue and Highland park.

—There are letters in the post office for Alfred Frederick, M. E. Collins, M. E. Cladin, Mrs. Mary Robinson and Frank C. Seavey.

—H. E. Sisson, the tailor, has removed from his former store on Washington street to Leavitt's block. His new place of business is at the corner of Walnut and Washington streets.

—The Newtonville Cycle Club has left its winter program to the executive committee. A series of social parties and a winter tournament will be included in the program.

—Newton lodge, Knights Pythias, will hold its next meeting Oct. 25, and will work the third rank. The proposed change of meeting nights from the second and fourth Fridays to the first and third Mondays will come up for decision.

—The new Associates' block on the south side of Washington street is not to be torn down after all. It is to be removed to the Dennison lot opposite and will rest on a foundation adjoining Beal's block. The plan is to build an extension to the building, reaching to Walnut street.

—Mt. Ida council, R. A., observed ladies' night Monday evening. The lodge room was thrown open to ladies and their friends. There were a few especially invited guests, the entire company making up an assemblage of 250 persons. It was a pleasant occasion, Atwood's orchestra; Prof. Palmer, mind reader, and Mr. Ida quartet furnished an agreeable entertainment. A collation was served in the banquet hall.

—A delegation of thirty members of Mt. Ida council 1247, R. A., went to Waltham last evening and were the guests of Rufford and Waltham councils of the Watch City. The visitors joined their Waltham brethren upon the arrival of the special car chartered for the trip over from this city and paraded with the home organizations and the American Watch Company band, marching to Old Waltham Hall, where collation and entertainment proved very enjoyable features.

—The annual meeting of the Newton Associated Charities was held in its rooms, Central block, yesterday afternoon. The several officers of the organization presented their reports, which showed an excellent financial condition and accounted for a good work in the cause of well directed charity. A great many needy families have been relieved within the past year, and the members assisted in obtaining employment. These officers were elected: Mrs. G. F. Kimball, Rev. Ira A. Priest, Miss Elizabeth Spear, Mrs. Luke Davis, William Z. Ripley, Hon. G. D. Gilman, Joseph C. Smith, Howard Nichols, directors; William P. Tyler, treasurer; Mrs. Mary R. Martin, secretary; Rev. A. S. Twombly, auditor.

—Great Sachem Walter F. Butts and suite paid an official visitation to Norumbega, Oct. 18, Wednesday evening, and there was a large gathering of the Redskins in Tremont wigwam. Following the council of the braves, the pipe of peace and hospitality was passed around and ration of venison and other good things were partaken of. Then the great warriors listened to eloquent words fraught with wisdom. Past Sachem Luke Ashley made an interesting address to his dusky brethren. Great Sachem Butts discoursed on the tribes and told some rare hunting stories. William Pearson, guard of the wigwam, great council, added some impressive words and Past Sachem Ring of Algonquin tribe paid a fitting compliment to his brothers of Norumbega.

—Mr. Edw. B. Drew is to address the young people of the Methodist church at a social at the residence of their pastor, next Wednesday evening, on "Sons of Chinese Customs." Mr. Drew has been in the service of China for 30 years and has now the rank of a mandarin. He was one of the commissioners who negotiated the recent war loan on the part of China and stands high in official circles. He is a college classmate of Mr. Bishop and is home on a two year's leave of absence.

—Next Sunday evening at the Methodist church at 7.30 o'clock, there will be given a most interesting address on Mission Work in India, by Miss Margaret W. Leitch, Missionary from Ceylon. Miss Leitch arrived in this country during the past week fresh from the Mission field, and is one of the most entertaining and instructive speakers we know. She is also the author of Seven Years in Ceylon, a book of large circulation. Mr. G. W. Leitch, her brother, will illustrate with fine stereoscopic views. A rare treat is promised.

Lasell Notes.

Gymnasium work began on Wednesday, Oct. 16.

Mr. and Mrs. Bragdon paid a short visit to friends in Philadelphia this week.

On Wednesday, also, Miss Plummer took a party into the city to hear an organ recital at Shawmut church.

Mrs. Hazlet and her two children are visiting her sister, Mrs. Wagner, who has charge of Lasell annex. Mrs. Hazlet is of Williamstown, Pa.

On Wednesday evening a party of fifty-seven, under conduct of Mr. Bragdon, heard Irving in Merchant of Venice, and on Thursday evening an equally large number had the pleasure of listening to the great tragedian's interpretation of Faust.

Miss Bragdon took a small party to the opening concert of the Star Course, given in Music Hall, Miss Emma Juch, soprano, supported by the Germania Grand Orchestra, under the leadership of Mr. Emil Mollenhaur.

The excursion to Mt. Auburn and Cambridge occupied the afternoon of Monday, Oct. 14, twenty students, accompanied by Professor Rich and Miss Carpenter, taking the trip in a barge. The College buildings, Longfellow's old home and Lowell's, as well as other interesting places of less note were visited. This is one of the most enjoyable excursions of the year.

Vote of Thanks.

At the stated convocation of Gethsemane Commandery, K. T., held Sept. 27th, 1895, it was unanimously voted: That we extend through the public press the sincere thanks of the Sir Knights of this Commandery to the Ladies who, during the 28th Triennial Convocation so thoughtfully, so generously and so acceptably presented the Commandery a United States flag and a beautiful banner.

The former will ever be borne in our ranks with pride and loyalty, and we are confident that it will always be valiantly defended by all true Knights of the Order. It will be a symbol which, borne before us will inspire all true Templar hearts to the truest courtesy towards others and to the truest and most complete devotion to what is noblest and best.

At three and one half o'clock in the afternoon,

A Modern House

AND

Desirable Lot of Land.

The house is new, and well located, being surrounded by beautiful maple trees, and being near the line of electric cars. There are nine rooms in the house, as follows: on the first floor, a large square hall with open fire, parlor, sitting room, dining room, and kitchen with laundry and set tubs. The floor of the hall is laid in clear maple, and those of the dining room and kitchen in hard pine. On the second floor are three good sized chambers and bath room finished in ivory white. There are two finished attics on the third floor. Gas, electric lights, hot and cold water, and open fire all combine in making the rooms in all parts of the house very pleasant and agreeable. The house is papered throughout in a very tasty manner, and the delicate tint together with the natural wood finish in the different rooms, give a very pleasing effect.

The terms on this estate are \$200 at time of sale; for the balance at time and place of sale. For any other particulars inquire of Hyde's Real Estate Agency, 31 Milk St., Boston, Room 204.

NEWTON CENTRE.

—Ivers and Pond plan to, Farley Newton.
—Mr. Wm. Webb of Beacon street has returned from his trip to Europe.
—Dr. F. B. Lawson has leased the Wardwell house on Chesley road.
—F. O. Swallow is at Edgartown for a couple of weeks.
—Mr. Wm. Hanlon is moving into his new house on Langley road.
—Rev. E. W. Noyes returned Monday from his visit to Syracuse, N. Y.
—Mr. D. W. Tyler and family are occupying a house which they have leased here on Marshall street.
—Mr. Hall, one of Mr. W. O. Knapp's popular clerks, has removed from Beacon street to Mr. Hill's house on Pelham street.
—Mr. A. J. Carswell and family, formerly of Marshall street, have moved to Boston.

—Rev. Daniel L. Furbur, D. D., pastor emeritus of the First church, is in New York city for a short stay.
—Mr. and Mrs. William Allen, formerly of Newton, are occupying their new house at Chestnut Hill.
—Mr. Haven and family are occupying the house on Summer street, until recently rented by Mr. DeWolf.

—The new parish house of the Church of the Redeemer, Chestnut Hill, was opened Wednesday. It is a very attractive structure. Addresses were made by Rev. Dr. Shinn, who founded the parish, and by Rev. Dr. Nash, its present rector. Following the religious ceremonies a collation was served and those present were subsequently afforded an opportunity of inspecting the new building.

—The first game in the series of the interscholastic football league was played on the Newton A. A. grounds last Friday afternoon between the Roxbury and Newton high school eleven. Newton won by a score of 30 to 0. The visitors were weak both in offensive and defensive play and their line proved no obstacle for the backs of the home team. From the 15 to 20 yards were made around the Roxbury ends. The fine interference of the Newton men was one of the features of the game. The work of the home players was deserved applause and their friends are confident from the good showing that they will finish in first or second place in the competition.

NEWTON HIGHLANDS.

—The West End Club will meet Tuesday, Oct. 22nd, with Mrs. Leonard.
—Mr. E. H. Corey and family have returned from a trip to Niagara Falls.

—A series of entertainments will be given under the auspices of the Highland Club, to commence Nov. 20th, when the Entente will give one of their unique concerts at Lincoln hall.

—Mr. W. B. Taylor has leased the house on Columbus street, formerly occupied by Mr. Benson, and will occupy immediately. Mr. Taylor is of the firm of L. F. Alexander & Co., wholesale grocers, Commercial street, Boston.

—A concert for the benefit of St. Paul's church was given at the residence of Mr. H. P. Ayer on Thursday evening, Oct. 11th. The program was of unusual interest. Mr. Ayer's beautiful house is singularly adapted to such occasions.

—Every one who loves pumpkin pies, doughnuts, Indian pudding and all the other things which form a part of a Harvest supper, should not fail to come to the M. E. church next Monday evening, between the hours of six and eight. A fine collection of fruit and vegetables will be sold at auction after the supper.

—M. E. services next Sunday morning at 10.30. The pastor will preach from the text "Where hast thou gleaned today?" In the evening will occur the regular annual Harvest Sunday school concert. The church will be decorated with fruit, vegetables and autumn foliage. The quartet, consisting of Mr. Vivian Gertrude, Miss Fanny Stevens, Miss Elsie Warren, and Mr. Geo. B. Warren will render appropriate selections morning and evening. Every one cordially invited to the services.

—The Newton Highlands C. L. S. C. celebrated their fifteenth anniversary at the home of Mrs. J. F. C. Hyde on Wednesday evening, Oct. 17th. The program was of unusual interest. Mr. Ayer's beautiful house is singularly adapted to such occasions.

—Good authority states that about one thousand dollars have been expended on the playground this year. Apparently much has been expended there and but little completed, a result that perhaps could not be foreseen. It is rather a pity that some one of the directors of work on the grounds do not have occasion to daily cross the same. The diagonal patch has been quite a thoroughfare and all who use it would be very thankful if the walk and bridge had been first properly finished, before scattering work over the grounds where it can do nobody any good this year. Furthermore all will be thankful to the gentlemen in power for any sort of a substantial bridge that may be built on the line of the walk before winter sets in.

—The enterprise which has prompted one of the best known banking houses in Boston to obtain, through inquiries sent to correspondents in the West, an idea of the prospects of the crops, etc., on the lines of two of Boston's greatest railroads, the Atchafalpa and the Chicago, Burlington & Quincy, is commendable in the extreme. These opinions, coming, as they do, directly from reliable eye witnesses, are most important in showing the general feeling in that part of our country on which so largely is dependent the future of invested capital from the East. The letters to Messrs. Peabody & Brooks, bankers and brokers, 55 State street, the house referred to, cover a wide field of opinions; comments are made on the crops, the price of cereals, the charges of the railways in the several sections, and what is of inestimable importance, they give a good idea of the gradual but steady decline in the free coin-

THE PRIZE FIGHT OF THE FUTURE.

As It May Be Served Up by the Reporter a Hundred Years Hence.

"Denver Ed" Smith stepped into the ring and shook hands with Bill Higgins at precisely 9 o'clock.
First Round.—"Denver Ed" led with a bunch of silver statistics delivered rapidly. Higgins countered with a quotation from Adam Smith. Light sparring ensued, neither contestant being injured.

Second Round.—Higgins started in by rushing Ed all over the ring. Ed ducked cleverly and met his opponent with a body blow from Sauerbeck's tables. Honors even.

Third Round.—Smith aimed a powerful silver argument at Higgins' head, but fell short. Bill rushed in and in-fighting ensued, with a hot exchange of epithets. Bill's friends claimed a foul, but the referee would not allow it. Round slightly in Smith's favor.

Fourth Round.—Smith pursued the same tactics, but Bill gave ground. Bill is hissed. Bill counters on Ed's plea for bimetalism. Both men fighting hard. Ed drops to avoid punishment.

Fifth Round.—Both men slightly wounded. Bill starts in with a terrific volley of treasury statistics straight from the shoulder. Ed goes to his knees, but is up in a moment and upper cuts with a report of the crime of 1873. A straight knockdown, the round closing all in Ed's favor.

Sixth Round.—A repetition of the preceding, Ed having the best of it.

Seventh Round.—This was the hottest round of the fight. Bill reached for Ed's position with a statistical report, but Ed was not there. He ducked cleverly and met Bill half way with a statement of the volume of the currency since 1880. Bill staggered a little, but recovered and tried to rush in and clinch. He failed, but succeeded in landing an argument in return. Both men exchanged hot blows, then sprung together and clinched, falling. They were almost carried to their corners, where their seconds were stimulating them with words on the theory of finance.

Eighth Round.—Bill got Ed in a corner, read a chapter of an answer to "Coin's Financial School" to him. Foul claimed, but not allowed. Ed rushed Bill furiously. Both men weak.

Ninth Round.—To the Seventh Round and Fifty-sixth.—Uneventful rounds; both men working hard, but too weak to do damage.

Seventh Hundred and Fifty-seventh Round.—After a short exchange of faint blows the referee intervened and declared the contest a draw.—Chicago Record.

WHAT IS ELECTRICITY?

Some of the Numerous Theories on the Mysterious Current.

Well, what is it? It is scarcely possible to say. There are theories—many of them. It is evidently something of which we cannot take a part; we cannot cut a piece of it off and subject it to analysis, nor can we pour a little of it into a bottle for future study and contemplation. It is like the wind—its effects can be measured, its force, strength and quantity can now be calculated to a very nice degree. Still, to liken it to the wind, it is a stupendous power, a mighty typhoon, blowing, as it were, without moving, two ways at once along all parts of its path, giving off a halo of magnetism at right angles to that path everywhere.

One of the nicest theories, perhaps, is the one that considers electricity a "condition" of atoms, brought about by chemical action, as in a battery cell, or by what might be called a severe irritation of the magnetic halo, as in a dynamo, and by other means, such as heat and friction.

What this condition is is beyond us; it may be a violent rotation, or it may be an equally violent vibration of atoms! Probably the air is light would prove it to be a vibration. But as no man has seen an atom at any time, not even with the most powerful microscope, it is impossible to say. Friction in some form or other is present, as heat is produced before burning, or destruction, takes place.—Exchange.

How to Judge a Book.

We knew that the Moslems, when they conquered Persia, found in that country an innumerable quantity of books and scientific treatises, and that their general, Saad Ibn Abi Oueccas, asked Caliph Omar by letter if he would allow him to distribute those books among the true believers with the rest of the booty. Omar answered him in these terms: "Throw them into the water. If they contain anything which can guide men to the truth, we have received from God what will guide us much better. If they contain errors, we shall be well rid of them, thank God." In consequence of this order the books were thrown into the water and the fire, and the literature and science of the Persians disappeared.—Notices et Extraits.

Contail Buttons.

The buttons at the backs of our coats are a survival. Formerly there was a buttonhole in the forward corner of each skirt, and when a gentleman was walking or riding he turned his skirts and buttoned them to the bottom at his back. The buttons on the wrists of our coats are relics of the days when the sleeves were so long that they covered the tips of the fingers, and the cuffs were turned back and buttoned when the hands were employed.

Mohammed.

The chief feature of Mohammed's face was the pair of great, lustrous eyes that shone out from his swarthy countenance. They were intensely black and glittering, and when he was angry they seemed to turn green. Otherwise his face was not prepossessing.

tained at Hubbard's.

—The Newton and Waltham Street Rail-

way company is negotiating with the Welles-

ley & Boston Street Railway company with

a view to purchasing the interests of the

latter. If the scheme goes through, the

two lines will be consolidated. The result

would be a continuous line from Newton

to Wellesley in the near future, the separa-

tion of the Boston & Albany railroad

grades, now under way, furnishing the

way of forming the connecting link.

—A social event of more than ordinary

importance in this city was a reception

given by Mrs. T. Edgar White at her home

on Park street Monday afternoon. About

400 of the prominent society women of the

Newton, Cambridge, Boston and Brook-

line were present, and some very elaborate

costumes were worn. The reception was

from 3 to 6. The receiving party stood in a

recess in the large parlors formed of ferns

and palm trees. Mrs. White was assisted in

receiving by Miss A. M. Beecher and

Mrs. F. H. Keith of New York. In the

adjoining refreshment room, which was

handsomely decorated with pink the pos-

sies, the tables were presided

over by Mrs. Hallett, Mrs. Morton Cobb,

Mrs. Atherton Clarke, Miss Henry, Miss

Hattie Henry, Miss Nellie Wales, Miss

Mabel Kenrick, Miss Luther and Miss

Elsie Brackett. In the hall the card of

the guests were received by two little

children, Florence Hobart and Curtis Graves.

—There was quite an interesting game of

foot ball on Lord's field, Friday afternoon,

between eleven from the English eighth

and Latin eighth classes of the Buelah

school. For youngsters, both teams lined

up splendidly the best playing being on the

part of Van Voorhis and Mr. Donald. The

English eighth proved too much for their

opponents and defeated them by a score of

24 to 0.

—A harvest concert was given by the

Sunday school of the Methodist church

Sunday evening. It attracted a large

audience. The audience room was deco-

rated with autumn foliage, and some of

the products of harvest time formed a

fitting feature of the pulpit platform

decorations. Special music for the oc-

casional was furnished by Miss Mae Park,

cornetist, and Mr. L. Edwin Chase, vocal

soloist. The exercises included recitations

and readings by the Sunday school chil-

dren, singing by quartet, quintet and

chorus, the reading of an original poem by

Miss Annie McCoubrey, address by Pro-

fessor C. W. Rishell and remarks by the

pastor, the Rev. Dillon Bronson.

—The second grand ball of the Garden

City Lodge, 182, A. O. U. W. was held in

Armory Hall, Friday evening. The num-

ber of guests was unusually large, there

being over 125 couples on the floor. Knowl-

ton and Allen's orchestra furnished

music. The grand march was formed at

9.30 and at 12.30 an elaborate supper was

served in the lower hall. The Garden City

Lodge was instituted July 27, 1894, and

meets the first and third Tuesdays of

the month in the Foresters' Hall. Following

is the list of officers for 1895: Past Master

Workman, John Flood; Master Workman,

C. H. Keefe; Foreman, Frank Brown;

Overseer, Arthur Keefe; Recorder, P. R.

Miller; Receiver, John Griffin; Financier,

ance, John Murphy; Outside Watch-

man, Thomas Kelley; Trustees, M. J.

Joyce, E. J. Burke, Thomas Moran.

—What is called the envelope game was

worked in Waltham this week in several

places and probably the same man called

at the Juvon, Wednesday, and succeeded

in getting away with ten dollars. He was

an honest looking man, and his story was

so plausible, that Miss Robbins felt no

hesitation in giving him the ten dollar bill

he asked for in return for small change.

As usual, he discovered that it was 25 cents

short. The envelope addressed to his

friend (?) in which he had apparently

placed the bill given him by Miss Robbins

was also placed on the counter near the

money. He left it while he gathered up

his change and small bills to go out to one

of the storekeepers where he stated he had

received the money, to rectify the little

error. But he never came back. After a

while, Miss Robbins opened the envelope.

It contained only a piece of brown paper.

The envelope was addressed to Walter

Cunningham, Auburndale. The man who

worked the envelope trick is described as

dark complexioned, medium height, smooth

facial, well dressed and rather good look-

ing.

people as a terrible one.

CITY GOVERNMENT.

HEARING ON WIDENING PARK AND TREMONT STREETS—NEW HIGH SCHOOL PLANS—INCREASING THE MAYOR'S SALARY.

At the special meeting of the aldermen Monday evening a hearing was given on the order providing for the widening of Washington street east of the Boston & Albany railroad crossing over that thoroughfare; Park and Tremont streets, the latter from Park street to the Boston line. The proposed improvement evidently interests a large number of people, for the aldermen's room and the adjoining common council chamber were crowded with citizens, largely from Ward 7, the section of the city most affected by the widening scheme.

There was no opposition, except in the form of certain objections to the plan of the city engineer. So far as the general improvement was concerned, there seemed to be but one opinion, and that was unanimously in its favor.

Mr. Samuel L. Powers appeared for the Channing Unitarian society, which owns property situated on Park and Vernon streets, and objected to the plan of the city, which provides for a jog, instead of a straight line through to Vernon street. He said that if it was carried out, it would interfere with the proposed building of a parsonage, and leave a strip of land that would be of comparatively little value. He offered no objection to the general idea of widening, but suggested that it would be better to carry the line straight, and thus secure a more symmetrical street, with an easier curve from Park into Tremont street.

Mr. Abram Byfield, representing the Channing church, spoke in a similar vein.

A protest was received from S. B. Whittemore, objecting to the taking of his land on Waverley avenue and Tremont street.

Mr. E. W. Gay thought that the new lines of the proposed streets were about the same as the old ones. He said that a better sweep could be made, in his judgment, from Park to Tremont street by taking the land on the opposite side from that proposed in the city engineer's plan. Col. David W. Gardner of Gov. Greenhalge's staff appeared in favor of the proposed improvement. He said that it was one that should be carried out as soon as possible. It will, he went on to say, connect Newton with Boston by means of an electric street railroad, the West End company having agreed to continue its tracks from Oak Square through to Newton, provided the connecting thoroughfares were made sufficiently wide to warrant its taking that step. Boston has done its part, and it only remains now for Newton to complete the work and give to its citizens the advantages which a through line to Boston will afford.

Mr. S. A. D. Sheppard—it seems to be the unanimous opinion that the proposed widening should be carried through in a straight line to Vernon street. I am happy to put myself on record as being in favor of the improvement, and I think when I was a member of the city council, to me that argument is almost unnecessary, as everyone is agreed, apparently, that it is a wise measure. The widening scheme is not altogether a new one. It is in reality a much mooted subject. The proposed improvement has long been favored by the people. It was agitated when I was a member of the city council. At that time, the West End railroad was the chief obstacle. I could not agree to extend its tracks until a double line had been carried through to Oak Square. That has now been done. The city of Boston has widened the street through Alton and Brighton to Oak Square, and has provided for the widening of Tremont street to the Newton line. There remains now only that small part between the Boston line and Nonantum square in this city to be taken care of. The bit of railroad between Nonantum square and Tremont street, connecting with the West End system will be one of the most useful and valuable, in my judgment, in New England.

Mr. George C. Travis—I have resided in Newton ten years and near the locality where the improvement is to be made. It is the first time that I have visited the City Hall for the purpose of favoring any public improvement, and I am here tonight, as a citizen, with no pecuniary interest in the matter, because I feel the importance of carrying out the proposed widening plan. I have heard of no suggestion of opposition to the improvement. The whole city, it seems to me, will be the gainer by opening up that section of the city to the adjoining metropolis. I want to say a word about the expense. I like to see the finances of the city carefully looked after and I believe that they are in Newton. It has certainly been the case since I have been a resident of the city. I am convinced that this proposed improvement will warrant every dollar laid out on it and that there will be an almost immediate return to the city. Carry it out to completion, therefore, as speedily as possible. In so doing, you may be assured of the cordial support of the community. We are all of one mind, apparently, on this matter. One of the pleasant things in this city is the ease with which the citizens can come to the governing power. We are afforded every facility for presenting our views and the wise suggestion or well defined desire of a majority of the people receives their due consideration.

Mr. John T. Langford—While I do not represent the particular section where the improvement is likely to be made, I am nevertheless interested in it. It commends itself, I think, to every citizen of the city as a wise measure in the interests of the whole people. It is, I think, one of the wisest improvements ever undertaken in the city. It will furnish a connection with Boston by means of an electric street railway, benefitting not only the immediate district, but, in my judgment, the entire city. I heartily approve of the several plans that are being carried forward at the earliest possible moment. I favor the suggestion that the street be made of equal width, thereby saving the necessity of a jog between Vernon and Washington streets. Whatever it costs, and the cost cannot be very great, the line of beauty should be maintained. I hope, therefore, that whatever is done it will not be with a view to parsimony, but rather with the purpose of carrying out an improvement that will be for the interests of the city for all time.

Mr. N. F. Allen—Speaking as one not a resident of the several districts interested, I desire to add my word of commendation for this proposed enterprise. In my 48 years in this city, I have always favored all public improvements.

The plan to widen Park, Tremont and Washington street is one that will not only benefit Wards 1 and 7, but in reality, as Mr. Travis has said, the whole city. I have long recognized the value of this proposed connecting street railway line. It will be a great advantage to Newton. I am strongly in favor of the project.

Mr. S. L. Powers—In desiring to say that I am not opposed to the general plan of widening. On the contrary, I am heartily in favor of it. I favored the improvement some years ago, and in connection with others advocated it, I believe, when I was a member of the city council. I am convinced that it would be better to carry a straight line down Park street to Vernon street. It should be remembered that there is a good deal of teaming through Park street to Nonantum square, the teaming over Vernon street is naturally increased. The widening of Park street, therefore, for avoiding a sharp turn at the corner of those thoroughfares. I think that there is but one opinion concerning the subject as a whole. That opinion, it is perhaps needless to add, is practically unanimously in favor of carrying forward the widening project. In doing that, I agree with other speakers, that the board will receive the support of the citizens who believe that the result will be of great benefit to the city. I wish to say that the present city government has dealt with a number of important public improvements with wisdom. The future will show in what degree its judgment has been for the interests of the community. The foolishness, if any, in the enterprises of late undertaken or pushed forward to completion, is due to previous city governments in delaying to take the initial step, through what might possibly be termed undue economy. I believe that many of these projects should have been commenced years ago. The present city government has had the courage to go ahead with the work, and I believe it must of necessity receive the sanction of the people who desire to see Newton progress toward the future that now seems to picture so invitingly.

The hearing was closed. A hearing was next opened on the petition of the New England Telephone & Telegraph company for permit to attach cross arms to poles on Lake and Myrtle avenues. No remonstrants appeared and the hearing was closed.

A hearing was next given on the order providing for the widening of Washington street from a point near Lincoln Park to Germain street. Mr. Henry F. King appeared. He said that he had nothing to say in condemnation of the widening plan. It is a matter, he went on to say, that I have given considerable thought to and I believe that I have evolved a plan that is an improvement upon the one proposed by the city engineer. It is a plan, I think, that will not only benefit our ward, but the whole city. I would therefore ask that action on the order be delayed until opportunity is presented to take it before the city council for consideration.

Mr. Everett Washburn appeared in the interests of a client. He said that he lacked knowledge of what the city proposed to do and that he was an opponent only in the sense of bringing out the reasons justifying the proposed improvement. I understood, he went on to say, that a special law was passed giving the city the right to take the land in connection with the railroad for the joint purpose of separating the grades and widening the thoroughfare. What I don't understand is why the city has not availed itself of that law in this particular case.

The mayor, in reply to Mr. Washburn, stated that while the law gave the city power to take the land, it was provided that it could not be seized unless put to public use. For that reason, the city in the present case was acting independently. It would seize the land if required, he went on to say, and the railroad would look out for its part.

Mr. Washburn—How long will it be before the land seized is needed for the purposes of the city?

Mayor Bothwell said that Alderman Plummer, chairman of the highway committee, was probably best equipped to answer that question. The latter said that it was not yet decided. It would probably be soon, he added, as it was part of the general plan of widening Washington street. The hearing was closed.

A hearing was immediately opened on the petition of the New England Telephone & Telegraph Company for permit to locate poles on Parker street near Ridge avenue. Alderman Bullard read a remonstrance from R. G. Elkins, et al. A protest from C. R. White was received. Mr. Cutler, representing Mrs. Keeler, appeared in opposition. The hearing was closed.

The mayor announced the following appointments:

Charles Wheatley, weigher of merchandise; confirmed.

ELECTION OFFICERS.

Ward 2, precinct 1, J. F. Sullivan, deputy inspector; precinct 2, W. Tuttle, Lewis Breeden, deputy inspectors.

Ward 3—Precinct 1, H. D. McBride, deputy warden; George Bailey, Melville A. Richards, deputy inspectors; Josiah N. Bacon, clerk.

Ward 5—Precinct 1, J. F. Kneefeke, deputy inspector. Precinct 2, H. W. Holbrook, warden; M. C. Bragdon, deputy warden; F. F. Patterson, A. E. Hartwell, Walter H. Nash, Charles Reed, inspectors.

Ward 6—Precinct 1, Robert Blair, deputy warden; W. S. Griffin, inspector. A hearing was appointed for next Monday evening on the petition of George Avery for permit to build a frame stable on Chester street, Ward Five.

Communications were received from the Newton & Boston Street Railway Company and the New England Telephone Company accepting sundry locations.

A batch of papers that came up from the lower branch were acted upon in concurrence.

Alderman Bullard at this point presented the King plan, which provides for one joint widening of Washington and Margin streets. Accompanying it was a petition favoring the proposed improvement, signed by about 100 representative citizens and tax payers. The scheme is to straighten the Boston & Albany railroad tracks enabling the widening of Margin street and providing for a continuous avenue on the south side from West Newton to Newtonville. A hearing on the King plan was assigned before the board of mayor and aldermen for next Monday evening, at 8 o'clock.

Permit was granted to move a house from 858 Washington street through Lowell and other streets to Chapel street, subject to the approval of the superintendent of streets and inspector of wires.

Petitions were acted upon as follows: G. P. Hall, et al., for sidewalks on Brooks avenue, referred to the highway committee; George Glander, representing Auburnville Improvement Society, for extension of Central street to connect with the Commonwealth avenue

boulevard, referred to the highway committee; residents of Auburn street for concrete walks with edgelines, referred to the highway committee; residents of Hunter street for concrete sidewalks, granted; residents of Cypress street for asphalt walks, referred to highway committee.

On the petition of the Needham & Newton Street Railway Company for locations on various streets in this city, in order to extend its electric line to Station street, Newton Centre, with the right to build tracks, turnouts and cross overs and to put up the necessary fixtures for the equipment of an overhead system, a hearing was ordered for Monday evening, Nov. 18, at 7:45 o'clock. A hearing was assigned for the same date at 8 o'clock on the petition of citizens, headed by ex-Mayor J. Wesley Kimball, and signed by about 100 others, urging the city to raise the pay of the highway employees from \$1.75 to \$2 per day, beginning with the new year, Jan. 1, 1896.

Orders were adopted requesting the Newton & Waltham Street Railway Company to temporarily discontinue the use of its line of track on Washington, between Centre and Elm streets; providing for the widening and relocation of Washington street, east of the railroad crossing, Park and Tremont streets; appropriating \$500 for plans for the addition to the High school building and \$108,000 for department expenses of the month of November.

A resolution of Alderman Green, recommending increasing the mayor's salary from \$1030 to \$2,500 was referred to the finance committee.

The board adjourned at 10:30 o'clock.

\$1000 Reward \$1000.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. THE SCHOOL BOARD.

A meeting of the Newton school committee was held Wednesday evening. The superintendent of schools presented his monthly report and the annual report was presented by Mr. L. E. Coffin. The latter stated among other things that it was deemed inexpedient to introduce cooking and manual training into the schools the coming year. It referred at some length to the need of additional accommodations at the High school building and alluded to the wooden portion of the present building, which was represented as being in poor sanitary shape, badly out of repair and dangerous in the event of fire. A new brick section to replace the wooden portion, it stated had been a necessity for the past few years. The report contains the usual statistics. The amount expended by the school department for the year was \$144,945; average cost per pupil, \$39.25; average cost per pupil for books and supplies, \$1.95; average expense per pupil, (High school), \$61.10; increase in expenditures for the schools, 3.71 per cent.

Mr. Hollis made some inquiries as to the method of getting at the figures. He wanted an opportunity, he said, to examine further into that part of the report. Mr. Ward explained, at some length, how the committee had proceeded in the matter. Finally, on motion, the report was adopted, except that portion containing the figures, it being voted to lay over that part until the next meeting for the purpose of examination.

There was quite a lively discussion over a majority and minority report of the Ward Four committee regarding the employment of a master in the Hamilton school, Lower Falls. The majority report recommended that the superintendent be instructed to secure the services of a master in the Hamilton school. The minority report opposed that addition to the teaching force. Mr. Beck, who presented the majority report, said that when the master was taken from the Hamilton school three years ago, it was with the understanding that there was to be a further concentration in other parts of the city with a view to decreasing the number of masters. There had been no such decrease and, in his judgment, the people of the Lower Falls had not been used fairly in the matter. The change in the Hamilton school had been diplomatically made, he said, but in a manner that was open to some criticism. The people of the district thought that they had not been justly treated in the matter.

Mr. Beck asked the superintendent of schools if there had not been such an understanding, as he referred to, regarding the Hamilton school. The superintendent, in reply, said that he knew of no such understanding. Mr. Beck then read a letter signed by Mr. Oer, a former member of the board, who stated that he consented to the plan of dispensing with the services of a master at the Lower Falls, with the understanding that it was to be part of a general concentrating plan to be followed up in other parts of the city.

Mr. Adams, who signed the majority report with Mr. Beck, gave his reasons for doing so. He said that the people of the Lower Falls felt strongly in the matter and thought they had been badly and unfairly treated. They feel that they have been injured. My opinion is that the influence of a master in the district would be a wholesome and uplifting one.

Mrs. Davis spoke of the schools in Concord. She said that the children there were brought to the buildings in the centre of the town, and that the concentration plan had been found to possess great advantages.

Mr. Smith asked Mr. Beck if he thought the objection to parents sending their children to the Hamilton school would be obviated if the board proposed for their transportation in the cars.

Mr. Beck thought it would not be a means of ending the dissatisfaction, for the reason that pupils would be obliged to walk a long distance from the terminus of the road to their homes.

Supt. Aldrich was called upon. He said among other things that if the choice was to be made by himself, with his own child, between sending him or her to the Hamilton school, under present conditions, or to the Williams, he should choose the latter. He thought that transportation could be provided to permit sending the Lower Falls pupils home at noon time, if the board deemed it feasible. From inquiries that he had

made, he had ascertained that the pupil the longest distance from the terminus of the electric cars, had a walk of eight minutes to reach home. The others had estimated walks of 6, 3, 1 and 5 minutes. Even with a master at the Hamilton, the superintendent said in conclusion, the pupils of the Hamilton could not in the next few years get the advantages that would be obtained in the Williams school.

It was stated by a member of the board that there were only seven pupils in the fifth grade of the Hamilton school who were obliged to go to the Williams school under the change. It was argued by Mr. Smith and others that these pupils obtained superior advantages there. The order authorizing the employment of a master in the Hamilton school was finally called up by Mr. Beck. It was defeated, more than two-thirds of the members voting in the negative.

Orders were adopted authorizing the printing of 3000 copies of the annual report, closing the schools Friday, Jan. 25, in order to give the teachers an opportunity of attending a teachers' convention; appointing H. E. Silvers, Harry E. Williams, Hapet M. Philibosian, Nellie Dorney and Marie W. Tyler, assistants in the Nonantum evening school, at salary at rate of \$1.50 per evening, and Fred H. Keyes, assistant in the Clavin evening drawing school, with salary at rate of \$3 per evening; appropriating \$13,548.95 for school department expenses of October; appropriating \$148.95 for furnishing the addition to the Rice school.

FIFTY CHURCHES REPRESENTED.

WOMEN'S FOREIGN MISSIONARY SOCIETY OF SOUTH AND WEST ASSOCIATIONS IN SESSION.

The annual meeting of the Women's Foreign Missionary Society of the South and West associations was held in the Immanuel Baptist church, Newton, Wednesday. There was a large attendance, about 50 churches being represented. The delegates numbered nearly 150 ladies—members of circles in Boston, Brookline, Hyde Park, Norwood, Jamaica Plain, Watertown, Wellesley, Needham, Cambridge and the Newtons. Most of the officers of the general board were in attendance.

At the morning session, Miss Church, a missionary, gave an account of her work in Hemeji, Japan. Reports were presented showing the progress of the work in the various church societies. The contribution of the Boston West Association for missions during the past year was \$7838.69; other contributions, \$2000. The first sum was the largest in many years. This was due in part to a legacy of Mrs. Gardner Colby. Following the presentation of reports, Miss Mae Sheppard-Hayward rendered two solos. At noon, the delegates adjourned to the vestry, where a basket lunch was served. The invited guests were entertained by the ladies of Immanuel church.

Mrs. Grant Edmonds of Brookline presided at the afternoon session. It was opened with a service of prayer, followed by an address by Mrs. W. A. Montgomery of Rochester, N. Y. She spoke in a general way of mission work and of what women could do in the cause of Christianity. A greater amount of leisure had been given to women of the present day, she said, not to be used for pleasure, but to help carry on God's work.

Addresses were also given by Mrs. N. M. Waterbury, home secretary of the association, and by Mrs. H. G. Safford, foreign secretary. Mrs. G. E. Merrill rendered a pleasing solo, entitled "Love Not the World and the Things That Are Therein."

THE SENATORIAL CAMPAIGN.

Newton is not the only city where the
Republicans are going to support a native
American candidate as against the man
nominated by the so-called "patriotic"
orders. In Springfield there is a general
protest on the part of Republicans, and
the opposition vote will be a large one,
and the same is true in many other cities.
Far-seeing Republicans realize that if
the party is not to come under the con-
trol of a secret society, they must take
decided action in this campaign, and they
endorse the outspoken stand taken by
Governor Greenhalge and Lt. Governor
Wolcott, and deplore the timidity of the
State convention.

Here in Newton a vote for Mr. Lawrence
Bond, will not only be a vote for the
better candidate, but will show that
Newton Republicans cannot be led by a
secret society. The response from all
over the district to the appeal for Mr.
Bond is very gratifying, and shows that
the same sentiment exists elsewhere.

If Mr. Bond's friends will only realize
their opportunity, and do some lively
campaigning, there will be no doubt of
Mr. Bond's election. But they can not
expect to do much unless they are will-
ing to spend time and money in the
canvass of the district. Newton will
give him a large vote, as he is well known
here, but in the other towns where he is
not known some educational work ought
to be done. There is a strong feeling
against Dr. Niles all over the district,
which the opposition have a chance to
take advantage of if they will use it. If
they do nothing else, the committee in
charge of the campaign could use the
papers in the district, for the publication
of appeal to the intelligent portion of
the voters, and that would have a good
deal of influence.

If Mr. Bond is not elected it will be
simply because of the lack of effort on
the part of the committee in charge of
his campaign. There have been in-
stances before this of the election being
lost in this district, simply because the
committee made such a secret of the
name of their candidate that the great
mass of the voters supposed there was
only one candidate. This would be the
case this year, were it not for the dis-
interested services of some of the news-
papers.

THE MAYOR'S SALARY.

The feeling that the Mayor of Newton
ought to have a salary that would bear
some relation to the onerous duties of
his position culminated Monday night in
the presentation of an order increasing
it from \$1,000 to \$2,500. The board of
aldermen seemed to be unanimous in
favor of an increase, and some favored
making it \$3,500.

There are many strong arguments in
favor of the extra salary as the duties of
the Mayor have so increased that they now
demand the larger portion of the time of
any incumbent who wishes to do his
duty faithfully, and the present salary
hardly reimburses him for the expenses
which the office involves.

In former days the office of Mayor
took but little time and the questions to
be considered were of relatively small
importance compared with the great
problems of today. As the city is
growing in size every year, it is not pos-
sible that those duties can help becom-
ing more onerous with every year, and
the city would find it wise economy to
pay a salary large enough to command
the best talent and ability to be had. As
it is now, it is only a comparatively
wealthy man who can afford to take the
office, and most of these are so immersed
in their own private affairs that they can
not spare the time. The question of the
increase must be met some time, and
people are asking why the present is not
the most favorable one.

To have the watering of the streets
done by the city, as Mayor Bothfeld
recommends, might be a good thing, and
it might not, according to the way the
work was done. Wheelmen have made
many complaints the past summer of the
way the streets have been deluged, and
converted into mud holes, and it would
seem as if any change would be for the
better. The common way is to have a
cart with large sized sprinklers, and then
use the water freely, so that the street
will not have to be gone over again in
some hours. It takes more water, but
contractors do not have to pay for that.
The city of Boston in its parkways has
the nearest to the ideal method, which is
to have carts that only give out a fine spray,

which dampens the surface, but not
enough to make it slimy or slippery.
The streets may have to be gone over
often but the result is satisfactory to
every one, and there is no worse than
useless waste of water. The drivers
have to be men of judgment and interest-
ed in their work, and if the city's doing
the watering would mean a reform of
this kind every one approves. There is a
happy medium between mud and dust,
but the common method of street sprink-
ling never strikes it.

GOVERNOR GREENHALGE has made so
many friends outside of his own party
by his wise and independent course, that
no one seems able to agree on the size of
his majority. The A. P. A. votes that
he will lose, will probably be more than
made up to him from outside sources.
Mr. Williams is making a lively cam-
paign and some of the questions he
raises are so embarrassing that it is no
wonder that no attempt is made to
answer them, but the voters will re-elect
Governor Greenhalge just the same.
Had he not been such an independent
and conscientious official, Mr. Williams
might have had a reasonable chance of
success, as the general public sym-
patizes with him in his demand for
legislative reform, and on many other
points, but they hope these will be
brought about in some other way.

PEOPLE are asking whether the fact
that the name of Ex-Mayor J. Wesley
Kimball headed the list of laboring men
who asked for an increase of pay had
any significance? There has been an
absurd rumor that Mr. Kimball would like
to run again as a candidate for Mayor,
and there is a suspicion that this might
be a move in that direction, and that Mr.
Kimball is to appear as the labor candi-
date. All things are of course possi-
ble, but we do not believe that Mr. Kim-
ball has any idea of leading such a forlorn
hope, either this year or any other year.
Times have changed at City Hall since
his reign, and civil service rules have
been introduced in all directions, so
that it is not probable that the office
would have any attraction for him.

CONGRESSMAN MORSE is said to have
been guilty of a worse than usual blunder
in his speech before the Parliament of
Man. In regard to Women Suffrage, he
divided the women into two classes,
American and foreign, and figured out
that the Americans would outvote the
foreigners. If this division applies to
women it must also apply to men, and if
foreign-born voters are un-American,
what becomes of the men who have been
supporting Morse as their ideal candi-
date for governor. Did he really wish to
stigmatize these as un-American or did
he put both feet into the trough?

So many Republicans have endorsed
what the GRAPHIC said last week of Mr.
Lawrence Bond for Senator, that it is
evident he will receive a large vote in
Newton. If the rest of the district does
as well as Newton, there will be no
doubt of his election. One prominent
Republican said that he was glad to have
a chance to vote for a plain American
candidate, this year, as against Dr.
Niles, the candidate of the British
Americans.

THE benefit of the new remedy for
diphtheria is shown by the record at the
Newton Hospital. Out of 74 cases
treated in the last ten months, only four
have died, while before anti-toxine was
discovered only fifty per cent recovered.
Of the four fatal cases, the doctors think
they might have been saved, had the
patients been sent to the hospital in time.

question of power machinery for the laundry.
The work in all departments is in-
creasing to such an extent that this seems
a necessity.

There are many good reasons why you
should use One Minute Cough Cure. There
are no reasons why you should not, if in
need of help. The only harmless remedy
that produces immediate results. Arthur

REAL ESTATE NEWS.

The Garden City Real Estate Agency
report the following leases: G. W.
Crosby house on Thornton street to H.
Coburn of Watertown; S. C. House, New-
tonville avenue to F. A. Costello of Port-
land, Me.; T. J. Hartnett house on Fay-
ette street to A. J. Clare of Newton.

The Stone estate on the corner of Wash-
ington and Highland streets has been pur-
chased by Edward F. Hatch, who will im-
prove the property as soon as the street is
widened. It is said that The Players have
been looking at the property for some time
as the ideal site for a hall for their en-
tertainments, and perhaps something may be
done.

Three frame dwelling houses will be
erected in Allerton road, Newton High-
lands, by H. K. Whitcomb on land re-
cently bought of J. F. C. Hyde. Each
lot will have a fine, broad frontage. An

estate at the corner of Walnut and Cen-
tre streets, Newton Highlands, compris-
ing a house, stable and about 3000 square
feet of land, has been sold through
Hyde's Real Estate Agency to J. P. Keat-
ing for \$3700. The same agency has sold
to E. G. Clough of Woburn the property
in Erie avenue known as the Chapin
estate, consisting of 12,000 square feet of
land and a frame house, on private terms.

WABAN.

—Did you ever go in on the 7.28 a. m.
train? Those who do say it is more fun
than a circus and they wouldn't miss it for
anything.

—Have you noticed the boom? It is here
and it has come to stay! New houses every-
where and the best part of it, they are all
nice ones. Keep your eyes on Waban.

—The great question that is travelling
Waban is, "Will he be afraid of the
news?" Wait and see, the weekly reports
haven't seemed to be the cause of any com-
plaint.

—Since the "chestnut season" came in
Waban has done its best to make the heart
of "Young America" glad. The trees here
are surely the finest in the city and the
number of visitors they have, bear testi-
mony to the excellence of the chestnuts.

—Mr. and Mrs. J. H. Robinson enter-
tained a few of their friends at their home
on Windsor road, last Friday evening, the
occasion being the twelfth anniversary of
their wedding. Whist and a fine musical
program served to make the evening pass
most pleasantly.

—It is to be deplored that some few
"boys" can not behave in a gentlemanly
manner during church service. Let us
hope for the benefit of the others present
that in the future the childish laughter and
disturbance may be conspicuous by its
absence.

Commonwealth of Massachusetts.

MIDDLESEX SS. In the Supreme Judicial Court. In Equity.

In the matter of Jonathan A. Lane et al, Peti-
tioners to quiet title of real estate.

To the Honorable, the Justices of the Supreme
Judicial Court, hold in and for the County
of Middlesex in the Commonwealth of Massachu-
setts:

RESPECTFULLY REPRESENT the peti-
tioners, Jonathan A. Lane of Boston, in the
County of Suffolk and said Commonwealth, and
George W. Morse and John W. Weeks, both of
Newton in said County of Middlesex, as they
are trustees of the Newton Land and Improve-
ment Company under the provisions of a certain
Indenture dated July 5th and 6th, 1894, and re-
corded in the Registry of Deeds for the South Dis-
trict of said Middlesex, libro 2289, folio 577:

1. That by deed dated May twenty-fourth 1871
and recorded in said Registry, libro 624, folio 222,
Jesse A. Locke of Watertown, said County of
Middlesex and Charles C. Harrington of said
Newton conveyed to William A. Harris of said
Newton certain real property therein described
as follows, to wit:—"A certain
tract or parcel of land situated
in said Newton near Newtonville to and
with buildings thereon standing being lot No. ten
(10) on a plan of building lots drawn by G. A.
Hyde, March 1893 and bounded as follows, viz on
Hull, Walnut and Forest streets about four hun-
dred and forty-nine (449) feet, on lot number
eleven (11) on said plan about two hundred and
ninety-three (293) feet, on lot number nine (9) on
said plan about two hundred and two (202) feet;
containing fifty eight thousand, eight hundred
and forty-five (58,845) feet of land." That in said
deed it was provided that the said land and
buildings thereon should be held by the said
Locke and Harrington for the benefit of certain
other land shown on said plan, and at the date of
said deed owned by the grantors therein.

That since the date of said deed the trustees
of the Newton Land and Improvement Company
aforesaid, became and were the owners at the
same time of said real property described in and
conveyed by said deed from said Locke and
Harrington, and also of the other land shown
on said plan aforesaid, and that the right to en-
force said restriction upon said real property
conveyed by said deed from said Locke and Har-
rington thereby became merged and extinguished
in the ownership of said real property and said
other land by the trustees of the said Newton Land
and Improvement Company aforesaid, and said
condition or restriction, and all right to enforce
the same was also forfeited, and the said land
wholly waived and abandoned by all parties in-
terested or concerned therein.

That the petitioners, being the owners
and persons in possession of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the right to enforce
said restriction upon said real property con-
veyed by said deed from said Locke and Har-
rington thereby became merged and extinguished
in the ownership of said real property and said
other land by the trustees of the said Newton Land
and Improvement Company aforesaid, and said
condition or restriction, and all right to enforce
the same was also forfeited, and the said land
wholly waived and abandoned by all parties in-
terested or concerned therein.

That the petitioners, being the owners
and persons in possession of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the right to enforce
said restriction upon said real property con-
veyed by said deed from said Locke and Har-
rington thereby became merged and extinguished
in the ownership of said real property and said
other land by the trustees of the said Newton Land
and Improvement Company aforesaid, and said
condition or restriction, and all right to enforce
the same was also forfeited, and the said land
wholly waived and abandoned by all parties in-
terested or concerned therein.

That the petitioners have been informed
and suppose that said Jesse A. Locke has de-
ceased, but are ignorant as to who the heirs-at-
law, devisees, or legal representatives of said Jesse
A. Locke may be, or where his residence, or where
said Locke resides if he be still living.

That said Charles C. Harrington is a resident
of said Newton.

That the record title of said real prop-
erty conveyed by said deed from said Locke and Har-
rington is clouded by an adverse claim, or by the
possibility of its being clouded under said
restriction or condition, on account of which this
petition is brought in accordance with the pro-
visions of chapter 230 of the acts of the Legisla-
ture of this Commonwealth for 1893, and the other
provisions of law in that behalf made, and pro-
cess is being had to quiet the title of said real prop-
erty conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force of
said restriction or condition, and by the provisions
of law in that behalf made, and process is being
had to quiet the title of said real property con-
veyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force
of said restriction or condition, and by the pro-
visions of law in that behalf made, and process is
being had to quiet the title of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force
of said restriction or condition, and by the pro-
visions of law in that behalf made, and process is
being had to quiet the title of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force
of said restriction or condition, and by the pro-
visions of law in that behalf made, and process is
being had to quiet the title of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force
of said restriction or condition, and by the pro-
visions of law in that behalf made, and process is
being had to quiet the title of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force
of said restriction or condition, and by the pro-
visions of law in that behalf made, and process is
being had to quiet the title of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force
of said restriction or condition, and by the pro-
visions of law in that behalf made, and process is
being had to quiet the title of said real property
conveyed by said deed from said Locke and Har-
rington, and also of the other land shown on said
plan aforesaid, and that the petitioners, by force
of said restriction or condition, and by the pro-
visions of law in that behalf made, and process is

—Mr. J. W. Lowe, formerly of Lynn, has moved to this place.

—Mr. and Mrs. William J. Hannon are receiving congratulations on the birth of a son.

—Mrs. George R. Shapley is at Atlanta, Ga., visiting her sister and attending the exposition.

—The next monthly meeting of the Newton Co-operative bank will be held election night, Nov. 5.

—Mr. A. H. Sisson is moving into Mr. Teele's house on Walnut and Washington streets.

—Mr. R. C. Thompson is moving into his new house, corner of Washington Park and Harvard street.

—Mrs. E. W. Redpath is absent from home, making a fortnight's visit in the south.

—Mr. and Mrs. M. Sinclair Williams of Churchhill avenue, have removed to Boston where they will spend the winter months.

—Mr. A. Q. Cole has gone to Atlanta, Ga., to attend the exposition. He will remain South several days.

—Dr. Parker has decided not to build a business block on his lot at the corner of Newtonville avenue and Walnut streets.

—Newton lodge, Knights of Pythias, meets tonight in Tremont Hall. The first and third rank will be conferred.

—Dr. Otis E. Hunt returned today from Atlanta, Ga. He has been visiting the exposition.

—Mrs. A. F. Brown gave a dinner Thursday evening in honor of Mr. and Mrs. Edward of Liverpool, and her sister, Mrs. Tiff.

—All who wish to aid the Hospital should secure tickets for "Patience," next Tuesday evening, at City Hall. It will be a very enjoyable performance.

—Gethsemane commandery held a regular convocation in Masonic Hall, Tuesday evening. There was a large attendance of visiting friends.

—Past Sachem Ashley will take the prophet's part in working that degree at the meeting of Waltham tribe next Tuesday evening.

—The first meeting of the Neighborhood Whist Club for the season will be held at the residence of Mr. C. N. Sladen, Lowell street, next Tuesday evening.

—Mr. C. H. Johnson is making extensive improvements to his house on Washington, corner of Lowell street. A new piazza has been added and numerous alterations made.

—The addition to Associates' block, adjoining A. A. Savage's store, is now under way. The building in Newtonville seems to be going on apace. One citizen says in regard to it: "The village is store crazy."

—Rev. J. H. Stuckenberg, D. D., pastor for many years of the American church, Berlin, Germany, will speak in the Central church, next Sunday evening, 7.30, on "Luther and the Reformation." All welcome.

—There are letters in the postoffice for Miss Hattie Thomas, William H. Pearce, Mrs. G. L. Spaulding, P. H. Mosher, Mr. and Mrs. Ghas. W. Morrison, John Berry, E. L. Brown, William Caldwell, M. E. Collins, Charles Evans, Wm. Goodrich, Margaret Igoe.

—The warrior's degree staff of Norumbega tribe visited Algonquin tribe, Allston, Tuesday evening. The visitors were hospitably entertained. Following the usual ceremonies, the brethren repaired to the banquet room where a collation of corn and venison was served.

—At the meeting of Gen. Hall lodge this week, several interesting addresses were given at the close of the formal session. Deputy M. W. McAllister, who was present, spoke and remarks were also made by members of the lodge. A fine collation was served by Dill.

—The Karma Koterie has just entered upon its fifth season; its first regular meeting being held with the president, Miss Jennette A. Grant, Thursday, Oct. 17. It was voted to take up the study of Goethe, his life and works; also contemporary writers. The club adjourned to meet in two weeks.

—At the Methodist Episcopal church the pastor, Rev. Franklin Hamilton, will preach both morning and evening. Morning topic at 10.45, "The Master Builder," evening topic at 7.30, the third in the series of "The Gospel Kingdom." A Sunday evening talk to young people on "Louisbourg and Halifax the old and the new American Gibraltar." Cornet will lead the singing. All seats free. All young people invited.

—J. L. Richards returned last week from his camp in Maine and brought as proof of his skill, the carcass of a fine moose. He also brought a live deer which was captured after quite a struggle as he chased it into the lake and finally caught it by the tail, and was dragged two miles in his canoe before he was able to land it. Mr. Richards describes this ride as quite a thrilling sensation as the canoe was nearly upset at times.

—There will be a grand temperance rally in the Methodist church, Sunday evening, Nov. 3 at 7.30. Rev. Franklin Hamilton will deliver an address. Musical numbers will be furnished by Loyalty Quartet consisting of Miss Eva Pluta, soprano, Mrs. M. E. Beardsley, alto, N. E. Beardsley, tenor, W. H. Rand, bass. Good Templars will be requested to wear badges, and come early as a portion of the house will be reserved until 7.25.

—The foundations for the new block of the Associates' on the Dennison lot are completed. It has been decided to build a two story building. The scheme of removing the building on the opposite corner has been abandoned and it has been sold to Henry F. Ross. There was some talk the past week of removing it to the Parker lot, but that plan has also been given up, owing to the difficulty in getting across the tracks and because of the great expense. It is probable, therefore, that the building will be torn down.

—A set of framed resolutions has been received by Gethsemane Commandery from Ottawa Commandery, expressing the latter's appreciation of the entertainment furnished by the Newton brethren during the triennial convocation. Especial reference is made to the "entertaining of Gethsemane Commandery in making the visitors stay in Boston a pleasant one." The frame is of oak with a fine silver beading. The lettering of the text is a fine piece of work. The resolutions are signed by Eminent Sir Henry Mayo and S. Batcheller, recorder.

—The residence of George W. Brown, Jenkinson street, was entered by thieves early Thursday morning. They secured an entrance by forcing the fastenings of a rear window, but were evidently only in pursuit of refreshments. They looted the refrigerator all right and carried away its contents. It is supposed that the intruders belonged to the tramp family. The barn of Patrick Gallagher on Adams street was also entered, where a harness valued at \$40 was stolen. Several glass milk jars were stolen from the premises of Herbert Ellis of this place. The latter theft is supposed

to be the work of a gang that has been engaged in gathering in milk cans of late.

—Patrolman Soule has returned from his vacation trip to Albany and New York.

—Mrs. Soule, who accompanied him, contracted a severe cold and remained in Brooklyn, where she will make a short stay.

—If any one would like to witness a clever piece of military signalling by flag, let him out with the High School Signal Corps some day. The writer was at River-side one day this week and upon inquiring what was meant by the wig-wagging of flags, one of the "instructors" on the hill, was told that the last one of six messages had just been sent to Doublet hill in Weston and every one of them letter perfect. It was also learned that the corps has a military telegraph and telephone service in which they are nearly as proficient as in the flagwork. That seems to be as good service as that rendered by the State Volunteers and is certainly very commendable. The party was made up of Lieut. A. S. Bullens, Corporal Freeman and Walker Davis.

—The experience sociable in the Central Congregational church Tuesday evening was a most unique and interesting affair. The children gave an account of the methods pursued in raising the money for the organ fund, each one contributing \$1 earned in some way for that special object. It was an "experience" that in many cases furnished examples of considerable ingenuity and perseverance. The sum of \$2000 represented the grand total, a remarkable showing, certainly. One little girl of 12 years told her story in verse. Her contribution to rhythmic literature evidenced no small degree of originality and won for her the plaudits of a friendly audience. It is as follows:

One hard-earned dollar I have brought
For selling chestnuts by the quart.
I picked them slowly, one by one,
Which you will find is no great fun;
But then, I wished to raise some "moor"
To help along the organ fund.

By sticking stamps, I got ten cents;
For errands done I earned one penny;
Now please accept my shining dollar,
I hope it will make the organ fuller.

It isn't much, but perhaps it'll do
For a girl of twelve and a few days too,
And I hope that in some future time
I yet may add a few more dimes.

SIMPSON BROTHERS,
CONTRACTORS FORConcrete Walks, Driveways,
Asphalt Floors and Artificial Stone Walks.

We have been awarded the Sidewalk Contract for

OH, YES, WE TRUST.

Oh, yes, we trust that somehow good
Will be the final end of ill,
To pang of nature, sins of will,
Defects of doubt and taints of blood;
That nothing walks with aimless feet;
That not one life shall be destroyed,
Or cast as rubbish to the void,
When God hath made the pile complete;
That not a worm is cloven in vain;
That not a moth with vain desire
Is shrivel'd in a fruitless fire,
Or but subserves another's gain.
Behold, we know not anything!
I can but trust that good shall fall
At last—far off—at last, to all,
And every winter change to spring.

INDIAN REVENGE.

Jed Wilson and I were neither of us much over 20 when, in the reckless spirit of adventure, we joined a company of threescore hardy fellows who were on the point of starting off up the Umpqua river.

After many days of the most difficult travel we came at length in sight of an Indian village, and approaching this village to within a quarter of a mile we pitched our permanent camp.

We had been there a very few minutes before our redskin neighbors became aware of our presence, and immediately they swarmed down upon us, displaying the most hostile intentions. The sight of our weapons cowed them, and they saw it would be best to leave us alone.

The chief of the tribe was one Wah-kia-na, a tall, muscular Indian of perhaps 45. As the days went by Wah-kia-na became quite a frequent visitor. His favorite lounging place was the log cabin in which Jed and I did the cooking.

One morning Jed discovered Wah-kia-na in the act of jabbing a long, sharp pointed piece of iron he invariably carried in his belt into the soup kettle, hoping no doubt to fish out a nice hot chunk of beef. This was more than my companion could stand.

Knocking the iron out of the redskin's hand with a quick blow, Jed grabbed the fellow by the scruff and the black and rushed him out of the cabin, quitting him with a push that sent him sprawling upon the ground.

After that Wah-kia-na came to the cookhouse no more, and in a month or so the incident had dropped completely from our minds. But not from the Indian's. In his heart he nurtured vengeance.

One day we learned that there emptied into the Umpqua a certain stream, the exploration of which promised considerable sport. This tributary was known as Smith's river, after an unfortunate trapper who had been killed by the Indians many years before.

When we had arranged our plans, we made them known to Wattle Linn, a sturdy old backwoodsman, who had taken quite a fancy to us youngsters and had more than once proved himself a true friend.

"Don't ye go, boys," said Wattle. "Why not?" asked Jed. "We can manage the canoe all right."

"Tain't that."

"What is it, then? Are you afraid of the Indians cutting us off?"

"Waal, yes, that's about it," replied Wattle.

Just as we were pushing off along came Wattle.

"So yer bound to go, boys?" he said half reproachfully. "Waal, good luck to ye. But look hyar, I want ye to promise me a something. Guess it'll take ye three days to get up to Smith's, thar bein a freshet in the river, but a day ought to fetch ye back slick as grease. Now, give me yer word, boys, to be back hyar by five days at the latest—that is, if ye kin."

We promised the old fellow and dipped our paddles, impatient to be off.

"Good, lads, and now look hyar. If so be as ye meet trouble and hev to quit the canoe and tramp home make tracks down the right bank of the river; the right bank, do ye heer?"

Nothing particular happened until the afternoon of the third day. We were ripping along very quietly when suddenly Jed reached over the side of the canoe and fished something out of the water. It proved to be a small closely woven Indian basket.

"That's bad, Jed," I exclaimed. "Sure as guns thers redskins ahead of us."

"We'd have met the beggars if they had come down stream; so they must have gone up," said I. "What's to be done, Jed?"

"Done! Go ahead and trust in Providence," replied Jed. "They may be friendly or they may not. Anyhow we've got our rifles."

"What's that yonder?" cried Jed, pointing to a hill a little distance ahead. Its sloping side was dotted with what looked to be huts. We rested on our paddles and gazed upon the scene with silent anxiety.

We found the cause of our wonder to be an old Indian burying ground. The hutlike risings were simply hillocks of earth, each of which marked the resting place of a warrior.

Paddling a mile or two farther along, we camped for the night.

As soon as it was light enough we started to mount to the top of what we meant to be our long toboggan slide back to Umpqua. It was the worst rapid we had yet encountered. After trying it several ways without success we had to resort to the towing line.

We dragged our little craft up through the boiling current yard by yard. It may have been within a dozen feet of us when crack! the stout hide line suddenly snapped, and away went the canoe with all our stores and Jed's rifle, dashing madly down the falls.

"What fools to worry," cried Jed, "when we can get all the canoes we want!"

"Where?"

"Down in the burial ground of course. It's only a mile or so. Come along."

Fortunately we were on the same side

of the river and an hour's hard struggling through the dense woods brought us to the cemetery. We found that most of the canoes were in very bad condition, but finally came across one that seemed seaworthy. Our good fortune mended our spirits, and as we sped onward we laughed and joked and broke into rollicking songs.

We had made a mile or so when, shooting round a sharp elbow of the river, we were thunderstruck to find ourselves abreast of a large Indian camp pitched on the bank. The narrowing of the stream at this point brought us within 20 yards of our foes.

Uttering a howl of rage, they made a wild rush for the water's edge, threw themselves into their canoes and came after us in full pursuit. And foremost among them we recognized the tall form of Wah-kia-na.

With a swift wave of our paddles we turned the nose of our antique craft toward the bank, reaching which, we leaped ashore. I seized the gun, and in two seconds we were tearing through the thick brushwood toward the forest beyond.

That afternoon and evening I tramped many miles. At nightfall, being utterly fagged out, I threw myself upon the turf beside a small stream and was soon sound asleep.

I awoke a little after dawn, cold and stiff and desperately hungry. I was about to move along when I was startled to hear a crackling among the brushwood. I set my teeth and brought my rifle to my shoulder, ready to fire as soon as the thing should break cover.

Presently who should stagger into view but Jed, the poor fellow ready to drop with fatigue and hunger. We started off, but soon Jed, who was carrying the gun, while clambering over the rocks made a misstep and fell. The weapon flew from his hand, and the trigger striking hard against a stump, a loud report followed among the surrounding hills.

But that was not the worst. Jed's ankle received a very bad twist in his fall, and for some minutes the poor fellow was agonized with pain.

Now we noticed a column of smoke rising nearly opposite our position from the other bank of the river.

"A signal!" cried Jed. "They must have heard the report. What a clumsy idiot I was!"

"And see," said I, "there's an answering signal to the right and another to the left. But we've got a good start of them, and before they strike our trail we must be miles away."

All that afternoon we toiled onward over our rugged course. Meantime, however, Jed's wounded ankle grew worse, until at sunset it was swollen to twice its natural size, and he could proceed no farther.

Twilight slowly darkened into night. The moon rose and cast her fading light upon the scene. A more welcome light, I think, I shall never behold.

Presently signal fires on the hills near by told us that the rest of our enemies were close at hand. Again I looked to the priming of my gun and otherwise prepared for action.

For fully 20 minutes we heard nothing of our foes, though we knew well the cowardly fellows were debating how best to reach us. Then, from their ambush in the wild oaks, we heard voices, as though they were encouraging each other to charge, and we realized that the crisis was at hand.

Suddenly I was startled by an exclamation from Jed.

"It's all up, Joe!" he cried. "No use firing. The villains have got us in the rear."

"Hist, boys, hist!" whispered a voice from the bow of the canoe.

"Good heavens, it's Wattle!"

"Aye, boys, and just in the nick of time. Catch hold of this hyar line and haul us in right smart."

This was done, and all so quietly and quickly that the Indians knew nothing of our re-enforcements. A minute later they broke cover, rushed into the open, and with a blood curdling yell charged pellmell down upon us.

"Fire!" shouted Wattle in a voice that rang loud above the uproar, and instantly five spots of flame flashed in the faces of our foes.

Surprised, thunderstruck, utterly discomfited, the advancing body reeled back from the volley they had so little expected.

"After 'em, boys!" yelled Wattle, leaping up over the bank and giving chase. We sent them flying in all directions, each Indian intent only on securing his personal safety.

Then, returning to the bank, we sought our two fallen foes. The first we came upon was lying face downward, having pitched forward as a bullet found his heart. Turning him over, we found he was none other than the villainous Wah-kia-na—George H. Westley in Boston Globe.

His Diploma.

"You began practice in Arkansas, did you not, doctor?"

"Yes," replied the physician, "I did. I would have got along all right if it had not been for my diploma. It occurred to one of the natives to ask what it was. 'My diploma,' I answered, 'is from one of the best schools in the country.'"

"Ye don't mean to tell me," said the old man, "that ye had to go to school to larn yo' trade, do ye?"

"Certainly," said I.

"That is enough fer me," said the old man. "Any feller that hain't got no more nateral sense than he has to go to school to larn to be a doctor, and him a grown man, ain't no man fer me," and he jammed his hands into his pockets and walked out. I said six weeks more and gave it up.—Indianapolis Journal.

THE DAFFODILS.

And then my heart with pleasure fills
And dances with the daffodils.
—Wordsworth.

Oh, the laughter of the lilies in the sun!
Purer joy and deeper gladness there is none;
When they hear my lady's feet,
As she hastes the sun to greet,
How they shake with golden laughter every one!

Oh, the laughing—oh, the dancing daffodils!
Shaking in the breeze
Under budding trees
By the lake that lies below the silent hills.

Oh, the trooping of the lilies on the sward
Golden trumpet, saffron surcoat, spear and sword;
Knight and squire with waving crest,
Waiting for my lady's best,
To achieve some daring deed she may applaud.
Oh, the laughing—oh, the dancing daffodils!
Shaking in the breeze
Under budding trees
By the lake that lies below the silent hills.

Oh, the silence of the lilies as they pray,
When the night mist steals up softly from the bay,
And my lady's name is there,
In the solemn vesper prayer,
As the twilight on the hillside dies away!
Oh, the laughing—oh, the dancing daffodils!
Shaking in the breeze
Under budding trees
By the lake that lies below the silent hills.

THE SPIDER'S WEB.

Rosy complexioned and in her fresh spring toilet, she was truly beautiful. Under her long silky lashes her azure eyes had a soft caressing light that illumined her face with kindness. The form, though somewhat slender, was well modeled, and the lines of the neck set off all the attractiveness of a head encircled by a profusion of blond locks.

This was the beautiful and graceful Paoletta, Giorgio's young wife. In a carriage the newly wedded pair were proceeding rapidly along the sun filled river bank, thinking of some way of employing the day.

The carriage paused to allow them to admire the flowers upon a spur of the incline, where the vines, like wild nests, stretched from distance to distance, half concealed by the trees.

"Do you wish to go up there?" asked Paoletta.

She pointed with her delicate hand, from which she had drawn her glove, to the heights of Bellevue.

"For what?" Giorgio asked.

"We might see a house that would suit us—you know we ought to be looking for one," said Paoletta. "We can inquire at the inn."

Giorgio hesitated.

"What of our journey to St. Cloud?" he asked.

"Let it be postponed for awhile."

He did not answer immediately. Finally he said half reluctantly: "As you will. It really makes no difference where we live so long as we are together."

She looked at him brightly, and they descended from the carriage and took their way toward the bank of the Seine.

The inn was deserted.

"Let us mount into that little balcony," she said. "There is a fine view from there."

"As you please."

Soon the sun shone less brightly, for a space shone pallid, then vanished. Great clouds heaped themselves up about them, rapid and compact. A strong wind blew, and large drops of water began to fall.

"Where should they take refuge?"

"There!" said Paoletta.

With her hand she indicated a cottage, upon the threshold of which an old woman stood.

Giorgio suddenly blushed crimson, but accompanied his wife in silence.

"It is for rent; it can be looked over," said the woman, who hoped to find tenants in this handsome young couple.

Giorgio did not respond, but while Paoletta examined the apartments he regarded with interest this slight, boxlike construction, so simply made.

As soon as his wife called him he entered the house. A vision of the garden, the arbor, the honeysuckle and ivy, now nothing more than a mass of green foliage, under which was hidden a little bench covered with moss and gone to decay. A marble dove, blackened by moisture, had been for long years the sole spectator of this devastation.

"It is ten years since the house was left tenanted," prattled the old woman. "The proprietor, who was eccentric, did not wish to let it. But now he is dead, and I have been directed to have a card put up. The necessary repairs will be made."

Paoletta laughed aloud with happy, childlike pleasure.

"Are you willing to rent this house, Giorgio?" she asked.

"The air might be too bracing for you, my dear."

"But not more so than everywhere in the country," put in the old woman. "Besides, the rent is so little—400 francs a year."

"It is very reasonable," said Paoletta. "I shall be delighted to live here. Come, let us visit the rooms. I am charmed with the whole place."

He followed her, examined some apartments decorated with gray paper and red flowers, looked into the dining hall with windows looking upon the Seine, and as he glanced about all the past returned to his memory. No longer was it Paoletta who was before him, but Chiara, the girl he had first loved, and whom he had often seen seated in this little hermitage, to which he had by chance returned.

He had lost her while the cup of love was still full. But he forgot her in time and married the pretty Paoletta, whom he loved. Yet frequently when with her a shadow passed before him—the shadow of a young and lovely woman.

A week later found them settled in the cottage. The outdoor life was a great benefit to Paoletta, who had been something of an invalid. It was arranged that they should pass the winter in the country.

Every day Giorgio went to business in the city, leaving Paoletta alone. The young wife, busy with her new cares,

was happy and contented. She adored music and played a great deal in her hours of solitude.

By and by she noticed that a large spider came out of his lurking place to listen to her. Joined by a long and slender thread to the back of a mirror, he got himself well in evidence upon a decorated cornice, with his keen eyes, his long legs and remained immovable, as if hypnotized by the soft harmonies of Chopin.

Paoletta gradually ceased to fear him. But when to this great spider were added several others she resolved to remove this large family, domesticated no doubt for a number of years. She called in a carpenter to take down the mirror, laughing to see the tribe scampering.

Suddenly she uttered a cry of surprise. Wrapped up in a net, invested with a great mass of cobwebs, a letter sealed with black fell from behind the mirror.

The workman, no less surprised than the young lady, presented the letter to Paoletta, who took it, trembling. On the outside she read:

"To be delivered to Signor Giorgio Dorval after my death."

The young wife's heart beat fast. This letter was directed to her husband. What could it contain?

"It must have been written a long time ago," said the workman.

"It is directed to my husband," responded Paoletta. The man smiled musingly.

"A letter from a woman," he thought.

Should she burn this letter unopened? What might it contain? Should she give it to Giorgio?

No, no; certainly not.

After a long time she broke the seal, and this is what she read:

"My dear Giorgio, I am sick and sad. This house is a prison. I seem to find in it something tragical, leading to revenge and death."

"Although it is ended, completely ended, do not doubt but we shall see each other again. Is our love to endure but one season? Do you not remember your oath of eternal fidelity?"

"I have not forgotten and have returned to our nest. Now I would like to die, surrounded by the things you care for."

"I have re-entered this room, filled with tokens of your love. That reclining chair has seated you frequently, when, returning from a long excursion in the woods, I came to rest my head against your knees, while you touched the brown locks which fell over my forehead. I have reviewed all that year of happiness day by day and only desire to die in this house where you and I have loved."

Paoletta gave a loud cry and fell to the floor. When she returned to her senses, the sun had set, the day was slowly departing, the horizon, tinted with purple, forming a luminous garland. Nothing was changed in the life of the world about her. There was the same azure sky, the same strident shriek of the railway train, the hilarious shouts of the children released from school.

Was what had passed a dream, some strange fancy? No, the letter was there at her feet. It recalled her to reality. It was true—all was true! And suddenly she felt within her heart an enormous weight, and upon her shoulders something laid almost insupportable.

She remained for a long time motionless and silent, making a thousand projects. Then gradually her nerves gave way and tears flowed from her eyes.

When Giorgio returned, he found her calm, but a little nervous.

Several days passed, then Paoletta took to her bed.

A malady which had not been able to carry her to the tomb a year before reappeared. The physician announced that all was over; she would not outlast the fall of the leaves.

She treated Giorgio with coldness, of which she gave no explanation. He attended her, watched over her, supplicated her to tell him why she had changed, but she remained silent, and her calmness made him almost insane.

One morning she said to him, "You will return early today, will you not, Giorgio?"

He bent over her, kissing her tenderly.

"Yes, my darling," he said.

That evening, when he returned, she was dead. She held in her rigid hands a letter—the letter of Chiara. In pencil she had added these words:

"I am jealous of this woman, and of jealousy die. Adieu, Giorgio!"—From the Italian.

Women's Editions.

In speaking of the fad of women's editions of newspapers, The Kingston Freeman says: "It is remarkable that this kind of enterprise is confined to newspapers. Why not let the Bricklayers' union run a big hotel one day for the benefit of charity? Or the West Shore railroad might be turned over to the Y. M. C. A. for a day. It would be interesting to let the W. C. T. U. take charge of a bank for one day and show how it ought to be run. Then there is an opportunity for some pastor to let a half dozen newspaper men manage his church for a week or so, just to let people see what they would do. Another good idea would be for a watchmaker to turn over his shop to the Horsehoers' association. In fact, there is no limit to these schemes, and this ought to be a big year for charities of all kinds."

The Usual Mistake.

The officer had arrested a prisoner for drunkenness, and the judge, for some reason, dismissed him, the officer not being present when the case was called. Later he met the late prisoner on the street.

"Hello!" he exclaimed in astonishment. "What are you doing out here?"

"On my way home," smiled the prisoner.

"How did you get out?"

"The judge discharged me."

"How did that happen?"

"I don't know," and the offender smiled again. "I guess he didn't know I was loaded."—Detroit Free Press.

TRUSTING WOMEN.

THEIR CONFIDENCE OFTEN LEADS TO SUFFERING.

An Ohio Woman's Experience, as Here Related, is Interesting to Every American Woman.

[SPECIAL TO OUR LADY READERS.]

It is a very sad fact that the more a woman trusts to the skill of her physician in treating her female complaints, the longer she is apt to suffer.

Lydia E. Pinkham fully realized this fact when she commenced that exhaustive study that has enabled the women of the world to help themselves. She discovered the source of female complaints, and produced the Vegetable Compound, which is their absolute cure.

When this testimony as the following is given, the woman who thinks she should act quickly, and no longer permit herself to trust to incompetent doctors. The Vegetable Compound is sold by all druggists, and every woman should have it.

"The doctors had told me that unless I went to the hospital and had an operation performed I could not live. I had falling, enlargement, and ulceration of the womb."

"I was in constant misery all the time; my back ached; I was always tired. It was impossible for me to walk far or stand long at a time. I was surely a wreck. I decided that I would give your Compound and Sanative Wash a trial."

"I took three bottles of Lydia E. Pinkham's Vegetable Compound, and used two packages of Sanative Wash, and I am now almost well. I am stouter and healthier than I have ever been in my life. My friends and neighbors and the doctors are surprised at my rapid improvement. I have told them all what I have been taking."—Mrs. ANNETTA BICKMEYER, Bellaire, Belmont Co., O.

The Congregational Club.

In the parlors of the Congregational church at West Newton, Monday night, the members of the Congregational Club gathered for their first meeting this season. After an hour of pleasant social reunion the club and the guests proceeded to the chapel, where supper was served, the blessing being invoked by the Rev. E. H. Byington, D. D.

After justice had been done to the good things provided by Caterer Dill, President Albert F. Hayward called the club to order, and prayer was offered by the Rev. Theodore P. Prudden, D. D.

Mr. James F. C. Hyde referred to the death of Mr. Langdon S. Ward since the last meeting of the club, and on his motion a committee was appointed to present suitable resolutions at the November meeting.

The Rev. M. D. Kneeland, who resigned a pastorate in Boston lately to become field secretary of the New England Sabbath Protective League, spoke briefly in behalf of the League, which has been incorporated under the laws of the state, and has an important work before it in defending the rights of laboring people and others to a day of rest.

The music for the evening was furnished by a quartet from Eliot church, under the direction of Mr. W. H. Dunham, and their singing was appreciated was plainly shown by the audience.

The subject that had been announced was "Some Echoes from the Annual Meeting of the American Board," and the speaker was the Rev. Doremus Souder, M. D., who has lately become the pastor of the Woburn Congregational church, but came of a missionary family, and was for several years a medical missionary in Japan. The meeting of the American Board like that of the Congregational National Council, gave evidence, he said, of the growth of a denominational self-consciousness corresponding to the development of our national self-consciousness. Ringing expression of these feelings found voice in addresses of condemnation of persecuting governments and in demands for more vigorous defence of the missionaries by the State department of our own nation. As to the financial problem, there was a strong sentiment that retrenchment must stop, that there must be no more debts, that pastors must be urged to press the matter with their people, and that an appeal should be made to wealthy men to meet the present deficiency. To all hostile criticism the answers must be "Thank you," "Forward!"

The address was most effective, and was received with frequent applause.

It is a truth in medicine that the smallest dose that performs a cure is the best. De Witt's Little Early Risers are the smallest pills will perform a cure, and are the best.

Suffrage Sure to Come.

To the Editor of the Graphic:—

It is generally conceded that women would be given the right of suffrage in municipal matters were it not for the opposition which is urged against the proposition by women themselves. It seems to me that the objection made by women to this proposition is largely sentimental. It certainly is no argument to say that what is right and expedient should not be permitted, even though some of those to be benefited by it do not approve of it. Nor has the argument any force that woman suffrage ought not to be granted for the reason that many women would not avail themselves of the privilege conferred. There have been municipal and even state elections where less than one-half of the registered voters failed to vote, and there have been many laws passed because they were just and expedient, even though there was apparently no public demand in favor of their passage.

In Massachusetts woman has an equal right with man to hold property, to make contracts and to do business; she also has the same right to enforce her legal rights with reference to property. She is also subject to the same burdens of taxation upon her property for the maintenance of the various departments of government. In other words, in everything that pertains to property, and the burdens upon property for the support of public instruction she stands upon exactly the same footing as does her fellow man. The question now is, shall she be entitled to exercise the right of suffrage in matters pertaining to municipal government in which she has the same interest and the same obligation as man?

The only qualification outside of that of age, residence, nativity, etc., for the exercise of suffrage in Massachusetts is based upon education, and the only educational qualification called for is that the applicant for suffrage shall be able to write his name, and to read the English language. It is of no consequence that he writes his name poorly and reads the language with difficulty, nor is it of any consequence that he comprehends the meaning of the language he reads or that he has intelligence or judgment in the exercise of the privilege conferred.

Now, it will be readily conceded that woman will have no more difficulty in meeting the educational qualification than man, and the only possible objection that can be urged against her exercising the right of suffrage is that it is not expedient that she should do so. Today woman is permitted in Massachusetts to vote for members of the school committee and she is eligible for election upon school boards. No one has doubted the expediency of allowing woman to exercise that privilege, nor has anyone doubted the expediency of allowing woman to hold property, to make contracts and to do business in her individual name. In those states where women have been accorded the privilege of voting in state affairs, as in Wyoming, and in municipal affairs, as in Kansas, the law has worked to the satisfaction of all and is commended by all good citizens in those states. In England woman is permitted to vote, provided she is a freeholder, that is, an owner of the estate upon which she lives, and the English idea appears to go to the extent of advocating the right of a woman to vote provided she owns property in real estate. In this country where the property qualification has been dispensed with, and the educational qualification has been substituted, there would appear to be no good reason for withholding the right of suffrage from women. The theory of a Republican form of government is that the people shall govern and there can be no conclusive or logical reason why a woman should not take part in the government provided she can meet the educational qualifications.

The right of suffrage by women is sure to come. It will come because there is no good and sufficient reason why it should not. It will come because it has been adopted it has met with almost universal approval. It will come because it is along the same line with the privileges that have been extended to women with reference to the holding of property, the making of contracts and taking part in the business affairs of life.

TWO FOOTBALL GAMES.

NEWTON A. A. DEFEATS WORCESTER AND BOSTON E. H. DEFEATS NEWTON 2ND.

Newton A. A. defeated Worcester Polytechnic Saturday afternoon, 10 to 0. The visitors had the lighter team and were unable to offer any sort of resistance to the Newton backs after the latter once got fairly started. The longest run of the game was one of 65 yards by Nichols, who found a splendid opening between Brown and Durand. Smith, Newton's lively quarter-back, blocked off for Nichols until the coast was clear. Sears and Wales also made some pretty runs. The tackling of Booth was easily the best feature of Tech's playing. Roboli of the Polytech was injured in the first half and Harris took his place. No points were made in the second half. The Newton players were Mason, Nash, Warren, Kimball, Eddy, Teale, F. Johnson, (Cotting), Smith, Nichols, (F. Johnson), Sears and Wales.

THE SECOND GAME.

The Newton A. A. 2nd-English High game came next and there was quite a little scrap which resulted in Capt. Callahan retiring from the game, though not of his own accord.

Callahan had opposite him in the line a player of ability in Lee, and the pair started in to rough it, especially after Callahan broke through and secured the ball soon after the kickoff. The umpire did not see Lee strike Callahan, but the latter said he was struck, and gave one in return. The umpire did see Callahan slug, and the English High captain did not deny his act, but claimed that he was acting in self-defence. A squabble ensued, in which everybody had a word to say. The matter was finally patched up by Callahan retiring in favor of Eaton.

English High outplayed Newton, and won by a score of 10 to 0.

The players were Mitchell, Treadwell, Seaver, Lee, Bond, Clarke, (Daggett) Cotting, W. C. Johnson, Skelton, Burdon, Bryant.

RECEPTION TO MRS. HENROTIN.

GIVEN BY NEWTON FEDERATION OF WOMAN'S CLUBS.

Newton's Federation of Woman's Clubs held a reception Monday in Bray's Hall, Newton Centre, in honor of Mrs. Ellen M. Henrotin of Chicago, the national president of the Federation of Woman's Clubs. Mrs. E. L. N. Walton, acting president of the federation, presided, and in a few appropriate remarks introduced the guest of the afternoon.

Mrs. Henrotin spoke of the danger of too much organization. In order to enjoy club life thoroughly, she said, women should understand the underlying principles of clubs. Woman's clubs are to be found all over the world. The woman's movement was first started in missionary societies, then in sanitary commissions, next in the foundation of the W. C. T. U., and now in woman's clubs.

The great work of woman at the Chicago exposition was dwelt upon and a glowing tribute was paid to Mrs. Potter Palmer, whom Mrs. Henrotin regarded as having done more for women than any other woman in the United States, since she gained governmental recognition for them. Of the several hundred congresses held during the Chicago exposition women were excluded from only three of them as speakers.

Six years ago the national federation was started, and its growth has been phenomenal. Its aim is to raise the average of women along ethical, educational and moral lines.

Mrs. Mary A. Livermore said she had lived years in Chicago, and the women of that city know what to say and how to say it. It was wonderful how Mrs. Palmer had led the Chicago exposition, in the face of the indifference of the men. The Chicago Forty-eight Club is what the New England Woman's Club is to New England; it was the mother of all other clubs. Mrs. Livermore went to Chicago in 1854 when it was but a mud hole, and she attributed its rapid growth and growth to the fact that the beginning women were forced to the front in municipal matters and their influence and suggestions made the Chicago of today possible. All the enterprise of women dates from the war, as it unified not only men, but women. After the war women commenced to organize, and Abbie W. May and Kate Lusk Scholer of New York were the pioneers in that direction. Woman's clubs started for sisterly love. In them it is no uncommon thing for a rich woman to pay the club fee of a poor woman, that she too may come and enjoy all the brightness and inspiration of the club.

In 35 years, 40,000 girls have been graduated from colleges, and 30,000 more are now ready to graduate. Do you believe that 400 clubs composed only of women can speak and not be heard? Let us never forget that sisterly love which helps us to tolerate one another, and not one of us but needs toleration.

Regrets were read from Mrs. Julia Ward Howe, Mrs. Ednah D. Cheney, Gov. Greenhalgh, Lieut.-Gov. Wolcott and Mayor Curtis.

Mrs. Alice Ives Breed of Lynn said that she knew Chicago and Boston, and knew also that all the culture and intelligence was not centered in any one part of the country.

Mrs. J. H. Sawyer of Chestnut Hill said club life tended to broaden woman's sphere and encourage nobler living.

Six effectively decorated tables were arranged at either side of the hall, and here refreshments were served after the guests had been presented to the receiving party, consisting of Mrs. Henrotin, Mrs. Walton, Mrs. Hill and Mrs. Alice Ives Breed of Lynn.

At the tables were Mrs. Walter W. Webber, Mrs. George C. Whipple, Mrs. C. W. Higgins, Miss Nellie Plummer, Mrs. Alexander Quackenbush, Mrs. John Avery, Mrs. Frederick Bancroft, Mrs. J. W. Motley, Mrs. James French, Mrs. Henry Tolman, Mrs. W. P. Upham and Mrs. T. W. Clark, together with a corps of young lady assistants.

THREE TIMES IN ONE HOUSE.

BURGLARS MAKE A THIRD VISIT TO THE LATE J. S. FARLOW'S HOUSE IN NEWTON.

The residence of the late John S. Farlow, No. 418 Waverly avenue, Newton, was entered at an early hour Monday morning. The thieves effected an entrance by forcing the fastenings of a rear window. They confined their operations to a great extent to the lower story, visiting a room in which there was a large safe, but not attempting to open it, either through being scared off or because of a desire to avoid the noise of an explosion, if the intent was to blow the safe open. It contained the family plate and other valuables and has been a source of temptation to burglars on two previous occasions when the mansion was entered.

In the previous breaks the knights of the dark lantern managed to get the safe open, once by extracting the key from the late Mr. Farlow's trousers pocket while he slept on in profound ignorance of the presence of the intruders. Considerable booty was secured in the two instances referred to.

The third attempt, reported to the Newton police about noon Monday, was less successful. The articles stolen consisted principally of clothing, and included a man's blue mackintosh, a fine black overcoat, a double-breasted inside coat, a red leather pocketbook containing some valuable papers and a collection of Columbian half-dollars and other coin, the latter representing considerable value.

Sergt. Clay has been detailed by the police department to investigate the case. He secured, it is said, some evidence Monday afternoon of an important character. It may furnish the necessary clue for the detection and apprehension of the thieves.
